B. Implementation Report

MHBG Table 1 Priority Area and Annual Performance Indicators - Progress Report

Priority #: 1

Priority Area: Mobile Crisis Response Team Diversions

Priority Type: MHS

Population(s): SMI, SED, Other

Goal of the priority area:

Ensure Mobile Response Teams maintain high diversion rates.

Objective:

Increase the percentage of MRT calls requiring an acute response that are diverted from an involuntary examination.

Strategies to attain the goal:

The Department will monitor performance on an ongoing basis and offer training and technical assistance resources as needed to maintain performance standards.

Edit Strategies to attain the objective here:
(if needed)

Annual Performance Indicators to measure goal success

Indicator #: 1

Indicator: The percent of MRT calls requiring an acute response that are diverted from an involuntary examination.

Baseline Measurement: In FY 20-21, 81.1% of MRT calls requiring an acute response were diverted from an involuntary examination.

First-year target/outcome measurement: At least 82% of MRT calls requiring an acute response are diverted from an involuntary examination.

Second-year target/outcome measurement: At least 83% of MRT calls requiring an acute response are diverted from an involuntary examination.

New Second-year target/outcome measurement*(if needed)*:

Data Source:

MRT Cumulative Data tracking spreadsheet.

New Data Source*(if needed)*:

Description of Data:

The numerator is the number of calls requiring an acute response that were diverted from an involuntary examination and the denominator is the number of calls requiring an acute response. For the 2020-2021 baseline, the numerator is 13,506 calls diverted, and the denominator is 16,651 calls requiring an acute response.

New Description of Data:*(if needed)*

Data issues/caveats that affect outcome measures:

None.

NOT FINAL

New Data issues/caveats that affect outcome measures:

Report of Progress Toward Goal Attainment

First Year Target: ☑ Achieved ☐ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved *(optional)*:

In FY 21-22, 82.6% of calls requiring an acute response were diverted from involuntary examination, which achieves the first year target of at least 82%.

Second Year Target: ☐ Achieved ☑ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

In FY 22-23, 82.1% of MRT calls requiring an acute response did not result in an involuntary examination. During this fiscal year, Florida substantially increased the capacity of MRTs by creating new teams and expanding existing teams. This increase resulted in the number of teams growing from 39 to 51. Although failing to achieve the target of 83%, Florida maintained a rate above 82%.
Performance of MRTs in Florida can be measured in other ways, showing improvement and effectiveness. For example, the impact of the most recent expansion of teams can be seen in the reduction of average response times for calls meeting the threshold for an acute, in-person response. For FY 21-22, the average statewide response time for acute calls was 71 minutes. In FY 22-23, following the expansion, the average response time for acute calls was 50 minutes, a 21 minute improvement from the previous year.

How second year target was achieved:

Priority #: 2

Priority Area: Intensive Team-Based Services (CAT Teams for Children with SED)

Priority Type: MHS

Population(s): SED

Goal of the priority area:

Expand intensive, team-based services to children with serious emotional disturbances (SED).

Objective:

Increase the number of children served by Community Action Teams (CAT).

Strategies to attain the goal:

Department representatives will educate various community partners on the eligibility, goals, approach to treatment, and location of current CAT teams to help generate more referrals.

Edit Strategies to attain the objective here:
(if needed)

Annual Performance Indicators to measure goal success

Indicator #: 1

Indicator: The number of children with Serious Emotional Disturbance (SED) served by Community Action Teams.

Baseline Measurement: In FY 20-21, 3,423 children were served by Community Action Teams.

First-year target/outcome measurement: By June 30, 2022, increase the number of children served by 50 (for a total of 3,473 children served)

Second-year target/outcome measurement: By June 30, 2023, increase the number of children served by 50 (for a total of 3,523 children served)

New Second-year target/outcome measurement*(if needed)*:

NOT FINAL

Data Source:

The data source is the CAT monthly supplemental data reports.

New Data Source*(if needed)*:

Description of Data:

This is the total number of young people served, unduplicated across all CAT teams.

New Description of Data:*(if needed)*

Data issues/caveats that affect outcome measures:

None.

