PRESENTATION:**FBI - International Human Rights Program**

Raquel M De La Huerta, FBI, Intelligence Analyst, Miami Division did a presentation on the International Human Rights Program that the federal agency she works for has jurisdiction over. This program identifies, investigates, locates, and prosecutes perpetrators of serious human rights violations, including genocide, torture, war crimes, the recruitment or use of child soldiers, and female genital mutilation. The focus area of the program is on US communities with large refugee populations from countries that have experienced a mass atrocity.

Areas of recent or ongoing conflict that remain of particular interest include: **Africa:** Sudan/South Sudan, Democratic Republic of Congo, Eritrea, Liberia, Gambia, Nigeria, Libya, Central African Republic, Uganda, Rwanda, Burundi; **Middle East:** Syria, Iraq, Afghanistan, Pakistan; **Asia:** Philippines, Burma, Sri Lanka, Bangladesh **Americas:** Mexico, Guatemala, Cuba, Colombia, El Salvador, Venezuela, Honduras, Haiti; and **Europe/Eurasia:** Bosnia, Serbia, Ukraine, Croatia, Russia. She reassured the group that the FBI's purpose in asking diaspora communities about human rights abuses is only to gather information about perpetrators who may be in the U.S. and no one should feel intimidated to speak to the FBI. Individuals have the flexibility to speak to the FBI at the date, time, and location of their choosing.

SNAP E&T

EDUCATION SUBCOMMITTEE MINUTES – FEBRUARY 2016

- REVEST successfully began classes for the current cycle on January 6th, 2015 and we currently have over 2900 student registered for VESOL classes in our four Centers.
- REVEST will begin conducting new student orientation/testing sessions for the upcoming cycle (summer term) May-August 2016. There are 45 orientation sessions scheduled and about 1650 students will be tested using the Pre CASAS placement test. There are 137 VESOL classes programmed for the Summer Term 2015-3, Cycle 71. Classes are scheduled for A.M., Midday, P.M. and Weekend time slots.
- The REVEST Program has continued to increase the number of vocational registrations for the current contract year (September 2015 to August 2016), and up to this date, we have enrolled over 340 Vocational students in over 800 courses.
Likewise, we are getting ready to begin on March 7th the new registrations for the Summer Term 2015-3. To this end, we have been conducting group and individual

training sessions, as needed, in order to keep our staff updated about the new Program goals and performance measures.

- Faculty meetings were conducted with all REVEST instructors Jan. 13, 14, 15, and 2016. Topics included establishing I.D. requirements for instate tuition residency and professionalism in the workplace. All REVEST instructors are currently using the new Black Board Learning Management System in all VESOL classes.
- REVEST participated in the New Future for New Americans Information session held at InterAmerican Campus Miami Dade College on 02/11/16. Prospective MDC students had the opportunity to gain more information about programs available to them and specifically services offered by the REVEST Program. We are very pleased to have participated in this important outreach event.
- REVEST is very concerned with demand for services and lack of funding increases. It is clear that an increasing amount of clients are demonstrating need for services and the need is growing.
- The total SAVES Program enrollment as of January 27, 2016, is 3,596. Of these, 1,781 are new students to the program and 249 are 16 to 18 youngsters in the six SAVES GED in Spanish Program centers. The current trimester ends on April 21, 2016. The next academic trimester will begin on April 25, 2016.
- A SAVES external audit conducted for fiscal year ending in 2015 had zero findings. These results were shared with the M-DCPS Audit Committee and the M-DCPS Board. We are very proud of these results.
- SAVES centers offering the GED in Spanish program continue to refer students to register to take the GED test. The success rate for students passing the subtests taken is very high. The cut off passing score was lowered by the State of Florida from 150 points to 145 points. GED students are hopeful that those of them who had a score between 145 and 150 will be grandfather in to allow them to pass the subtest without having to retake the test. These students are very motivated to continue their education either by attending college or vocational classes.
- SAVES and the REVEST program are collaborating to assist students who completed their GED and are interested in pursuing a college education. Miami-Dade College will provide counseling services to students refer by the SAVES program to help them with registration, applying for financial aid and mapping their career goals.
- Vocational opportunities are being expanded for SAVES students to take vocational courses not offered at their home schools at George T. Baker and Miami Lakes Technical Colleges.

- A SAVES District meeting was held on January 27, 2016. Important information was discussed with the school staff. Next SAVES District meeting is scheduled for March 30, 2016.
- A Degree Translation/Validation session was held on January 26, 2016. Thirty eight (38) students attended the session to receive this service. The next Degree Translation/Validation session will be held on April 12, 2016
- New SAVES success stories, which highlight the achievements of some of our students, have been uploaded to the SAVES website (<http://saves.dadeschools.net>)
- If you have any questions about our program, you can call us or visit the SAVES website at <http://saves.dadeschools.net>
