Appendix 3: Legislative Budget Request Sample

Appendix 4: Network Service Provider Catalogue of Care

Appendix 5: SAMH-Funded Contract Summary

I. Executive Summary

The Office of Substance Abuse and Mental Health (SAMH) is housed within the Florida Department of Children and Families (Department) and serves as the single state agency for the provision of mental health and substance abuse services. The Department contracts with seven Managing Entities¹ statewide to manage the delivery of behavioral health services through a network of local service providers. SAMH's organizational structure and a map of the Managing Entities and their areas of service are provided in Appendix 1.

The mission of the Department is to:

- ❖ Work in Partnership with Local Communities to Protect the Vulnerable;
- ❖ Promote Strong and Economically Self-sufficient Families; and
- ❖ Advance Personal and Family Recovery and Resiliency.

Pursuant to s. 394.75, F.S., the Department is responsible for developing a triennial state master plan for the delivery and financing of a system of publicly funded, community-based substance abuse and mental health services throughout the state. The Office of SAMH has organized this plan into six topic areas that are critical to supporting the mission of the Department and current statewide priorities.

The topic areas include the following:

- Stakeholder Input;
- Strategic Initiatives;
- Financial Management;
- Grants and Special Projects;
- Policy Changes; and
- Contract Management.

This plan outlines the statewide priorities, as well as region specific goals. SAMH's planning process requires each of the Department's six regions to develop a comprehensive plan with local participation, which aligns state and local level priorities and initiatives. The regional plans describe the local behavioral health delivery system, service needs and resources available to meet those needs, and the total funds available for mental health and substance abuse services per region. These plans are provided in Appendix 2.

This plan was developed based on stakeholder input as well as current trends and conditions. It identifies five key strategic initiatives to address system challenges with the overall goal of improving the behavioral health system of care. It is important to note that this plan is intended to be a living document that will evolve over time. The current strategic initiatives include:

- Access to Quality, Recovery-Oriented Systems of Care;
- Community-Based Health Promotion and Prevention;
- Child Welfare, Substance Abuse and Mental Health Integration;
- Information Management; and
- Forensic Waitlist Management.

¹ Per s. 394.9082, F.S., "Managing entity" means a corporation that is organized in this state, is designated or filed as a nonprofit organization under s. 501(c)(3) of the Internal Revenue Code, and is under contract to the department to manage the day-to-day operational delivery of behavioral health services through an organized system of care.

II. Stakeholder Input

The Department maintains open communication and works collaboratively with key stakeholders to guide the provision of substance abuse and mental health services, identify priorities and opportunities for improvement, develop statewide plans and legislative budget requests, and inform changes in policy and practice. These stakeholders include, but are not limited to the following:

- Consumers, families of consumers, and consumer advocacy groups;
- The Substance Abuse and Mental Health Planning Council;
- Managing entities and their network providers;
- Provider agency associations; and
- State and local agencies serving people with behavioral health challenges.

The five strategic initiatives and their related goals and objectives included in this report were identified in part, based on input gathered from key stakeholders through a variety of forums, to include but not limited to the following:

- Project teams;
- Evaluated stakeholder and consumer feedback surveys;
- Substance Abuse and Mental Health Advocacy and Planning Council; and
- Recovery-Oriented System of Care Forum.

II.A. PROJECT TEAMS

In June 2015, the Department convened four project teams to identify opportunities for improvement and guide the implementation of strategies to address Department priorities. The work of these teams is reflected in the goals and objectives of the SAMH strategic initiatives. These project teams included membership representation from the SAMH headquarters office, SAMH regional offices, state and local government, managing entities, provider agencies, councils, universities, provider associations, and consumers of behavioral health services. The goal of each project team is summarized below.

- **Baker Act and Marchman Act Project Team:** The goal of this team was to integrate access to services provided under the Baker Act and Marchman Act and make recommendations for an organized system of behavioral health acute care services.
- **Care Coordination Project Team:** The goal of this team was to develop strategies and recommendations to improve current practice to better coordinate care for individuals with complex needs at the system and person levels.
- **Child Welfare Integration Project Team:** The goal of this team was to improve the coordination of and access to family-focused and evidenced-based treatment services and supports for families with behavioral health conditions served by child welfare.
- **Information Management Project Team:** The goal of this team is to modify the Department's Substance Abuse and Mental Health Information System (SAMHIS) to support substance abuse and mental health service provision, coordination, and financial accountability.