New Data issues/caveats that affect outcome measures:

Report of Progress Toward Goal Attainment

First Year Target: ☐ Achieved ☑ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:
The number of individuals served by Community Action Teams (CAT) in FY 21-22 was 3,418, failing to reach the first year target to increase the numbers served by CATs by 50 (to 3,473).

In addition to CATs in Florida, the Department funds Care Coordination to assist individuals who are not effectively connected with the services and supports they need to transition successfully from higher levels of care to community-based care. Beginning in January 2021, the Department expanded the role of Care Coordination to include children/adolescents considered acute care high utilizers (defined as three or more admissions to a crisis stabilization unit or inpatient psychiatric hospital within 180 days). This expansion created an overlap in eligibility requirements and led to the Department urging Managing Entities to use Care Coordination as a way to help children on waiting lists for CAT services. This diverted individuals who may have been served by a CAT. In FY 21-22, 560 children and adolescents identified as acute care high utilizers received Care Coordination services.

The Florida legislature recently appropriated additional funding to expand team-based services, including CATs, which might increase the service capacity of existing teams and/or add new teams throughout the state.

How first year target was achieved *(optional)*:

Second Year Target: ☑ Achieved ☐ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

How second year target was achieved:

In FY 22-23, 3,576 individuals were served by Community Action Treatment (CAT) teams.

NOT FINAL

Priority #: 3

Priority Area: Intensive Team-Based Services (Florida Assertive Community Treatment)

Priority Type: MHS

Population(s): SMI

Goal of the priority area:

Increase functioning among individuals served by FACT teams.

Objective:

Increase the percentage of individuals served by FACT teams through the Department maintain or improve their level of functioning.

Strategies to attain the goal:

The Department is exploring the use of a tool for measuring the fidelity of implementation of assertive community treatment services, and may pilot its implementation in the near future. Also, FACT teams are required to incorporate this indicator as a performance measure, pursuant to the contract Guidance Document 16 (FACT Handbook).

Edit Strategies to attain the objective here:
(if needed)

Annual Performance Indicators to measure goal success

Indicator #:	1
Indicator:	The percent of FACT clients served by the Department that either maintain or improve their level of functioning.
Baseline Measurement:	75% of FACT clients served by the Department maintained or improved their level of functioning in FY 20-21.
First-year target/outcome measurement:	At least 77% of FACT clients served by the Department will either maintain or improve their level of functioning.
Second-year target/outcome measurement:	At least 78% of FACT clients served by the Department will either maintain or improve their level of functioning.

New Second-year target/outcome measurement*(if needed)*:

Data Source:

Quarterly Contract reports.

New Data Source*(if needed)*:

Description of Data:

The numerator is the number of FACT clients served by the Department that either maintained or improved their level of functioning. The denominator is the total number of FACT clients served by the Department. For these purposes, the Department will consider the performance of FACT teams that use the same assessment (FARS). Each individual served will be counted once using the most recently available sequentially administered FARS scores.

New Description of Data:*(if needed)*

Data issues/caveats that affect outcome measures:

None

New Data issues/caveats that affect outcome measures:

Report of Progress Toward Goal Attainment

First Year Target: ☐ Achieved ☑ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:
For FY 21-22, 76% of Florida Assertive Community Treatment (FACT) clients maintained or improved their level of functioning, which is below the first year target of at least 77%. Although the Department failed to meet the first year target, there was still an increase from the baseline level.

FACT teams utilize a transdisciplinary approach to deliver comprehensive care and promote independent, integrated living for individuals with serious mental illness. The teams are required to maintain minimum staffing standards to ensure ACT is implemented with fidelity; however, throughout FY21-22 numerous FACT teams experienced staffing shortages, particularly in nursing and the peer specialist roles. The target, to increase the level of functioning of individuals served by FACT teams, may not have been achieved due to these staffing shortages. Implementing FACT with a fully staffed team maximizes overall functional improvements and stability for individuals with serious mental illness.

The Florida legislature recently appropriated additional funding to expand team-based services, including FACT teams. The Department has directed Managing Entities to increase FACT team staffing with the goals to address staffing shortages and attract qualified

NOT FINAL

professionals.

How first year target was achieved *(optional)*:

Second Year Target: ☑ Achieved ☐ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

How second year target was achieved:

In FY 22-23, 81% of Florida Assertive Community Treatment (FACT) clients maintained or improved their level of functioning.

