

Child Death Screen Out Review, 2nd Quarter of 2016

Intake Number	Report Sequence	Intake Date	Child ID	Child First Name	Child Last Name	DOB	DOD	Screen In/Out Status	Primary Screen Out Reason	Secondary Screen Out Reason	Reporter	Allegation Narrative	Other Notes from Intake:
2016-103532	1	4/14/2016	105111107	█	█	00/00/0000	00/00/0000	Screen out	No Jurisdiction	Not a Caregiver	Other	The perpetrator was under the influence of meth when he blacked out while driving the vehicle and he killed a three year old child last Friday. The family is now receiving death threats. There are concerns that the family may be in danger due to the fact that the wife of the perp and the perp showed no remorse for the death of the child. They were seen laughing on the scene.	
2016-111543	1	4/21/2016	105124199	Unknown	Unknown	00/00/0000	00/00/0000	Screen out	Investigated through other Intake	Investigated through other intake	Other	The children and their mother have been living with her boyfriend since December of 2015. In the past, "Something happened to one of his kids. Like one of them died. And he wasn't allowed to be around the kids at all". Further specifics regarding the death of the child are unknown. At this point, the paramour is trying to contact an attorney to obtain rights back to his children. In December 2015, while living in Deltona, the mother and her boyfriend were growing marijuana. At the time, █ was aware the marijuana was being grown and moved from the home to another location. It is unknown if they were growing the marijuana to sell it. The mother is mentally abusive towards █. She tells them things such as their father does not love them, their father is going to sign his rights away to them, etc. █ has angry outbursts because of this. On April 20, 2016, █ punched her stepmother in the face and was arrested. She has also hit the mother and her grandmother. █ also has depression due to the mental abuse. There are concerns that the mother is neglecting █. █ does not have a bedroom to sleep in. There is not enough room at the mother's house. On one known occasion, █ has been left home alone with the mother's boyfriend while he was drunk. Specifics regarding the impact to █ at the time are unknown. It is a very unstable environment. They have moved at least three times in 2 1/2 years and █ has been to at least four schools.	This intake was split from 2016-109767, in which the death was alleged but not listed as a maltreatment. The investigator followed up on the death allegation and determined that the child died of SIDS 17 years ago.
2016-112372	1	4/23/2016	105129340	Unknown	Unknown	00/00/0000	00/00/0000	Screen out	No Jurisdiction	No victim established -Stillborn	Hospital Social Worker	The mother was three months pregnant and had a "spontaneous abortion" that was drug related on 04/21/16. She went to the emergency room on 04/22/16 with the fetus in a bag. The baby was not breathing when the mother gave birth and it was stillborn. It was an overdose that created the stillborn. The mother knew that she was pregnant and it is not known if it was intentional. She did not get any prenatal care. Her insides are infected and now she is on an intubator and a ventilator. She used cocaine and benzodiazepines. The mother has attempted suicide in the past and she has healed cuts on both wrists from trying to commit suicide due to being depressed. █.	
2016-118333	1	4/28/2016	105142371	Unknown	Unknown	00/00/0000	00/00/0000	Screen out	No Means to Locate	No identifying information provided	Anonymous	There are kids that have been killed as a result of a cult that believes in sacrificing kids through a ritual. Kids have been killed through crucifixion, drowning, and thrown into fires. In 2008, a child named █ died as a result of a drowning. Kids have also been sexually abused. There are at least three meetings a week. The meetings have taken place in Tarpon Springs. The meeting have also taken place in Florida in an area called Moon Lake. There have been more than five kids involved in the process. The parents of the kids are involved and will sacrifice their kids during the rituals at times. Law enforcement has been notified. Yesterday, there was a child that was murdered. There was also a child murdered on 10/31/2015. Dates regarding other possible child deaths are in 2004 and 2012. There have been animals killed in front of kids.	
2016-122365	1	5/2/2016	100345350	█	█	█	5/2/2016	Screen out	No Jurisdiction	Not a Caregiver	Nurse	On 05/2016, █ died as a result of overdosing on cocaine. █ was pronounced dead at 20:31. █ was brain dead and her mother stated that she did not want █ to be resuscitated. Prior to her death █ was in the care of her mother, but had been gone away from the home for two days. At this time al that has been reported was that █ had visited a man who took her to his home to use cocaine. They then had sex and when the condom broke █ advised that she had a chronic medical disorder. The unknown male then said that he and █ got into an altercation and they both passed out. The next morning he found █ unresponsive and he called 911. It is believed that the mother was aware that █ was using cocaine. It is unknown where she was getting the cocaine. █ had a past of human trafficking and prostituting for drugs. There were scratches and bruising located on █ her chest and arms.	This intake was entered as an Additional but was later split from 2016-121684, which contained the allegations of Human Trafficking by a non-caregiver.

2016-124008	1	5/4/2016	105154517	████	████	██████	00/00/0000	Screen out	No allegation of maltreatment reported	Missing child, death not established	Other	In July 2015, █████ and his friend █████ went out in the ocean in a tiny boat and were never found. █████ and his friend have been declared "dead" by Florida Fish and Wildlife. The mother may have allowed █████ to go out in the boat several times without proper resources; however it was determined █████ and his friend had life jackets and a flotation device. The mother was being neglectful to █████ by allowing him to go on a boat in the ocean. █████ was not being supervised. The mother set up a "Go Fund Me" account to search for █████ and his friend. The mother raised over a million dollars.	