II.B. STAKEHOLDER AND CONSUMER FEEDBACK SURVEYS

The Department gathers input from stakeholders and persons receiving behavioral health services through various methods, to include consumer satisfaction surveys and ad hoc surveys specific to identified priorities, to include the following:

II.B.(1) SAMH Community Consumer Satisfaction Survey

The SAMH Community Consumer Satisfaction Survey (SCCSS) is based on a survey instrument for adults and children originally developed by the Mental Health Statistics Improvement Project (MHSIP), a Task Force sponsored by the Substance Abuse and Mental Health Services Administration (SAMHSA) to meet the federal data requirements of the Consumer-Oriented Mental Health Report Card. The SCCSS instrument assesses the consumer's perception of care in seven major domains:

- General Satisfaction with Care
- Access to Care
- Appropriateness and Quality of Care
- Outcomes of Care
- Involvement in Treatment
- Social Connectedness
- Functional Satisfaction

Managing entities are required to collect these surveys and report outcomes to the Department. In FY2014-15, the Department received results for 82,262 completed surveys from a total number of 327,423 individuals served through community substance abuse and mental health services, representing a 25% response rate. Overall, consumers responded the highest percentage of satisfaction in the domain of General Satisfaction with Care, and the lowest percentage of satisfaction in the domain of Access to Care.²

II.B.(2) Baker Act and Marchman Act Feedback Survey

The Baker Act [Part I of Chapter 394, Florida Statutes], also known as the Florida Mental Health Act, governs the state's emergency services for individuals experiencing a mental health crisis, including voluntary and involuntary examination and placement. The Hal S. Marchman Alcohol and other Drug Services Act [Chapter 397, Florida Statutes], referred to as the Marchman Act, governs the state's substance abuse treatment services, including voluntary and involuntary emergency assessment and treatment.

In June 2015, the Office of SAMH disseminated the Baker Act and Marchman Act Feedback Survey to gather community perception related to the involuntary examination and placement of individuals experiencing an acute mental health or substance abuse crisis. The survey targeted key stakeholders involved in this process, to include facilities that provide these services, the court system and law enforcement. The top three strengths and challenges identified by these respondents are summarized below.

- Baker Act
 - Strengths
 - Provides a safe space and immediate help;
 - Provides for custody without a criminal charge; and

² Office of Substance Abuse and Mental Health, FY 14-15 SAMH Community Consumer Satisfaction Survey (SCCSS), 2015.

- Provides for due process in the court system.
- Challenges
 - Misunderstanding and inappropriate utilization;
 - Lack of coordinated effort; and
 - Limited funding and resources
- Marchman Act
 - Strengths
 - Provides a community safety net;
 - Provides for custody without a criminal charge; and
 - Provides for detoxification, treatment, and intervention services
 - Challenges
 - Lack of receiving facilities and placement;
 - Limited funding and resources; and
 - Misunderstanding and underutilization

Information gathered through this survey was used to inform the strategic initiatives included in this plan and to make recommendations to Legislators regarding the modification of statute related to the Baker Act and Marchman Act.

II.C. MENTAL HEALTH AND SUBSTANCE ABUSE PLANNING COUNCIL

States that receive the federal Community Mental Health Block Grant (MHBG) are required to establish a planning council to perform the following functions:

- Review and make recommendations to the state regarding the block grant plan;
- Serve as advocates for individuals with mental health conditions; and
- Monitor, review and evaluate the allocation and adequacy of mental health services.

Florida's Planning Council represents the voice of the consumer and family members and has chosen to address both mental health and substance use, as many individuals have co-occurring needs that require an integrated treatment approach. Input provided by this Council is used to guide implementation of the MHBG and identify priorities, including the strategic initiatives included in this plan.

II.D. RECOVERY-ORIENTED SYSTEM OF CARE STATEWIDE FORUM

In May 2015, seventy leaders from across Florida gathered in Tallahassee to create a shared vision to shape the future of Florida's prevention, treatment and recovery support system. The focus was moving the current system toward a recovery-oriented system of care (ROSC), defined as a coordinated network of community-based services and supports that are person-centered and build on the strengths and resilience of individuals, families and communities to achieve abstinence, and improved health and the quality of life for individuals, families and communities.³ This statewide forum included representation from each of the six Department regions, to include: individuals in recovery and family members; advocacy organizations;

³ See, http://www.samhsa.gov/sites/default/files/rosc_resource_guide_book.pdf, accessed January, 2016.

managed care organizations; the Department and Managing Entities; and other state agencies. Participants developed a vision for a ROSC in Florida and identified associated challenges, strengths and opportunities. The work of this group informed the strategic initiatives included in this plan and laid the foundation for future action. Statewide implementation of ROSC has become the primary priority of the Planning Council.