Priority #: 4

Priority Area: Services for Pregnant Women and Women with Dependent Children

Priority Type: SAT

Population(s): PWWDC

Goal of the priority area:

Improve services for pregnant women.

Objective:

Increase the rate of successful treatment completion among pregnant women served by the Department.

Strategies to attain the goal:

The Department will monitor discharges on an ongoing basis in coordination with regional Department representatives, Managing Entities, and Neonatal Abstinence Syndrome/Substance Exposed Newborn (NAS/SEN) Care Coordinators, and headquarters subject matter experts. Obstacles to successful completion will be described and analyzed. The Department will also identify and promote relevant training materials designed to improve retention and completion rates. The Women's Services Coordinator is responsible for reviewing data submitted by the Managing Entities, addressing discrepancies, completing quarterly reports, and sharing resources. Additionally, the Statewide NAS/SEN Care Coordinator is responsible for overseeing a statewide coordinated response across programs for families at risk of or with infants born substance exposed and for providing guidance to six regional NAS/SEN Care Coordinators. The Department also continues to contract with the Florida Association of Alcohol and Drug Abuse and the Florida Certification Board to provide online trainings and resources on evidence-based practices and treatment specific to pregnant women.

Edit Strategies to attain the objective here:
(if needed)

Annual Performance Indicators to measure goal success

Indicator #: 1

Indicator: The percent of discharges among pregnant women that are successful.

Baseline Measurement: In FY 20-21, 61.3% of discharges among pregnant women were successful.

First-year target/outcome measurement: By June 30, 2022, increase the percentage of pregnant women discharges that are successful by 2 percentage points (from 61.3% up to 63.3%).

Second-year target/outcome measurement: By June 30, 2023, increase the percentage of pregnant women discharges that are successful by 2 percentage points above the FY 21-22 performance.

New Second-year target/outcome measurement*(if needed)*:

Data Source:

The Department's Financial and Services Accountability Management System (FASAMS)

New Data Source*(if needed)*:

Description of Data:

The numerator is the number of pregnant women discharges reflecting successful completion, comprised of three discharge reason codes: (1) successfully completed treatment, (2) successfully completed transfer to another program/facility, and (3) successfully

NOT FINAL

completed transfer to another program/facility that is not in the reporting system. The denominator is the number of all pregnant women discharges.

New Description of Data:*(if needed)*

Data issues/caveats that affect outcome measures:

None.

New Data issues/caveats that affect outcome measures:

Report of Progress Toward Goal Attainment

First Year Target: ☐ Achieved ☑ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

In FY 21-22, 36% of discharges among pregnant women were successful, failing to meet the first year target of 63.3%. The Department is exploring both nationwide contextual factors and provider-level variables that might be associated with successful completion during this period (July 1, 2021 through June 30, 2022). Several findings are worth considering. First, pandemic-related stress, fear, and restrictions all may have played a contributing role. Surveys of pregnant women show that "ratings of stress, depression, and substance use remained consistently poor over time during the pandemic and mental/emotional health got progressively worse." Researchers found a relationship between elevated perceived stress and depression and subsequent reports of using substances to cope with social distancing, isolation, or stress related to the pandemic. COVID-19 was a significant source of stress for pregnant women. According to a survey of 4,451 pregnant women, nearly half (46%) lost income due to the pandemic. Furthermore, 27% reported high levels of Preparedness Stress and 29% reported Perinatal Infection Stress, with about 18% reporting high levels of both. Infections fears may have deterred continued participation in face-to-face group counseling or group residential treatment. The Centers for Disease Control and Prevention did not declare COVID-19 vaccines as safe for pregnant women until August 11, 2021, and vaccine hesitancy remains an ongoing challenge to this day. Additionally, ongoing post-pandemic behavioral health workforce shortages and turnover, particularly among case managers and care coordinators, may have impacted treatment quality and, by extension, program completion rates. In summation, fear of infection through group living arrangements in residential treatment programs, the need to establish or maintain employment, and increased substance use as a response to stress, and staff vacancies and turnover, may have all contributed to reduced rates of successful treatment completion among pregnant women. With respect to changes needed to meet the target in the future, the Department is working with providers and Managing Entities to review the queries used to extract the discharge records, evaluate the continued inclusion of "Moved Out of State" as an unsuccessful discharge code, and identify factors associated with successful completion and dropout. Providers showing high rates of successful completion are being asked to describe what is working in the interest of advising and assisting providers with lower rates. Exploratory conversations conducted to date suggest that stable income through employment contributes to successful completion by facilitating access to post-discharge housing, with one program observing that women save about 75% of their income to ensure housing when they are discharged. Other variables that might contribute to successful completion include time spent in individual therapy sessions and access to specialty services that bolster skills related to coping with trauma, managing finances, parenting, etc. The Department is also examining exactly which program rules and policies are often violated and resulting in involuntary discharges, to explore whether formal changes to policy or practice are needed.