2016-126613	1	5/6/2016	105160075	Unknown	Unknown	00/00/0000	00/00/0000	Screen out	Investigated through other Intake	Investigated through other intake	School Counselor	On 05/06/2016, █████ stated that when she was 2 she witnessed her mother drowning her brother.	See intake 2007-433008
2016-138007	1	5/17/2016	105060478	████	████	██████	5/14/2016	Screen out	No allegation of maltreatment reported	Health Related	CBC employee	Mom and dad had intervention from family services due to not taking █████ to medical appointments. On 5/12, last Thursday, the mother took █████ over to see the father in Jacksonville. █████ stopped breathing and 911 was called. █████ was taken to the hospital and put on a breathing tube for 2 days. On 5/14 it was declared that █████ had no brain activity. █████ was taken off the tube and died on 5/14. A medical examination was done. █████ had respiratory failure due to her medical diagnosis. █████ had spinal muscular atrophy type 1. The father's home is dirty, but didn't affect █████ health.	The intake was initially screened in. It was later screened out after review and at the request of Lisa Rivera, Statewide Child Death Review Coordinator.
2016-146128	1	5/24/2016	105201369	████	████	00/00/0000	00/00/0000	Screen out	No allegation of maltreatment reported	Car Accident actual cause of death	Hospital Social Worker	On 5/24/16, █████ was involved in a motor vehicle collision. She was in the vehicle, a Trailblazer, with her mother, 12 year old cousin, █████, and what appears to either be family or friends from Michigan. They were all on their way to Wet N Wild in Orlando. The mother lost control of the vehicle on the Florida Turnpike by the Celebration area. The vehicle rolled over several times and a semi tractor trailer that was behind them hit the back of the vehicle. █████ was ejected from the vehicle and disemboweled. She did not have a pulse on scene when the fire department arrived. She was brought to Arnold Palmer Hospital and pronounced dead at 12:30 PM. There are no concerns that the mother was under the influence of drugs or alcohol at the time of the incident. There are no concerns that █████ death was due to any abuse or neglect. The mother was pinned under the glove compartment and has significant leg injuries. She is at Orlando Regional Medical Center. █████ is at Arnold Palmer Hospital with injuries and is a trauma patient.	
2016-146818	1	5/25/2016	105202714	██████	████	██████	5/25/2016	Screen out	No allegation of maltreatment reported	Health Related	Law Enforcement	██████ has had an extensive medical history over her past 9 months of life. She was hospitalized from birth until 4/16. When she went home from the hospital, she was placed on a ventilator/breathing machine. On 5/25/16, the mother woke up at around 8am. She noticed that █████ was not breathing. The mother called 911. The mother started CPR. Alachua County Fire and Rescue arrived and continued CPR. █████ was cold to the touch. It appeared that rigor mortis had already set in. ACFR detached the ventilator tubes from █████ when performing CPR. There was an alarm going off due to the machine detecting the child was not breathing. █████ death is being deemed medical in nature with no concerns of abuse or neglect. The medical examiner is not getting involved.	
2016-151761	1	5/30/2016	6768318	████	████	██████	5/30/2016	Screen out	No allegation of maltreatment reported	Accidental drowning, unrelated to neglect	Law Enforcement	On 5/30/16, █████ and his family were at Rogers Park (that borders the Weeki Wachee River) in Hernando County. While there, █████ brother threw a ball out into the river, so █████ jumped into the river to get it. While in the water, █████ was "swept away by the river". The family dove in to the water to try to look for him after they did not see him come back up after a minute of him being under water. The family was warning everyone at the river to look out for █████. About 100 yards away nearby neighbors saw █████ body, pulled him from the river and began CPR. A nearby nurse began directing and also gave compressions and breaths to █████. About 25 minutes later, EMS arrived and brought him to Oak Hill Hospital where he was pronounced deceased at 4:37 pm. It is suspected that while █████ was under water, he may have struck his head on the nearby bridge or he may not have been able to swim very well to get himself out. The aunt and brothers were in sight of █████ along with others at the river. There were "a lot" people visiting and swimming in the river due to the holiday. There is no known history with the family and there are no other concerns. No one appeared to be under the influence of any type of substance. The family, who resides in Pasco County, was visiting the park for the holiday.	
2016-153605	1	6/1/2016	10748832	██████	████	██████	3/29/2016	Screen out	No allegation of maltreatment reported	Car Accident actual cause of death	Other	On 3/29/16, █████ went to Walmart with an older friend. The older friend went inside of Walmart. While inside Walmart, █████ got in the driver's seat and stole the vehicle. While joyriding in the vehicle the police began to pursue the stolen vehicle. The vehicle then ran into a pond and all three girls drowned in the vehicle. It is unknown if the girl's parents were aware they stole the vehicle. There are no known causes of abuse or neglect being the cause of the drowning of the three children.	