III. Strategic Initiatives

III.A. STRATEGIC INITIATIVE 1: ACCESS TO QUALITY, RECOVERY-ORIENTED SYSTEMS OF CARE

Overview

A review of behavioral health emergency⁴ services reported to the Department,⁵ and the connection to community based “primary” behavioral health services demonstrates that there is disconnect between Florida’s emergency services and community-based care. Many high-risk, high need individuals cycle through jails, emergency rooms, and homeless facilities, leading to deterioration of the person’s mental health and creating immense costs for multiple publically funded systems. Transition from the emergency service, to home, or other post-acute care settings, can be managed to avoid this cycling.

For persons with behavioral health conditions who are homeless or at risk of homelessness, connecting with community based care presents additional challenges. According to the Florida Council on Homelessness 2014 Report, almost 30% of individuals who are homeless in Florida have a mental illness and over 37% have a substance use disorder.⁶ These individuals often access emergency services via the Baker and Marchman Acts, but often return to shelters or the streets with no access to medications and follow-up care.

As addressed previously, consumer satisfaction surveys as well as feedback from community stakeholders through project teams, surveys, and other forums have identified access to the right services at the right time as an area for improvement. This encompasses a variety of challenges including:

- Lack of transportation and distance to providers (especially in rural areas);
- Limited resources, including funding;
- Engagement of persons in services;
- Lack of clarity on how to access services; and
- Limited availability of service choices, specifically for recovery support services.

This strategic initiative, in partnership with managing entities and other stakeholders, will expand targeted outreach and access to quality, recovery-oriented systems of care and community based services and supports for persons with behavioral health disorders.

⁴ This is considered to be crisis stabilization units, and inpatient detoxification.

⁵ The review examined those admissions, reported to the Department that could be tied to an individual in FY14-15.

⁶ See, <http://www.dcf.state.fl.us/programs/homelessness/docs/2014CouncilReport.pdf>, site accessed January 2016.

Table 1: Strategic Initiative #1

Access to Quality, Recovery-Oriented Systems of Care		
Goals	Objectives	Outcomes / Metrics
Goal 1.1: Enhance the community-based service array to shift from an acute care model to a recovery based model of care.	Objective 1.1.1: Implement care coordination practices for high risk/high utilizer populations and persons at risk of entering and being discharged from state treatment facilities	Decrease acute care readmissions and increase days in the community between acute care admissions
	Objective 1.1.2: Promote peer support services	Increase number of Certified Recovery Peer Specialists in the workforce
	Objective 1.1.3: Increase opportunities for individuals to reside in permanent supportive housing	All 7 managing entities will have dedicated housing coordinators to identify and link consumers to safe and affordable supported housing
	Objective 1.1.4: Implement a standardized assessment of service needs (i.e., level of care)	Providers across the system of care use a common tool to determine an individual's service needs
	Objective 1.1.5: Develop a ROSC framework in Florida to increase consumer engagement, choice, and self-management, including employment opportunities	Providers and community stakeholders utilize the principles and core competencies of ROSC in their service delivery as evidenced by consumer satisfaction surveys and secret shopper calls
	Objective 1.1.6: Increase intensive, in-home team interventions that are available 24/7	Increase the number of mobile crisis teams, community action teams, family intervention teams, and multi-disciplinary forensic teams in the state
Goal 1.2: Improve access to services in both rural and urban areas.	Objective 1.2.1: Implement the Central Receiving Facility grant program for improved access to acute care services	Implement centralized receiving facilities in at least 3 areas of the state that currently do not have this capacity
	Objective 1.2.2: Develop alternate access options and locations with centralized triage and service delivery functions	Increase the use of alternative technologies and non-traditional settings (i.e., community hospitals, local health departments) to provide services remotely

Access to Quality, Recovery-Oriented Systems of Care		
Goals	Objectives	Outcomes / Metrics
	Objective 1.2.3: Develop targeted outreach and engagement strategies specific to intravenous drug users, pregnant and parenting women, and child welfare involved families	Increase the percent of pregnant women and intravenous drug users receiving substance abuse services Increase the percent of individuals involved with child welfare completing substance abuse treatment successfully