How first year target was achieved *(optional)*:

Second Year Target: ☐ Achieved ☑ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

In FY 22-23, 33.9% of discharges among pregnant women were successful, failing to meet the second year target. Although the target was not met, three of the seven Managing Entities (MEs) in Florida exceeded the target.

Data analysis revealed that some discharge reasons identified as unsuccessful to calculate the baseline measure should have been excluded. When the data was run again with the questionable discharge reasons excluded, four of the seven MEs exceeded the target, and the remaining three missed the target by 5% or less.

For the next grant cycle, the Department will ensure that inappropriate reasons for discharge, such as moving out of the state, are not counted as unsuccessful, allowing for a more accurate measure of successful discharge. This will allow the MEs and providers to continue to use existing strategies and develop new strategies to increase successful discharges for pregnant women.

NOT FINAL

How second year target was achieved:

Priority #: 5

Priority Area: Coordinated Specialty Care (CSC) for Early Serious Mental Illness (ESMI)

Priority Type: MHS

Population(s): ESMI

Goal of the priority area:

Improve functioning or symptom severity among individuals served by Coordinated Specialty Care (CSC) for Early Serious Mental Illness (ESMI) programs.

Objective:

Maintain a high percent of individuals served that experience improvements in functioning or symptom severity.

Strategies to attain the goal:

The Department will monitor progress, periodically consult with the teams regarding obstacles, and secure any training/TA needed to address inadequate progress.

Edit Strategies to attain the objective here:
(if needed)

Annual Performance Indicators to measure goal success

Indicator #: 1

Indicator: The percent of individuals served by CSC-ESMI teams that experience improvements in functioning or symptom severity.

Baseline Measurement: 80% of individuals served by CSC for ESMI programs experienced improvements in functioning or symptom severity (FY 20-21).

First-year target/outcome measurement: At least 80% of individuals served by CSC for ESMI in FY 21-22 experience improvements in functioning or symptom severity.

Second-year target/outcome measurement: At least 80% of individuals served by CSC for ESMI in FY 22-23 experience improvements in functioning or symptom severity.

New Second-year target/outcome measurement*(if needed)*:

Data Source:

Data is reported by the CSC-ESMI teams and based on various instruments measuring functional improvement, including the Brief Psychiatric Rating Scale and Basis-32.

New Data Source*(if needed)*:

Description of Data:

The numerator is the unduplicated number of initial/baseline assessments. The denominator is the unduplicated number of the most recent subsequent assessments showing improvements in functioning or symptom severity.

New Description of Data:*(if needed)*

Data issues/caveats that affect outcome measures:

None.

New Data issues/caveats that affect outcome measures:

NOT FINAL

Report of Progress Toward Goal Attainment

First Year Target: ☐ Achieved ☑ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

In FY 21-22, 78.7% of individuals served by CSC for ESMI programs experienced improvements in functioning or symptom severity, which is below the first year target of at least 80%.

All except for three teams reported success rates of 80% or higher. Unfortunately, their rates were low enough to pull the overall percentage down.

Coordinating discussion with high- and low-achieving providers will provide insight into what works and areas for meaningful improvement. [HOLD for potential re-write focusing on an exploratory survey analysis of the providers re: factors perceived to be associated with functional improvement vs. decompensation]

Below is the list of teams ranked by percentage of individuals served by CSC for ESMI teams who experienced improvements in function or symptom severity. Percentages are based on data reported by the Managing Entities via the Block Grant Reporting Template. Note that Clay Behavioral Health Center, Inc. and Citrus Health Network, Inc. have multiple teams and are listed multiple times below.