2016-153605	1	6/1/2016	11372706	████	████	████	3/29/2016	Screen out	No allegation of maltreatment reported	Car Accident actual cause of death	Other	On 3/29/16, █████ went to Walmart with an older friend. The older friend went inside of Walmart. While inside Walmart, █████ got in the driver's seat and stole the vehicle. While joyriding in the vehicle the police began to pursue the stolen vehicle. The vehicle then ran into a pond and all three girls drowned in the vehicle. It is unknown if the girl's parents were aware they stole the vehicle. There are no known causes of abuse or neglect being the cause of the drowning of the three children.	
2016-153605	1	6/1/2016	104227651	████	████	████	3/29/2016	Screen out	No allegation of maltreatment reported	Car Accident actual cause of death	Other	On 3/29/16, █████ went to Walmart with an older friend. The older friend went inside of Walmart. While inside Walmart, █████ got in the driver's seat and stole the vehicle. While joyriding in the vehicle the police began to pursue the stolen vehicle. The vehicle then ran into a pond and all three girls drowned in the vehicle. It is unknown if the girl's parents were aware they stole the vehicle. There are no known causes of abuse or neglect being the cause of the drowning of the three children.	
2016-162046	1	6/9/2016	105234325	████	████	████	6/4/2016	Screen out	No allegation of maltreatment reported	Health Related	Medical Examiner	On 06/04/16, █████ was sick with nausea, diarrhea & vomiting. On 06/06/16, the mother took her to the pediatrician who advised the mother to take █████ to the emergency room right away. It is unknown why 911 was not called from the doctor's office. The mother drove the child to South lake Hospital where she died. An autopsy was completed and there were no signs of trauma or injury to █████. The results are pending and can take up to 6 to 8 weeks to come back. At this time, it is unknown if █████ died of natural causes. █████ did not have any medical problems or prescribed any medications. The pediatrician's office did not have any concerns in regards to █████. She appeared to be healthy and no concerns for abuse. It is unknown how the mother cared for █████ at home.	The counselor staffed the report with a supervisor and a manager, and the decision was to screen out because two medical professionals did not have any concerns of abuse or neglect to the child.
2016-166815	1	6/14/2016	105244245	████	████	████	00/00/0000	Screen out	Investigated through other Intake	Investigated through other intake	Law Enforcement	Approximately four years ago, █████ died while at the All Children's Hospital in St. Petersburg. The cause of death is unknown. It is unknown why █████ was admitted to the hospital. █████ was not a newborn when he died, but he was an infant. The father is a known drug dealer and was selling drugs four years ago, when █████ died. The father and mother were arrested on 06.14.2016, for having various types of drugs and loaded guns in the home. The mother and father had marijuana, methamphetamines, prescription pills, and heroin on the counter and table of the home. Due to the current conditions of the home, and the allegation that the father was selling drugs four years ago when █████ died, there are concerns that he may have died due to abuse or neglect.	A companion intake was screened in for the other children, intake 2016-166852, in which █████ death was mentioned in the narrative but not listed as a maltreatment. The investigator followed up on the information and determined that the child died from natural causes at 47 days old.
2016-167652	1	6/15/2016	101464222	████	████	████	6/15/2016	Screen out	No allegation of maltreatment reported	Accidental drowning, unrelated to neglect	Law Enforcement	On 06.15.2016 at 1 pm, █████ drowned at a local swimming pond about 800 feet from her home. █████ decided to go swimming at the pond. The siblings left their older brother █████ at the home. All three of the children do not know how to swim. █████ took off her shoes and got into the pond. █████ stood on the bank and watched █████ while she was in the pond. █████ shoes kept floating away from her while she was in the pond. █████ attempted to get her shoes, but they floated farther and farther away. █████ got into the pond to help █████ get her shoes. █████ realized that she could not swim and was overwhelmed with being in the pond. As █████ began to drown, █████ ran to get their older brother █████ █████ went and got a neighbor to help them. █████ drowned while in the pond. The underwater recovery (Dive Team) pulled █████ out of the pond. She was in the pond for about twenty minutes before she was recovered. When she was pulled out of the pond, she was deceased. The mother was at work when this situation happened. The mother did not know that the children were going to the pond. This is the first time that the children have been to the pond. There are no disabilities or impairments that would warrant the children needing adult supervision, while the mother is at work. There is no history in FSFN of the children not being adequately supervised. The children are of an appropriate age to be left home alone, or with an older sibling of the age of 17.	This report was reviewed by Hotline management.

