This task force has been active in the Palm Beach area in the past few years. The participants are representatives of various government agencies, private not-for-profit organizations and volunteer groups. An average of about twenty to twenty-five attend these meetings on a regular basis. The purpose of these meetings is to increase awareness of the refugee populations, share best practices, build collaborations between agencies, spot trends in refugee populations, characteristics or movements, help create good communication among service providers; get informed about upcoming community events, request for proposals, training, workshops, conferences, etc., at the local, state and national level; discuss refugee program service needs and possible solutions to meeting those needs. Meeting participants also receive updates, information and clarification on new federal and state regulations and policy changes pertaining to refugees.

If there are any issues that you would like to include in the agenda, please contact me at the above address.

I look forward to seeing you at the meeting!

HS/EHS recruitment flyers in various languages were shared via email.

Vital Statistics, FL Department of Health PBC: Amarilis Salazar, Chief Deputy Registrar, Tania Canals, Deputy Registrar Supervisor and Carla Jackson-Felder Lead Worker, offered an overview on all the Vital Statistics, FL Department of Health PBC services. Vital Statics are used for Legal purposed such as ID/Drivers License, passports school and Economic benefits. Statics are used for Epidemics (like the COVID-19) Monitor the leading Causes of Death, Unintentional injury, suicide & homicide related deaths, Infant deaths, Occupational related death, and Trends Overall health of population. Due to the Pandemic many families are having babies outside the hospital. Is important to educate refugees families if they do so, within five calendar days after the date of each birth, the record must be filed. It is most important that birthing facility staff is familiar with the vital statistics laws and regulations on birth registration. If the child is brought to the birthing facility within 3 days after a home delivery, the birthing facility should prepare the record with what facts are available. The record must indicate the county where the delivery occurred.

If the child is borne and not register by an entity or midwife within the year, they can come to the county health department and start the process of registration. If it is more than a year, then it must be handled by the State Office in Jacksonville. The Enumeration at Birth Program is coordinated through the Social Security Administration (SSA). If the parents request on the birth record that a social security number be issued for a child, the SSA will issue a social security card for the child within 4-6 weeks of the date of birth. SSA will not issue a social security number on a deceased or unnamed child. SSA will mail the card to any US state or territory, but not to a foreign or military address. When the mother of a child is married at the time of birth, she must list her husband as the father of the child, regardless of circumstances. Once a father is register on the birth certificate the only way of removing it is through the courthouse. It's important for informed refugee families to know if they choose to have the babies at home to register the babies as soon as possible as the birth certificate is a documentation needed for ACCESS benefits. A power point presentation was share with all members.

Early Learning Coalition of Palm Beach County, Inc.: Rachel Mondesir, MPA, Community Engagement Manager, Palm Springs Office, she provided overview on the program initiatives of present on Birth to 22, a collective impact effort being made in the county to address youth indicators of success for our youth from birth to the age of 22. She distributes information via email and updated on the 3T's Ambassador Training so that you too may help spread the word and increase this initiative's visibility and impact. When parents talk and interact with their children, they boost brain development from birth. To learn more, families of children ages 0-3 in the Glades & Boynton Beach areas are invited to join one of these groups. Parents workshop offers Stipends available for participants who complete the 8 weekly sessions. Family Coaching offers to each family a take-home kit to use in building language.