Life Management Center (54%)
Early Treatment Program - South Broward (56%)
Early Treatment Program - Central Broward (63%)
Success 4 Kids and Families (82%)
Clay Behavioral Health Center, Inc. (88%)
Citrus Health Network, Inc. (94%)
Aspire Health Partners (98%)
Citrus Health Network, Inc. (100%)
Clay Behavioral Health Center, Inc. (100%)
Peace River Center (100%)
South County Medical Health Center - NAVIGATE Program (100%)

How first year target was achieved *(optional)*:

Second Year Target: ☐ Achieved ☑ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

In FY 22-23, 77.9% of individuals served by CSC for ESMI programs experienced improvements in functioning or symptom severity.

Only four teams reported success rates of 80% or higher; however, the overall rate was just below the target.

Many teams are relatively new and only recently able to provide services. A majority of the teams, in fact, were not established until COVID-19 and American Rescue Plan Act Block Grant funds were awarded. Further, staffing shortages have led to teams having substantial difficulty hiring and maintaining sufficient staff.

There are several possibilities being explored to examine what's working for the highest achieving teams and where things can be improved. One aspiration is to develop a data collection that can target team performance and illustrate the need for this service throughout the state. Additionally, discussions with providers will provide insight.

Below is the list of teams included in this measure ranked by percentage of individuals served by CSC for ESMI teams who experienced improvements in functioning or symptom severity. Percentages are based on data reported by the Managing Entities via the Block Grant Data Reporting Template. Note that Clay Behavioral Health Center, Inc. and Citrus Health Network, Inc. have multiple teams and are listed multiple times below.

Clay Behavioral Health Center, Inc. (100%)
Clay Behavioral Health Center, Inc. (100%)
Peace River Center (92%)
Citrus Health Network, Inc. (90%)
SMA Healthcare, Inc. (90%)
David Lawrence Mental Health Center (83%)
Aspire Health Partners, Inc. (81%)
Citrus Health Network, Inc. (81%)
Success 4 Kids & Families (81%)
South County Mental Health Center (80%)
Early Treatment Program - South Broward (70%)
Life Management Center (66%)

NOT FINAL

Early Treatment Program - Central Broward (58%)
Early Treatment Program - Treasure Coast (50%)

How second year target was achieved:

Priority #: 6

Priority Area: Infectious Disease Control

Priority Type: SAT

Population(s): PWID, EIS/HIV

Goal of the priority area:

Ensure the implementation of Florida's HIV EIS set-aside is cost-effective.

Objective:

Ensure HIV EIS funds are cost-effective by targeting services to maintain an HIV test positivity rate of at least 0.10%.

Strategies to attain the goal:

The Department analyze historical provider-level variation in test positivity rates to identify factors associated with both high and low performance, and share findings and recommendations with any underperforming providers.

Edit Strategies to attain the objective here:
(if needed)

Annual Performance Indicators to measure goal success

Indicator #: 1

Indicator: The percent of HIV tests that are positive (among providers reporting at least one positive test).

Baseline Measurement: In FY 20-21, the percent of HIV tests that were positive (among providers reporting at least one positive test) was 1.01%.

First-year target/outcome measurement: In FY 21-22, the percent of HIV tests that are positive (among providers reporting at least one positive test) will be at or above 0.10%

Second-year target/outcome measurement: In FY 22-23, the percent of HIV tests that are positive (among providers reporting at least one positive test) will be at or above 0.10%

New Second-year target/outcome measurement*(if needed)*:

Data Source:

Data are self-reported by providers through contract Template 2 (SAMH Block Grant Reporting Template).

New Data Source*(if needed)*:

Description of Data:

The numerator is the number of positive HIV tests and the denominator is the total number of tests administered.

New Description of Data:*(if needed)*

Data issues/caveats that affect outcome measures:

None

New Data issues/caveats that affect outcome measures:

NOT FINAL

Report of Progress Toward Goal Attainment

First Year Target: ☑ Achieved ☐ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved *(optional)*:

In FY 21-22 among providers reporting at least one positive HIV test, the percent of tests that were positive exceeded the first year target of 0.10%. Providers reported 162 positive HIV tests out of 10,989 total tests conducted, resulting in a positivity rate of 1.47% and achieving the first year target.