III.B. Strategic Initiative 2: Community-Based Health Promotion and Prevention

Overview

Mental health conditions and substance use disorders can negatively impact the health and wellness of individuals, families, and communities in significant ways. Preventing mental health conditions, substance use disorders, and related problems is fundamental to the well-being of communities. The Institute of Medicine and National Research Council's [Preventing Mental, Emotional, and Behavioral Disorders Among Young People report – 2009](#) notes that a \$1 investment yields \$2 to \$10 savings in health costs, criminal and juvenile justice costs, educational costs, and lost productivity.⁷

In addition to promoting overall emotional health and wellness and preventing substance use, the Department has identified specific goals to address current challenges. For example, drug poisoning (overdose) is the leading cause of injury-related death in the United States. In 2013, a total of 43,982 deaths in the U.S. were attributed to drug poisoning, including 16,235 deaths involving opioids. From 1999 to 2013, the drug poisoning death rate in the United States more than doubled (from 6.1 to 13.8 per 100,000) and the rate for drug poisoning deaths involving opioids nearly quadrupled (from 1.4 to 5.1 per 100,000).⁸ In Florida, 1,821 deaths were caused by at least one opioid in 2013. This means that opioids kill approximately 5 people per day in Florida.⁹

HIV cases are increasing in many Florida counties, which may be attributed to an increase in injection drug use fueled by the use of heroin as a substitute for increasingly scarce and relatively expensive pharmaceutical opioids. Miami-Dade, Broward, and Palm Beach counties have the highest number of adults living with HIV/AIDS with an injection drug associated risk.¹⁰ As a requirement of receiving federal funding, the Department must ensure that substance

¹⁰ Florida Department of Health, HIV/AIDS Section. (2014). *HIV Infection Among Those With an Injection Drug Use Associated Risk, Florida, 2014*.

abuse services include the provision of HIV screening, and appropriate care coordination for those indicated.

According to the *2014 Vital Statistics Annual and Provisional Report*,¹¹ Florida's total number of deaths due to suicide in 2014 was 2,961, which is a slight increase from 2,892 in 2013. Suicide was ranked as the 10th leading cause of death in Florida in 2014 with a suicide rate of 15.1 per 100,000 population.

This strategic initiative, in partnership with prevention partners throughout the state, will develop frameworks and strategies to prevent the onset of substance abuse and mental illness as well as reduce their negative impact.

Table 2: Strategic Initiative #2

Community-Based Health Promotion and Prevention		
Goals	Objectives	Outcomes / Metrics
Goal 2.1: Promote emotional health and well being	Objective 2.1.1: Implement a strategic framework for prevention and community-based health promotion that fosters individual, family and community resilience	Increase the effectiveness and coordination of individual prevention and health promotion efforts
	Objective 2.2.1: Strengthen the substance abuse prevention workforce	Increase the knowledge, skills, and abilities of the prevention workforce.
	Objective 2.2.2: Prevent or delay the use of alcohol, tobacco, and other drugs as supported by data among high risk populations in Florida through the use of evidence-based practices	Reduce the percentage of youth aged 12 – 17 reporting substance use in the past 30 days
Goal 2.2: Prevent and reduce substance use.	Objective 2.2.3: Enhance data collection systems to inform data driven planning and measure outcomes	Implement a new prevention data system and disseminate statewide and local data
	Objective 2.3.1: Develop targeted outreach strategies specific to intravenous drug users	Increase the number of intravenous drug users admitted to treatment
	Objective 2.3.2: Engage and maintain intravenous drug users in treatment and support services	
Goal 2.3: Reduce the spread of infectious disease		

¹¹ See, <http://www.flpublichealth.com/VSBOOK/pdf/2014/Deaths.pdf>, site accessed September, 2015.