2016-197795	1	7/18/2016	██████████	██████████	██████████	██████████	7/30/2015	Screen out	Investigated through other intake	Investigated through other intake	Law Enforcement	<p>Last year, 2015, the grandmother and great grandmother were at home and they were all smoking meth. The mother was not at home at the time of the incident. The grandmother was watching the children. ██████████. The two children drowned in the pool. The mother is currently pregnant and is using drugs. Everyone in the home is on meth. The mother is involved with a group of friends and they all sit around smoking meth. The family still leaves the sliding glass door to the home unlocked. There are no known children in the home currently.</p>

The mother was not at home at the time of the incident. The grandmother was watching the children. ██████████. The two children drowned in the pool. The mother is currently pregnant and is using drugs. Everyone in the home is on meth. The mother is involved with a group of friends and they all sit around smoking meth. The family still leaves the sliding glass door to the home unlocked. There are no known children in the home currently.</p>	
2016-201261	1	7/21/2016	██████████	██████████	██████████	██████████	00/00/0000	Screen out	No Jurisdiction	Not a Caregiver	Social Services Personnel	<p>There is a concern for the safety of ██████████ as the mother reported that she was possibly murdered. ██████████ ran away from the mother on Friday, July 15, 2016. On Monday 7/18/2016, the mother contacted law enforcement to file a runaway report. The mother was contacted by a detective for her to come down to the police station to identify a body that possibly matched the description of ██████████. It is unknown if the mother went to the police station to identify the body or if it was ██████████ body. There has been no further contact with the mother. Other details are unknown. The mother has a history of drug abuse and domestic violence. Mom has not attended the program as she should since Monday</p>	<p>The counselor accepted a concurrent report (Intake 2016-201222) based on the mother's drug use and the fact that the child may not actually be deceased. An investigator verified that the child was not deceased. ██████████</p>
2016-205161	1	7/26/2016	105325492	Unknown	Unknown	00/00/0000	00/00/0000	Screen out	No Jurisdiction	No victim established -Stillborn	Hospital Social Worker	<p>In October 2015, the mother had a child that died due to her chronic drug use and a pre-mature ruptured membrane. The condition was called Fetal Demise due to Uterus Ruptured; it is due to drug use. The mother has a history of abusing Opiate and Amphetamines. The mother has been pregnant 9 times, but only 7 children that are living. ██████████. The mother jumps from one hospital to another and she gives different stories about the situation. The mother has a history of not having prenatal care. The mother works in some type of construction where she has to pick up sheet rock material. The mother also have a history of not complying with medical advice.</p>	<p>██████████</p>
2016-206517	1	7/27/2016	██████████	Unknown	Unknown	██████████	7/21/2016	Screen out	No allegation of maltreatment reported	Health Related	Mental Health Personnel	<p>On July 21, 2016, the child died. The child was born premature, at 21 weeks, and was "not viable outside of the womb" at that young of an age. On Wednesday, July 20, 2016, the mother was hospitalized due to preeclampsia and high blood pressure. On Thursday, July 21, 2016, the hospital induced labor. The child was born alive, but was "unable to survive" outside of the womb, and he died on the same day. The mother feels that "they did nothing for him". The mother gave birth to a child in December. This child was delivered at 25 weeks and survived. The mother compared both births, and felt that the child she most recently delivered looked "better" than the child she gave birth to in December. The child that was delivered at 25 weeks was kept in the NICU with "a lot of tubing" and life support. The hospital did not do that for the child born at 21 weeks. In the mother's mind, "21 weeks to 25 weeks seems like only 4 weeks" and the mother "doesn't comprehend the difference" for a child that young. From a hospital standpoint, there is a lot of development left, and a child born at 21 weeks has missed a vital period of development. The mother may not comprehend the "critical" 4 week period.</p>	
2016-206988	1	7/27/2016	105329261	Unknown	Unknown	00/00/0000	00/00/0000	Screen out	No Jurisdiction	No victim established -Stillborn	Other Medical Professional	<p>██████████ was 28 weeks pregnant. She went to the hospital yesterday, 07/26/2016 because she had a blood sugar of 500. ██████████ also had nausea and vomiting for several days. She had to have an immediate C-section and the baby girl had a 0/0 APGAR; it was considered a stillborn. ██████████ did not get any prenatal care. She has had uncontrolled diabetes for so long that some of her toes have decomposed and deteriorated. She has not taken her insulin since 2013. ██████████ had been to the hospital multiple times due to the uncontrolled diabetes. Additionally, due to her diabetes ██████████ has some visual impairments. She also has neuropathy in her feet and legs which impairs her balance and mobility. There are concerns that ██████████ may have some mental health issues. ██████████ has no job. She is very lethargic and has an extremely flat affect. She lives in the home with her biological mom and her boyfriend.</p>	
2016-207169	1	7/27/2016	105329669	Unknown	Unknown	00/00/0000	00/00/0000	Screen out	No allegation of maltreatment reported	Health Related	Hospital Social Worker	<p>About a week ago, the child was taken to Tampa General Hospital. The child was in cardiac arrest. The child coded several times and eventually passed away. The cause of death is unknown. The child was raised by their aunt and uncle.</p>	<p>The reporter had very limited information. She was calling to inquire about a separate legal issue related to children who are in the care of relatives when they are in critical condition at the hospital.</p>

2016-218807	1	8/9/2016	105353992	Unknown	Unknown	00/00/0000	8/9/2016	Screen out	No allegation of maltreatment reported	Car accident actual cause of death	Hospital Social Worker	There are concerns for death, inadequate supervision, and threatened harm. On 08/09/16, the family was involved in a roll over single car accident in [REDACTED], FL. "Several people were ejected from the vehicle." One child was "DOA" (deceased on arrival). There were a total of six children inside the vehicle. "None of the children were secured in seat belts or car seats." It is unknown if the parents were under the influence of drugs or alcohol. It is unknown if the parent was speeding. [REDACTED] were transported to Arnold Palmer Hospital. [REDACTED] is in the intensive care unit and [REDACTED] located in the special care unit. The deceased victim was said to be at the medical examiner's office. The three other victims were transported to Leesburg Regional Medical Center. The parents are located at Orlando Regional Medical Center. [REDACTED] is oxygen dependent. [REDACTED] has lung disease and kidney failure. No further details are known.	