Second Year Target: ☑ Achieved ☐ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

How second year target was achieved:

In FY 22-23, among providers reporting at least one positive HIV test, the percent of tests that were positive was 1.53%, exceeding the first year target of at least 0.10%.

Priority #: 7

Priority Area: Infectious Disease Control

Priority Type: SAT

Population(s): TB

Goal of the priority area:

Prevent the spread of tuberculosis (TB) through screening of at-risk individuals and behavioral health services that support TB medication adherence and TB treatment completion.

Objective:

Maintain a low tuberculosis case rate.

Strategies to attain the goal:

Collaborate with the Department of Health regarding opportunities to convey behavioral health resources and training opportunities.

Edit Strategies to attain the objective here:
(if needed)

Annual Performance Indicators to measure goal success

Indicator #: 1

Indicator: The tuberculosis case rate (per 100,000).

Baseline Measurement: Florida's 2020 tuberculosis case rate was 1.9 per 100,000.

First-year target/outcome measurement: Maintain a 2021 tuberculosis case rate at or below 2.5 per 100,000.

Second-year target/outcome measurement: Maintain a 2022 tuberculosis case rate at or below 2.0 per 100,000.

New Second-year target/outcome measurement*(if needed)*:

Data Source:

Tuberculosis cases per 100,000 come from the Florida Department of Health and are published at www.flhealthcharts.com.

New Data Source*(if needed)*:

Description of Data:

For the baseline (Calendar Year 2020), the numerator is 412 tuberculosis cases, and the denominator is 21,640,766 individuals, yielding a rate of 1.9 per 100,000.

NOT FINAL

New Description of Data:*(if needed)*

Data issues/caveats that affect outcome measures:

None.

New Data issues/caveats that affect outcome measures:

Report of Progress Toward Goal Attainment

First Year Target: ☑ Achieved ☐ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved *(optional)*:
The tuberculosis case rate for FY 21-22 was 2.3 per 100,000.

Second Year Target: ☐ Achieved ☑ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

In FY 22-23, the tuberculosis case rate was 2.4 per 100,000. Although the performance indicator was not achieved, Florida's case rate trend is similar to that seen in other states and nationally and suggests a possible return to pre-pandemic levels of infection.

Schidildknecht, K. R., Prat, R. H., Feng, P.-J. I., Price, S. F., & Self, J. L. Tuberculosis - United States, 2022. MMWR Morb Mortal Wkly Rep 2023;72:297-303.

How second year target was achieved:

Priority #: 8

Priority Area: Primary Prevention

Priority Type: SAP

Population(s): PP, Other

Goal of the priority area:

Promote evidence-based prevention services delivered by a professional prevention workforce.

Objective:

(1) Classify at least half of all the environmental strategies currently being implemented as either evidence-based or not.

(2) Identify and increase access to evidence-based drug prevention programs that also have experimental evidence of effectiveness at preventing symptoms of depression.

(3) Identify and increase access to evidence-based drug prevention programs that also have experimental evidence of effectiveness at preventing suicide-related thoughts and behaviors.

(4) Identify and increase access to programs that address Adverse Childhood Experiences by helping parents and youth build skills to manage stress and emotions.

(5) Publish a proposal to reallocate set-aside funds from ineffective programs or untested programs to effective programs.

(6) Develop and administer a prevention workforce survey to identify gaps in the prevention workforce and publish recommendations for addressing the identified gaps.

(7) Implement at least two of the published recommendations based on the prevention workforce survey findings.

Strategies to attain the goal:

With respect to identifying programs with evidence of effectiveness at reducing substance use, symptoms of depression, and suicide-related thoughts

NOT FINAL

and behaviors, the Title IV-E Prevention Services Clearinghouse will be consulted for reviews of the evidence on mental health, substance use, and parent skill-based programs/services. Archived evidence reviews previously hosted on SAMHSA's NREPP will also be examined. With respect to the evidence for environmental prevention strategies, the Department may consult standards established by the Society of Prevention Research in Standards of Evidence for Efficacy, Effectiveness, and Scale-up Research in Prevention Science: Next Generation (2015) and the Centers for Disease Control and Prevention's Guide to Community Preventive Services. Progress toward the objectives will be monitored and discussed on recurring conference calls between the Department's Prevention Coordinator and each Managing Entity's Prevention Coordinator.

