

FASAMS Stakeholders Report

1. Activities Completed During the Week Ending 4/24/2020

- FEI continued work on enhancements for Release 2020.07.0.
- DCF scheduled a meeting with a subcommittee of the DAC to discuss options to transition from FASAMS version 13 to version 14.

2. Activities Planned for the Week Ending 5/01/2020

- DCF and FEI will work on the prioritization, review, and approval of enhancements for Release 2020.07.0.

3. Upcoming Changes and Noteworthy Details

- On 4/17/2020, DCF met with three EHR providers (Netsmart, Credible, and Streamline) to discuss the upcoming release of FASAMS Version 14. The group discussed the impact to the provider community and options to transition from version 13 to version 14. All three of these EHR providers said they'd be prepared to generate FASAMS data in the XML format specified in Pamphlet 155-2, Version 14 by 10/1/2020.
- All requests for changes to FASAMS are to be submitted through the DCF helpdesk.
Email: dcf.helpdesk@myflfamilies.com
Phone: (850) 487-9400 or Toll Free (855) 283-5137

Any requests not submitted through the helpdesk will be not be responded to. All requests for changes or additions must be submitted to the helpdesk and the individual submitting must respond within 10 business days to SAMH regarding any additional follow up required for processing of the request. Failure to respond within the 10-day deadline will result in the ticket being closed. This will necessitate the original submitter to re-submit and initiate the process over again. Following the correct procedure for change requests, enhancement requests and user issues will greatly speed our ability to track and respond in a timely and efficient manner. Thank you in advance for your cooperation with this formalized business process.

- Due to our providers' activities associated with COVID-19 response, DCF has delayed the release of Version 14 into the production environment until 10/1/2020. However, Version 14 will be released in the UAT environment on 6/1/2020, as scheduled.
- The enhancement documents from the last two releases are in the process of being added to the DCF website. These documents give our MEs more specific information on the completed enhancements from the 2019 Quarter 1 and Quarter 2 releases. Other dates and information will be included in this update, as well.