2016-225845	1	8/16/2016	105369501	Unknown	Unknown	00/00/0000	00/00/0000	Screen out	Investigated through other intake	Investigated through other intake	Guardian ad Litem	Several years ago, a child died while in the care of [REDACTED]	The child death was mentioned in a concurrent screened-in intake, 2016-225080, as well as a prior investigation associated with intake 2014-038768.
2016-230000	1	8/19/2016	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	9/12/2009	Screen out	Investigated through other intake	Investigated through other intake	Hospital Social Worker	The mother is pregnant and there are concerns because in 2010, the mother's 11-month-old died from blunt force trauma to the head. The baby died at All Children's Hospital after being taken off of life support due to being brain dead. It is unclear how cooperative the mother was during the investigation. The mother admitted to dropping the baby when the baby cried and doing other things to the baby, but the father was charged with murder went to prison over a plea deal. The father was initially charged with child abuse, but the charge changed to murder when the child died. At the time of the injury, the mother and the father lived together and were not married. There are current concerns, because the mother is pregnant and the mother and the father are living together in the paternal-grandmother's home.	See intake 2009-148707.
2016-230203	1	8/19/2016	[REDACTED]	[REDACTED]	[REDACTED]	00/00/0000	8/3/2016	Screen out	No Jurisdiction	Death occurred out of state	Social Services Personnel	On 8/3/16, the paternal grandmother murdered 2 grandchildren. They were murdered in Georgia. [REDACTED] was stabbed to death and burned in a house fire and [REDACTED] was burned, stabbed to death, beat in the head with a knife sharpener and then put in the trunk of a car. After doing this grandmom went back inside the house and started the house fire. [REDACTED] survived and his mother came and took him home. He and [REDACTED] are half siblings. The grandmother was watching the children while the father was at work. Grandmom and the children were visiting family in Georgia when she had a Schizophrenic episode. Grandmom died from smoke inhalation at Phoebe Putney in Albany Georgia. The death of the children and grandmom have been investigated in Georgia. There are surviving siblings of the deceased children who will need counseling. They didn't witness the abuse.

[REDACTED] was shot in the head. It is unknown why the unknown individual killed [REDACTED] told his mother before he died to be careful because the unknown individual is after her. [REDACTED] was buried last Sunday.	[REDACTED] [REDACTED] [REDACTED] [REDACTED]

Child Death Screen Out Review, 4th Quarter of 2016

Intake Number	Report Sequence	Intake Date	Child ID	Child First Name	Child Last Name	DOB	DOD	Screen In/Out Status	Primary Screen Out Reason	Secondary Screen Out Reason	Reporter	Allegation Narrative	Other Notes from Intake:
2016-277749	1	10/4/2016	105478539	Unknown	Unknown	00/00/0000	00/00/0000	Screen out	No Jurisdiction	No victim established -Stillborn	CBC Employee	The early morning of October 4, 2016 the mother gave birth to a baby girl via C-section. The baby girl passed away shortly after the delivery. It is unknown if the baby girl took a breath. The mother was scheduled for C-section delivery for the end of October 2016. On October 3, 2016, the maternal grandmother took the mother so food. The mother was experiencing cramps and pain but refused to go to the hospital. On October 1, 2016, the mother was experiencing cramps and refused to go to the hospital. On June 1, 2016, the mother went to the OB/GYN for an appointment. The mother suffered with a bladder infection and anemia complication during the second trimester. The mother was referred to [REDACTED], neonatal medicine physician, for treatment due to "known or suspected placenta insufficiencies." There was adequate fluid in the placenta but "breech female fetus." On July 7, 2016, the mother went to another OB/GYN appointment and the mother was negative for substances but the mother's urine was yellow and slightly hazy. On July 27, 2016, the mother had laboratory testing conducted. The mother's lab results are as follows [REDACTED]. "The mother has history of gestational diabetes and anemia while she was pregnant [REDACTED]. On August 2, 2016, the mother went to the OB/GYN for assessment screening for diabetes and other conditions. The mother was prescribed the following medications [REDACTED]. The mother and the attending doctor were observed crying. The mother did not want to look at the baby girl. The mother is currently experiencing a lot of pain and high blood pressure. The mother is going to remain in the hospital for a while. The family are making funeral arrangements [REDACTED] for the baby girl. [REDACTED]. The mother does not have any history of substance misuse.	
2016-277775	1	10/4/2016	105478658	Unknown	Unknown	00/00/0000	00/00/0000	Screen out	No Jurisdiction	No victim established -Stillborn	CBC Employee	On 10/04/2016, the mother gave birth. The female child was born stillborn. The child was not drug tested at delivery. The mother was drug tested at admission. The test results are unknown. [REDACTED].	The child ID should be 105478539, but the counselor created a new "Unknown" person to represent the child. This is the same child as intake 2016-277749.