Community-Based Health Promotion and Prevention		
Goals	Objectives	Outcomes / Metrics
Goal 2.4: Prevent and reduce attempted and completed suicides.	Objective 2.4.1: Promote the development and implementation of effective practices and evidence-based suicide prevention, intervention and postvention programs	Reduce the number of individuals who die of suicide in Florida annually
Goal 2.5: Reduce opioid related overdose deaths.	Objective 2.5.1: Develop a comprehensive and coordinated overdose prevention initiative	A reduction in the number of deaths caused by at least one opioid

III.C. STRATEGIC INITIATIVE 3: CHILD WELFARE, SUBSTANCE ABUSE AND MENTAL HEALTH INTEGRATION

Overview

Research shows that over 50% of parents involved with the child welfare system have a substance use disorder and many have a co-occurring mental health condition, particularly mothers.¹² Mental health conditions and substance use disorders place children at higher risk of abuse, neglect and trauma. Substance use, in particular is widely recognized as an underlying factor for the majority of families involved with the child welfare system, especially in cases where removal of children is necessary.¹³ Substance use and mental health conditions may significantly limit the ability of parents to keep their children safe and provide an environment for healthy development. These families often have multiple risks and complex needs. Two-thirds of adults in substance abuse treatment report being victims of abuse and neglect,¹⁴ requiring additional consideration of how trauma may be impacting their behavioral health conditions and ability to parent.

Parental substance abuse and mental health conditions, and often domestic violence and poverty impact the entire family and cannot be addressed effectively by child welfare alone. A holistic and integrated approach to serving these families is crucial not only to addressing parental behavioral health conditions, but also their parenting skills impacted by these conditions, the safety and well-being of the children, and the functioning of the family.

This strategic initiative addresses the system change needed to integrate the child welfare and behavioral health systems, with a primary focus on implementing a treatment-based service model that is family-focused, effectively addresses behavioral health conditions, strengthens family functioning and improves child welfare related outcomes.

Table 3: Strategic Initiative #3

Child Welfare, Substance Abuse and Mental Health Integration		
Goals	Objectives	Outcomes / Metrics
Goal 3.1: Improve family functioning and child welfare related outcomes through an integrated child welfare and behavioral health treatment based model.	Objective 3.1.1: Develop an integrated treatment based practice model	An integrated treatment based practice model ready for dissemination to the community
	Objective 3.1.2: Strengthen cross-system understanding and professional/provider competencies and practices as they relate to treatment goals, service planning, practice models, outcome expectations and legal requirements	Child welfare and behavioral health practitioners and providers have a similar set of goals and expectations
	Objective 3.1.3: Strategically select and integrate dedicated service modalities addressing the specific needs of the family	Effectively treat behavioral health conditions, while addressing trauma, child-parent relationship and parenting skill development, enhancing parental capacities, and improving family functioning
	Objective 3.1.4: Create a systematic and focused leadership approach to implement an integrated treatment based practice model, to include the monitoring and evaluation of implementation and outcomes	Strategic approach to implementing and sustaining an integrated treatment model
	Objective 3.1.5: Implement flexible and dedicated funding strategies to support holistic and family-centered practice	Funding strategies that fully support family centered practice, to include extensive engagement practices, a family focus, team based and flexible service delivery
	Objective 3.1.6: Increase access to treatment services that are trauma based, family focused, co-occurring capable and integrate parenting interventions targeted for parents in the child welfare system	Ability to address the needs of the parents, children and parent-child relationship in a holistic manner

III.D. STRATEGIC INITIATIVE 4: INFORMATION MANAGEMENT

Overview:

The 2015 Florida Legislature, through Specific Appropriation 302A, provided the Department with a nonrecurring sum of \$2,000,000 from the Federal Grants Trust Fund to develop and

implement a uniform management information and fiscal accounting system for use by providers of community substance abuse and mental health services. This appropriation requires the new system to comply with s. 394.77, F.S., and to include automated interfaces to the Department's child welfare information system (FSFN) and the Agency for Health Care Administration's Medicaid Management Information System (FMMIS).

This appropriation also requires the Department to submit budget amendments requesting release of these funds pursuant to the provisions of Chapter 216, Florida Statutes. The initial budget amendment must include a project plan and associated costs necessary for the Department, in collaboration with community substance abuse and mental health service providers, to identify and validate all business and technical requirements that should be included in the new system.

