

CF OPERATING PROCEDURE  
NO. 15-3

STATE OF FLORIDA  
DEPARTMENT OF  
CHILDREN AND FAMILIES  
TALLAHASSEE, July 16, 2012

## Documentation Management

### THE DEPARTMENTAL LOGO

1. Purpose. This operating procedure establishes the standards for graphic identification of the Department of Children and Families. The standards outlined in this operating procedure represent a continuing system of communications with our many customers to identify the department as modern, innovative, responsive and concerned with quality.
2. Background. The Department of Children and Families is one of the state's largest, most comprehensive agencies. By many measures, the department is among the very best government agencies and among the most diverse. For these reasons, it is important that the various parts of the department project one clear image through a coordinated identification program. A coordinated graphics look has a cumulative impact on various audiences and highlights the fact that the Department of Children and Families is a multifaceted, but unified organization.
3. Use of the Departmental Logo. The departmental logo is an official and legal symbol of the Florida Department of Children and Families and all units are entitled to use it for appropriate purposes. In most cases, the logo may be used on printed materials, products and in the media. The logo is a registered servicemark of the Florida Department of Children and Families and may be used on commercial or manufactured products only with approval from the Office of Communications. The department's logo must be reproduced from authorized original illustrations and cannot be redrawn, re-proportioned or modified in any way.
4. Use of the Departmental Logo on Printed Material.
  - a. The logo is the department's standard identifying mark. Although there are some restrictions on using the logo, all offices are encouraged to use it as much as possible to avoid developing individual logos.
  - b. To provide a consistent visual image, all Department of Children and Families publications must adhere to the following:
    - (1) The departmental logo, from authorized originals, must be conspicuously placed on the front cover or back cover of all printed materials that represent the department. While the logo generally requires a buffer zone, no buffer is required to separate the logo from a background such as a photograph.
    - (2) When using the "color" version of the departmental logo, the official blue (PMS 2935U) and official green (PMS 362U) must be used.
  - c. If you have a compelling, special reason for your program or unit to create an individual logo, the Office of Communications will work with you to determine and meet your needs.