2016-278918	1	10/5/2016	105480989	[REDACTED]	[REDACTED]	[REDACTED]	00/00/0000	Screen out	No allegation of maltreatment reported	Suicide	Law Enforcement	On 9/3/16 [REDACTED] got into a fight with his mother because he asked her what she felt about becoming a grandmother. On 9/4/16 [REDACTED] left with a rifle and ammo from the home. It was believed he went into the woods. The mother called the police and reported [REDACTED] on 9/6/16. On 10/4/16 [REDACTED] body was found deep in the woods deceased from a self inflicted gunshot wound [REDACTED] has run away in the past.	
2016-280782	1	10/7/2016	105486952	[REDACTED]	[REDACTED]	[REDACTED]	10/7/2016	Screen out	No allegation of maltreatment reported	Health Related	Law Enforcement	On 10/7/16 [REDACTED] was observed having a seizure in the home. [REDACTED] was observed suffering from a seizure by the mother and [REDACTED] while he was sitting on the couch. It was indicated [REDACTED] called EMS. When EMS arrived to the home [REDACTED] was in cardiac arrest and life saving procedures were performed on [REDACTED]. When [REDACTED] arrived to Shand's Hospital he was pronounced deceased. It was indicated there was no history of an incident if this nature occurring in the home. It is unknown if [REDACTED] has any marks or injuries. Approximately 3 days ago, [REDACTED] was in the hospital for an ear infection and a bladder infection. It is unknown if [REDACTED] spent an extended stay in the hospital.	A subsequent report with additional information was received and screened in: 2016-281699.
2016-283051	1	10/10/2016	105489932	[REDACTED]	[REDACTED]	00/00/0000	10/10/2016	Screen out	No allegation of maltreatment reported	Child died as a result of gas leak	Law Enforcement	On October 10, 2016, [REDACTED] died most likely due to carbon monoxide poisoning. It is believed that the death was accidental. The family was found in a bedroom while a generator that was out of gas was found in another bedroom. The generator had run out of fuel. The neighbor came to check up on the family and found all four in the home. The parents were out of it. Mom, Dad and [REDACTED] were transported to Halifax Medical Center [REDACTED] was responsive, but was "in and out of it". He is being monitored and might be transferred to Arnold Palmer in Orlando depending on the extent of his injuries. Dad may be [REDACTED] and Mom's condition is unknown, but she was going "downward", meaning her condition was declining. Mom has no knowledge that [REDACTED] has passed. Authorities are hesitant to tell her until she stabilizes.	A subsequent intake was screened in by Hotline management: intake 2016-287551.
2016-284801	1	10/11/2016	105493688	[REDACTED]	[REDACTED]	[REDACTED]	10/11/2016	Screen out	No allegation of maltreatment reported	Health Related	Law Enforcement	[REDACTED] has several congenital medical conditions [REDACTED] is prone to seizures and she is underdeveloped, which is consistent with her conditions. [REDACTED] has had numerous surgeries and she lives at home with her parents and receives [REDACTED] home healthcare services. Mom seems on top of [REDACTED] conditions and medical care, and there were ample medical supplies available in the home to care for the child. Tonight, 10/11/2016, [REDACTED] home health nurse left and mom went in to check on her in her bed before taking a shower. When mom checked on her, [REDACTED] was fine and her heart rate was 98-100 beats per minute, which is normal for the time just before she falls asleep when her heart rate normally slows down. Mom got in the shower for 10-15 minutes and when she got out of the shower she heard [REDACTED] heart rate monitor beeping. It is not abnormal for [REDACTED] to kick off her heart rate monitor when she sleeps, so mom went to check on her and found her unresponsive in her bed. It is unknown how long [REDACTED] monitor had been beeping or how long she had been unresponsive. Mom's first concern was a blockage [REDACTED] so she tried to clean out [REDACTED]. Mom tried to do rescue breathing, but she realized that [REDACTED] mouth was not closed and the air was escaping through her mouth so mom covered [REDACTED] mouth with her hand and continued performing CPR [REDACTED] before calling 911. The 911 operator instructed mom to move [REDACTED] to the floor while she performed CPR to assist with compression, which mom did. [REDACTED] has a breathing machine and oxygen tank in the home, but she only needs them when she is sick or has a cold and today she did not have a cold or illness. Dad was not at home during this incident and mom continued performing CPR until EMS arrived. [REDACTED] Fire Rescue took over CPR and transported [REDACTED] to Plantation General Hospital. [REDACTED] did not have a heart rate or pulse during the transport, and once she was at the hospital she was pronounced dead just before 9pm. [REDACTED] showed no signs of trauma or physical abuse, and there were no other concerns with the home or her caregivers. Because of her medical history and lack of signs of trauma or abuse, the medical examiner refused to review the case and the hospital is working with [REDACTED] primary doctor to sign her death certificate. Because the medical examiner is not reviewing the case, [REDACTED] cause of death will be listed as being due to natural causes from complications with her extensive medical conditions	
2016-291910	1	10/18/2016	105508481	Unknown	Unknown	00/00/0000	00/00/0000	Screen out	Insufficient Information	Insufficient Information	Teacher	[REDACTED] has a history of severe behaviors including biting and yelling. Until at least 9/27/2016, [REDACTED] had been living with his father and stepmother. The father and stepmother could no longer handle [REDACTED] behaviors so he was sent to live with his paternal grandparents [REDACTED] and [REDACTED] is violent and aggressive. He can be explosive with his behavior and struggles to make personal connections with others. He also does not react appropriately to situations. [REDACTED] does have consequences at home. [REDACTED] would earn electronic time based on his behavior. The parents also have taken away items when [REDACTED] would disrespect the item so he would learn to appreciate it.	The family was not found in FSFN or Vital Statistics. It is likely that the death occurred out of state [REDACTED] and there is no apparent record of the death occurring in Florida.