In response to these legislative requirements, the Office of SAMH, in collaboration with the Department's Office of Information Technology, has achieved the following milestones:

- Created the Financial and Services Accountability Management System (FASAMS) Project Team, and established a SAMH Information Management Team, including representatives from the SAMH headquarters staff, SAMH regional staff, managing entities and service providers. The main charge of this project team is to participate in the development of the FASAMS business requirements, including recommendations on FASAMS project goals, objectives and expected outcomes.
- Prepared and submitted a Request for Quote (RFQ) to evaluate and chose the best qualified vendor to develop the detailed business and technical requirement specifications for FASAMS, and produce the "evidence-based information technology selection framework", which the Department will use to evaluate and select a custom-off-the-shelf (COTS) solution for FASAMS development and implementation phase. As a result of this RFQ process, the Department selected the North Highland Company as the vendor for FASAMS deliverables.
- Worked with the North Highland Company staff to prepare and submit the initial budget amendment, including the project plan and associated costs required by the Legislature to approve and release the funds needed by the vendor to complete the FASAMS business and technical requirement specifications.

This strategic initiative will improve the existing substance abuse and mental health information system (SAMHIS) by providing accurate and reliable data to support the following business functions:

- Unique identification and common registration of individuals served;
- Uniform assessment of an individual's levels of service needs and levels of functioning;
- Uniform tracking and reporting of individuals placed on waiting lists;
- Uniform evaluation and reporting of performance outcomes data for individuals with and without co-occurring disorders; and
- Uniform accounting for units and costs of services provided to individuals and paid by the Department.

Table 4: Strategic Initiative #4

Information Management		
Goals	Objectives	Outcomes / Metrics
Goal 4.1: Enhance common registration and unique identification of individuals served	Objective 4.1.1: Develop and implement methodology for creating and maintaining unique identifiers in statewide index for persons served	Compliance with HIPAA security standards to safeguard the privacy and confidentiality of protected health information
	Objective 4.1.2: Ensure the accurate and consistent recording of demographic information for individuals served	Increased accuracy and consistency for reporting unduplicated counts of individuals served
		Rapid and accurate identification of the proper individual records and their integration for the purpose of providing care coordination both within and across providers
	Objective 4.1.3: Create and implement automated interfaces between FASAMS, FSFN and FMMIS	Improved coordination of care for SAMH individuals served in the child welfare system
		Improved coordination of benefits and services for individuals who are Medicaid eligible
Goal 4.2: Improve process for reporting and analyzing performance outcome data	Objective 4.2.1: Develop and implement an integrated performance outcome data module for individuals with and without co-occurring disorders	Ability to track individuals served both within and outside the SAMH system of care
		Improved care coordination for persons with co-occurring disorders
Goal 4.3: Improve accountability of units and costs of state-funded services provided to state target populations	Objective 4.3.1: Develop stored procedures to facilitate reconciliation of FASAMS service data to associated payment data recorded in FLAIR and in managing entity accounting records	Reduced administrative costs due to less data processing time and less redundancy in data
		Ability to verify and approve invoices and payments based on reconciled service event data.
		Accurate analysis of the costs and outcomes of state-funded services provided to state target populations

Information Management		
Goals	Objectives	Outcomes / Metrics
	Objective 4.3.2: Establish guidelines for managing entities' use when reconciling their accounting records to FASAMS service records	Availability of standard expenditure report templates used statewide for verification and approval of payments for invoices billed by providers to managing entities, and by managing entities to the Department
Goal 4.4: Develop and implement a uniform, clinically-based scoring system to collect and report data pertaining to an individual's service needs	Objective 4.4.1: Acquire and implement Level of Care Utilization System (LOCUS) as the standard assessment tool for service need determination	Ability to determine appropriate level of care for effective treatment of each individual
	Objective 4.4.2: Create and implement automated interface between FASAMS and LOCUS	Ability to link individual's level of care data to performance outcomes data

III.E. STRATEGIC INITIATIVE 5: FORENSIC WAITLIST MANAGEMENT

Overview

The number of persons committed to the Department pursuant to Chapter 916, Florida Statutes, continues to trend high with over 1,500 new admissions per year since FY2008-09. By law, the Department is required to admit persons within 15 days of receiving a completed referral packet from the Court. Since FY2008-09, the average number of days to admit an individual has increased to the point that most persons are currently being admitted between 10 and 15 days, whereas in the past most persons were admitted between 5 and 9 days.

The State Mental Health Treatment Facility (SMHTF) Program will use a project team approach to establish objectives, implement plans, monitor the implementation, and measure the results of this initiative. Results of this effort will be used to refine Department policy, practices, and improve the Department's ability to use data for decision making.

This strategic initiative will focus on the admission and discharge processes to improve efficiencies, while working with community partners and other interested parties to explore alternatives to commitment and admission to a secure forensic facility for persons charged with non-violent felony offenses.