Edit Strategies to attain the objective here:
(if needed)

Annual Performance Indicators to measure goal success

Indicator #: 1

Indicator: The number of objectives achieved.

Baseline Measurement: Zero objectives achieved.

First-year target/outcome measurement: By June 30, 2022 achieve 3 out the 7 objectives.

Second-year target/outcome measurement: By June 30, 2023, achieve 5 out of the 7 objectives.

New Second-year target/outcome measurement*(if needed)*:

Data Source:

All information associated with the objectives that comprise the performance indicator (i.e., program lists, priorities, surveys, recommendations, process measures, proposals, etc.) will be reported by the Department's Prevention Coordinator.

New Data Source*(if needed)*:

Description of Data:

The data varies from objective to objective, but it includes published reports, program lists, priorities, surveys, recommendations, and proposals.

New Description of Data:*(if needed)*

Data issues/caveats that affect outcome measures:

None.

New Data issues/caveats that affect outcome measures:

Report of Progress Toward Goal Attainment

First Year Target: ☑ Achieved ☐ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved *(optional)*:
Three of seven objectives were completed, achieving the first year target for this performance indicator. The three objectives listed below are accomplished.

1: Classify at least half of all environmental strategies currently being implemented as either evidence-based or not.

6: Develop and administer a prevention workforce survey to identify gaps in the prevention workforce and publish recommendations for addressing the identified gaps.

7: Implement at least two of the published recommendations based on the prevention workforce survey findings.

To achieve Objective 1, the Department conducted literature reviews for 13 out of 20 environmental strategies being implemented in Florida. The resulting report is attached.

NOT FINAL

To achieve Objectives 6 and 7, a prevention workforce survey was developed and administered by the Florida Alcohol and Drug Abuse Association (FADAA). The report detailing the findings and recommendations is attached. Recommendations 1 and 2 were implemented, see below.

RECOMMENDATION 1: Advertise and promote the Florida Behavioral Health Conference Prevention Training Track.

Survey findings were used to develop the Prevention Training Track for the 2022 Florida Behavioral Health Conference. Communications about the conference and Prevention Training Track were shared with Department staff, Managing Entities, providers, advocates, and other stakeholders around the state.

RECOMMENDATION 2: Develop and deliver webinars and workshops through the FY 22-23 FADAA training and technical assistance contract.

Trainings and webinars developed to target gaps identified in the survey are set to be delivered through the FY 22-23 FADAA training and technical assistance contract. The first webinars "Prevention Ethics", "Substance Use Prevention Messaging for Emerging Adults and College Students", and "Integrating Substance Use Prvention with Wellness" were delivered in September 2022 and November 2022. The next webinar will be "Role and Impact of Social Media on Behavioral Health Prevention" in December 2022.

RECOMMENDATION 3: Facilitate prevention skills training and technical assistance.

Second Year Target: ☑ Achieved ☐ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

How second year target was achieved:

In addition to the three objectives accomplished last year, an objective was completed in FY 22-23, bringing the total to four out of seven, achieving the second year target for this performance indicator. The objective below is accomplished.

3. Identify and increase access to evidence-based drug prevention programs that also have experimental evidence of effectiveness at prevention suicide-related thoughts and behaviors.

The Department reviewed the literature and drafted a report to achieve this objective. The resulting report is attached. ***The report is still being finalized and will be attached once complete.***

Priority #: 9

Priority Area: Recovery Support Services and Recovery Oriented Systems of Care

Priority Type: SAT, MHS

Population(s): SMI, SED, ESMI, PWWDC, PWID, Other

Goal of the priority area:

Establish an integrated, values-based Recovery Oriented System of Care where recovery is expected and achieved through meaningful partnerships and shared decision-making.

Objective:

(1) Develop and pilot a statewide provider-level tracking system for recovery domain scores obtained during Recovery-Oriented Quality Improvement monitoring visits.

(2) Maintain a score of “4” or higher in each of the four core domains of recovery (among providers with an established baseline score).

(3) Increase the number of RCOs in the early development phase from 13 up to 15.

(4) Increase the number of RCOs that have transitioned from the early development phase to the existing/established stage from 11 up to 13.