2016-297176	1	10/24/2016	105519381	[REDACTED]	[REDACTED]	[REDACTED]	10/21/2016	Screen out	No allegation of maltreatment reported	Health Related	Law Enforcement	On 10/21/2016, [REDACTED] passed away. He was playing football and collapsed. [REDACTED] was playing football in a neighborhood field next to the home. He was rushed to the hospital and was pronounced dead. It is believed that [REDACTED] died a natural death. [REDACTED] had to be taken to Baptist North and Second Park West Emergency Room twice in October of 2016, for chest pains and was released. It is believed that [REDACTED] had congestion in his chest. The physician released [REDACTED] both times.	
2016-297144	1	10/24/2016	105519336	[REDACTED]	[REDACTED]	[REDACTED]	10/24/2016	Screen out	No allegation of maltreatment reported	Health Related	Law Enforcement	On 10/24/16, there was an unexplained death of an 8 year old male child at the home address. About 2:45am, [REDACTED], the mother, was awakened by her 8 year old son's coughing. The child's name is [REDACTED]. He had previously been sick and was in the hospital for five days; he was admitted on 10/ [REDACTED] /16 and was released on or about 10/ [REDACTED] or 10/ [REDACTED] /16. He was hospitalized with the flu and he had an upper respiratory infection. [REDACTED]. He was prescribed medication for his illness and he had been given the medications as prescribed. He was given medications and there were instructions for him to follow up with appointments in November. [REDACTED] slept in bed with [REDACTED]. On this incident, she cleaned him up because as he was coughing up what may have been vomit. About 15 minutes later, she changed his diaper and at this time, she noticed that he was not moving/unresponsive. At this time, [REDACTED] got the attention of her adult daughter, [REDACTED] and neither of them was able to get a pulse. At about 3:20am, law enforcement was contacted. When law enforcement responded to the home, they administered CPR. Fire & Rescue arrived and transported the child to St. Joseph's Hospital where he was later pronounced deceased. It is unknown if [REDACTED] required full care [REDACTED]. He was ambulatory, but he could not talk. [REDACTED] and her husband, [REDACTED], and their children live at the residence. [REDACTED]. There are no concerns for the safety and well-being of these children. There is no known history of abuse allegations with [REDACTED].	The intake was initially screened in, but was later screened out at the request of the Statewide Child Fatality Prevention Specialist. There were no allegations of maltreatment and the child had multiple medical conditions that could have caused the death.

2016-305172	1	10/31/2016	105536085	████	████	████	10/30/2016	Screen out	No allegation of maltreatment reported	Health Related	Law Enforcement	<p>Approximately two weeks ago, █████ started having a fever. There were concerns for a possible urinary or vaginal infection █████. The parents took her to her primary physician and they ran tests. The results would take four to five days. In the meantime, the parents were instructed by the physician to give the child rotating doses of Motrin and Tylenol to treat the fever. The fever went away. The child and parents returned to the physician's office for the results and everything came back negative. The child was sent home with the parents. Shortly afterwards the fever returned. The parents contacted the physician and were instructed to give the child the same treatment of Motrin and Tylenol. For nearly two weeks, █████ health was back and forth. She would get a fever and then it would go away only to return again. At one point the fever spiked so high that she was put in a tub of ice to bring the fever down. On Saturday 10/29/2016, the parents took █████ to Miami Children's Hospital. The hospital informed them that it was "viral". The hospital inquired as to when the child was due to return to her primary physician and they advised the parents to bring her back to the hospital if she was not better by Monday, 10/31/2016. The child was discharged and sent home with the parents. On Sunday 10/30/2016, █████ still had a fever. The parents contacted the primary physician and he made arrangements to meet them at his office. The fever persisted and the doctor noticed some wheezing so he gave her an aerosol treatment. The physician sent the child to Kendall Regional Emergency Room around 11:00am. █████ was diagnosed with pneumonia. She went into cardiac arrest and she was pronounced deceased at 2:37pm on 10/30/2016. The medical examiner's preliminary cause of death is leukemia. It will take several weeks to run tests and confirm. The medical examiner suspects leukemia due to █████ significantly low white blood cell count. Homicide detectives responded to the hospital to investigate and document the child's passing. Then, they went to the home to inspect the child's living conditions prior to her death. The family has adequate housing and all basic needs are met. █████. There are no concerns for these children. The father is █████. The family has been in Florida since June 2016. The detective's findings were that there was no sign of trauma or foul play. The child died as a result of a medical condition.</p>	
2016-309418	1	11/3/2016	10549502	████	████	████	11/3/2016	Screen out	No allegation of maltreatment reported	Insufficient Information	Law Enforcement	<p>On 11/03/16, █████ was found deceased in her bed. There are no signs of trauma. █████ did not reside in the bedroom with anyone else. █████ was last seen alive between 10:00 and 10:30pm on 11/02/16. █████ spoke on the phone with her paramour at 10:40pm.</p>	
2016-310936	1	11/4/2016	105548588	Unknown	Unknown	00/00/0000	00/00/0000	Screen out	Insufficient Information	No identifying information provided	Anonymous	<p>A month and a half ago, the paramour and unknown woman were at Wal-Mart. They were trying to exchange the child's clothes for drug money. The mother and her paramour slammed the child on the floor at Wal-Mart and he died.</p>	A companion report, 2016-311003, was screened-in as to other children identified in the report.