Table 5: Strategic Initiative #5

Forensic Waitlist Management		
Goals	Objectives	Outcomes / Metrics
Goal 5.1: Decrease the wait time for forensic SMHTF admission and return to court	Objective 5.1.1: Develop strategies to divert persons from the state mental health treatment facility system	Decrease the number of people on forensic admission waiting list for more than 12 days

Forensic Waitlist Management		
Goals	Objectives	Outcomes / Metrics
	Objective 5.1.2: Develop strategies to expedite pick-up of persons restored to competency	Decrease the number of forensic residents waiting longer than 30 days to return to court
	Objective 5.1.3: Conditionally release individuals that no longer appear to meet commitment criteria for placement in a SMHTF	
	Objective 5.1.4: Develop a catalog of community based forensic services	
	Objective 5.1.5: Evaluate competency restoration programs and review performance measures	

IV. Financial Management

Chapter 216, Florida Statutes describes the fiscal affairs of the state, including appropriations acts, legislative budgets, and approved budgets. In addition, the Community Substance Abuse and Mental Health Services Financial Rules, Chapter 65E-14, describe the protocols for all SAMH-funded entities that provide services using community substance abuse and mental health funds appropriated by the Legislature to the Department.

Annually, the Florida Legislature passes and the Governor signs the General Appropriations Act (GAA) for specific resource allocation. The GAA contains thousands of line items detailing appropriations by budget entity¹⁵, category¹⁶, and fund.^{17,18} In addition, clarification about how appropriations are to be spent is provided in proviso language written by the Legislature. Proviso language qualifies legislative intent about the manner in which appropriations should be spent in a specific line item.

After the passage of the GAA, the Department steps down the appropriations to operating levels: program activities and geographic areas (SAMH offices at headquarters, regions, and state mental health treatment facilities). The allocation methods are based on historical patterns, trends, and Department policy decisions for the Fiscal Year while staying within the boundaries of the GAA. The final allocations are developed during the Approved Operating Budget (AOB) process between the Department's Budget and Program representatives, and then approved by the Department's Executive Leadership. As operational decisions are made by the Department throughout the Fiscal Year, allocations may be adjusted via the amendment and Legislative Budget Request process. A sample of a Legislative Budget Request is provided in Appendix 3.¹⁹

In FY2015-16 the Department received authority to spend increases in federal block grants. To ensure a data-driven and needs-based distribution of this lump sum, a methodology was developed based on a combination of prevalence rates of substance use disorders and mental illness, federal poverty levels, and the estimated percentage of uninsured individuals in each managing entity service area. First, population figures were derived from the Florida Office of Demographic Research. The U.S. Census Bureau's American Community Survey was utilized to determine rates of persons below the federal poverty level and rates of uninsured individuals. These figures were then applied to the prevalence of substance use disorders and serious mental illness based upon data from the National Survey on Drug Use and Health.

¹⁵ Budget Entity: A unit or function which reflects the organization to which funds are specifically appropriated in the General Appropriations Act. A budget entity can be a department, division, program, or service. (Transparency Glossary. (n.d.). Retrieved October 6, 2015, from <http://www.myfloridacfo.com/Transparency/glossary.aspx>)

¹⁶ Appropriation Category: Line-item of funding in the General Appropriations Act which represents a major expenditure classification of the budget entity. Within budget entities, these categories may include: salaries and benefits, other personal services (OCO), expenses, aid to local governments, food products, lump sum, special categories, financial assistance payments, qualified expenditures, pensions and benefits, claims bills and relief acts, data processing services, fixed capital outlay (FCO), and grants and aids to local governments and non-state entities (FCO). (Transparency Glossary. (n.d.). Retrieved October 6, 2015, from <http://www.myfloridacfo.com/Transparency/glossary.aspx>)

¹⁷ General Revenue: State revenues undesignated as to purpose that can be appropriated by the Legislature for any government purpose (usually state, but may be shared with local governments). Revenues designated for a specific purpose usually have a specific trust fund from which they are then appropriated. (Transparency Glossary. (n.d.). Retrieved October 6, 2015, from <http://www.myfloridacfo.com/Transparency/glossary.aspx>)

¹⁸ Trust Fund: Special state account(s) established by the Legislature to fund specific programs or services. Trust fund expenditures are pursuant to appropriations by the Legislature. (Transparency Glossary. (n.d.). Retrieved October 6, 2015, from <http://www.myfloridacfo.com/Transparency/glossary.aspx>)

¹⁹ Section 216.292, Florida Statutes. A sample Legislative Budget Request is included in Appendix 3.