(5) Increase the number of RCOs that apply for accreditation through the Council on Accreditation of Peer Recovery Support Services (CAPRSS) from 3 up to 5.

(6) Analyze variation in billing codes for peer services and publish a list of recommendations to break-out and specify new codes as needed.

(7) Publish a report describing and evaluating the impact of recent changes and enhancements to the Consumer Satisfaction Survey.

NOT FINAL

(8) Publish a report describing and evaluating the impact of the new Recovery Management Practices contract Guidance Document 35.

(9) Neonatal Abstinence Syndrome/Substance Exposed Newborn (NAS/SEN) Care Coordinators will provide training on how to link pregnant women with substance use disorders to peer recovery support services through RCOs.

Strategies to attain the goal:

The Department's Statewide Coordinator of Integration and Recovery Services will collaborate with system partners on each of the objectives.

Edit Strategies to attain the objective here:
(if needed)

Annual Performance Indicators to measure goal success

Indicator #: 1

Indicator: The number of objectives achieved.

Baseline Measurement: Zero objectives achieved.

First-year target/outcome measurement: By June 30, 2022, achieve 1out of the 9 objectives.

Second-year target/outcome measurement: By June 30, 2023 achieve 3 out of the 9 objectives.

New Second-year target/outcome measurement*(if needed)*:

Data Source:

All information regarding the completion of each objective will be reported by the Department's Statewide Coordinator of Integration and Recovery Services.

New Data Source*(if needed)*:

Description of Data:

The data varies from objective to objective, but it includes published reports, published analyses, and RCO development phase reports.

New Description of Data:*(if needed)*

Data issues/caveats that affect outcome measures:

None.

New Data issues/caveats that affect outcome measures:

Report of Progress Toward Goal Attainment

First Year Target: ☑ Achieved ☐ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved *(optional)*:
The first year target (achieve 1 out of 9 objectives) is achieved. Two objectives, listed below, were accomplished.

Objectives:

4. Increase the number of recovery community organizations (RCO) that have transitioned from the early development phase to the existing/established stage from 11 up to 13. (Achieved)

5. Increase the number of RCOs that apply for accreditation through the Council on Accreditation of Peer Recovery Support Services from 3 up to 5. (Achieved)

In FY 21-22, multiple new RCOs were on-boarded and transitioned from early development into the existing stage, exceeding the target and bringing the total number of existing RCOs in Florida to 15 and achieving objective 4. Recovery Point Palatka transitioned to the existing stage in March 2022. Rise up for Recovery transitioned to the existing stage in April 2022.

NOT FINAL

Additionally, two RCOs applied for accreditation in FY 21-22, achieving objective 5. The Miami Project applied in May 2022, and Recovery Epicenter applied in June 2022.

Second Year Target: ☑ Achieved ☐ Not Achieved *(if not achieved,explain why)*

Reason why target was not achieved, and changes proposed to meet target:

How second year target was achieved:

The second year target (achieve 3 out of 9 objectives is achieved. In addition to the two objectives achieved last year, an additional objective, listed below, was accomplished.

Objective:
3. Increase the number of RCOs in the early development phase from 13 up to 15.

By the end of FY 22-23, the Department has 15 established RCOs. Eleven are currently in the early development phase and the others have moved beyond to the emerging or existing phases.

C. State Agency Expenditure Report

MHBG Table 6 - Maintenance of Effort for State Expenditures on Mental Health Services

This table provides a report of expenditures of all statewide, non-Federal expenditures for authorized activities to treat mental illness during the last completed SFY.

Reporting Period Start Date: 07/01/2022 Reporting Period End Date: 06/30/2023

A Period	B Expenditures	C B1 (2021) + B2 (2022) 2
SFY 2021 (1)	$101,393,373	
SFY 2022 (2)	$101,580,046	$101,486,710
SFY 2023 (3)	$104,380,279	

Are the expenditure amounts reported in Column B "actual" expenditures for the State fiscal years involved?

SFY 2021	Yes	X	No
SFY 2022	Yes	X	No
SFY 2023	Yes	X	No

If estimated expenditures are provided, please indicate when actual expenditure data will be submitted to SAMHSA:

0930-0168 Approved: 06/15/2023 Expires: 06/30/2025