2016-312502	1	11/7/2016	105552053	████	████	████	11/3/2016	Screen out	No allegation of maltreatment reported	Child died in a horseback-riding accident	Medical Examiner	<p>On Nov. 3 █████ was riding her horse while roping at a neighbor's ranch. After finishing a round of roping, █████ was entering the pen to get set up for another round. The horse bucked and threw █████ to the ground and the horse fell backward onto █████. The saddle horn on the horse struck █████ in the chest. The horse weighs approximately 1200 pounds. Emergency services was contacted and █████ was transported to the hospital where she was pronounced dead moments after arrival.</p>	
2016-313094	1	11/7/2016	105552053	████	████	████	11/3/2016	Screen out	No allegation of maltreatment reported	Child died in a horseback-riding accident	Law Enforcement	<p>On 11/03/2016, █████ died after being hit by a horse. She was putting the horse into an "open pin". The horse went up and fell backwards onto █████. The saddle horn hit █████ right above her right breast. █████ was being supervised when the incident occurred. Emergency personnel were immediately contacted. There were no concerns for the parents' ability to care for █████. It is unknown if there are other children in the home. There were no allegations that the death was due to abuse or neglect. Every Thursday night, █████ and her father would go "rope". █████ was an experienced rider. █████.</p>	
2016-318506	1	11/12/2016	10081363	████	████	████	11/12/2016	Screen out	No Jurisdiction	Not a caregiver	Law Enforcement	<p>On 11/12/2016 at 8:49a.m., █████ was found dead in a local park. She is █████ a habitual runaway who was currently in runaway status. █████ parent waited for 3 days to report █████ was missing. The cause of death is unknown and being investigated by law enforcement.</p>	
2016-318506	2	11/12/2016	10081363	████	████	████	11/12/2016	Screen out	No Jurisdiction	Not a caregiver	CBC Employee	<p>On 11/12/16, █████ was found deceased. The cause of death is unknown. Law enforcement is currently investigating the situation. █████ death is currently being treated as a homicide. It is unknown if █████ had any injuries. █████ was reported as a runaway on 10/31/16. There are concerns for homicide based on the condition of which █████ was found, coupled with the fact that █████ parent reported █████ four days after she was missing █████. It is unknown why █████ ran away █████.</p>	
2016-343048	1	12/7/2016	100813196	████	████	████	12/7/2016	Screen out	No allegation of maltreatment reported	Suicide	Law Enforcement	<p>On 12/07/2016 at 5:23pm █████ committed suicide. The father had a hand gun located in his bedroom, inside of a fingerprint lock safe. █████ got a hold to his father's hand gun. It is unknown how █████ obtain the hand gun. █████ wrote a suicide note stating █████ took his life in his bedroom. █████ later died at a hospital in Miami. The mother, father and █████ were in the living room when the incident occurred. It is unknown the time frame █████ was away from the family. There were no reports of prior suicidal ideations. The father has multiple fire arms in the home and they are locked away. It is believed █████.</p>	
2016-344364	1	12/8/2016	105296053	████	████	████	12/8/2016	Screen out	Screened out in error	Investigated through other intake	Law Enforcement	<p>On 12/8/2016 the father left for work at 7:45am. █████ had been battling a cold for the last two and a half weeks. The mother went to check on █████ and she was in respiratory arrest. █████ was observed with "a lot" of mucus coming out of her nose. The mother then informed her roommate and they began to perform CPR and called 911. █████ was then transported to Orange Park Medical Center and was pronounced dead at 9:33am by doctor █████. There was no sign of trauma to █████ and the cause of death is unknown pending an autopsy report. The mother did not appear to be under the influence of drugs or alcohol. The home appeared to be neat and clean. It was reported that the mother took █████ to the doctor to treat the cold but that has not been verified and it also is unknown when the mother took █████ to the doctor. The mother vacated the hospital before law enforcement could question her due █████. According to neighbors █████ was the mother's life.</p>	The intake was screened out in error. A Hotline supervisor split the intake to create a new intake, 2016-344378, which was screened in on the same date with the same allegations.
2016-352576	1	12/16/2016	105636531	████	████	████	12/15/2016	Screen out	No allegation of maltreatment reported	Car accident actual cause of death	Medical Examiner	<p>On 12/15/2016 @ 9:07a.m., █████ was involved in a motorcycle incident, causing him his life. █████ was traveling north on █████ Ave and he struck another car that was traveling on the same road. █████ was thrown in a northern direction on █████ Ave. After the impact, another driver traveling in the opposite direction was trying to pass another car that was slowing down and struck █████ who was lying in the roadway. After impact █████ came to a final rest on █████ Ave facing north.</p>