In addition to state and federal funds, service providers are responsible for meeting local matching requirements for substance abuse and mental health funds, as specified in Chapter 394, Part IV, F.S., based on the total amount of contracted or subcontracted funds. The Department maintains a procedure for securing local matching funds provided in ch.65E-14.005, F.A.C. that describes standards for service providers to satisfy state requirements for matching.

SAMH services are funded primarily through the federal block grants, federal discretionary grants, state general revenue, and disproportionate share transfers from the Agency for Health Care Administration. In addition, Temporary Assistance for Needy Families funds are available for eligible recipients and cover a range of community mental health and substance abuse services.

The following tables represent the SAMH operating budget for FY15-16. They are organized by:

- Table 6: Program for Mental Health Services (state mental health treatment facilities and sexually violent predator program);
- Table 7: Funding source for Mental Health Services (state mental health treatment facilities and sexually violent predator program);
- Table 8: Program – Community Substance Abuse and Mental Health Services;
- Table 9: Funding source - Community Substance Abuse and Mental Health Services;
- Table 10: Program – Managing Entities; and
- Table 11: Funding Source – Managing Entities

Table 6: FY 2015-16 Approved Operating Budget²⁰ by Program

Mental Health Services					
Regions	Civil Commitment Program	Forensic Commitment Program	Sexual Predator Program²¹	Executive Leadership and Support Services²²	Total

Northeast Florida State Hospital	\$63,465,258	\$0	\$0	\$0	\$63,465,258

²⁰ Sources: FY 2015-16 Conference Report SB 2500A was downloaded from LAS/PBS. Vetoed items were removed manually. The data from LAS/PBS, post-vetoes, was compared to and aligns with IDS/Budget Ledger, authority code APPOBD. IDS/Budget Ledger was then used to calculate the data in the above tables. Reference "SAMH 2015 Annual Plan-Supporting Document".

²¹ Due to a program appropriation discrepancy, the Civil Commitment Program includes \$480,000 and the Forensic Commitment Program includes \$660,000 in budget that belongs in the Sexual Violent Predator Program (SVPP). The Department submitted an issue in the FY 2016-17 Legislative Budget Request (LBR) to transfer this budget back to SVPP.

²² Due to a program appropriation discrepancy, the Executive Leadership and Support Services Program, within Mental Health Services includes \$144,729 in budget that belongs in SVPP and \$244,989 that belongs in Community Mental Health and Substance Abuse Services, Executive Leadership and Support Services Program. The Department submitted an issue in the FY 2016-17 LBR to transfer this budget to its corresponding programs.

Total	\$257,261,154	\$7,555,827	\$70,646,082	\$335,463,063

²³ "Reserve", Org L2-98, identifies budget authority earmarked for the Department's computer refresh.

²⁴ "Unfunded Budget", Org L2-99, identifies budget authority that does not have a revenue source to support it. For example, recurring budget authority is appropriated for multi-year grants. When the grant ends the budget authority remains in the Department. Since the grant ended, the budget authority no longer has a revenue source and it will be coded to unfunded budget. The Department deletes unfunded budget authority from its base budget during the Legislative Budget Request process. This balances the Department's budget authority with revenues.

V. Grants and Special Projects

In order to meet the five strategic initiatives, the Department will continue to implement the following five mental health and substance abuse grant programs as well as an action plan focused on improving services for children and youth served by multiple systems developed through technical assistance from Georgetown University.

V.A. PROJECTS FOR ASSISTANCE IN TRANSITION FROM HOMELESSNESS (PATH) PROGRAM

The PATH program is a SAMHSA funded formula grant administered to U.S. states and territories. Funding varies annually, based on federal appropriations. PATH provides services to adults with serious mental illness, including those with co-occurring substance use disorders, who are experiencing homelessness or at imminent risk of becoming homeless.

PATH funds can be utilized by local network providers for a variety of services, including outreach, case management, housing and employment support, clinical care, and recovery support. The goal is to actively engage individuals who meet criteria, end their homelessness, and engage them in services and supports that will help them in their continued recovery.

Florida utilizes PATH funds to contract with twenty-three network service providers throughout the state, based on prevalence of homeless individuals. Each provider designs their service array based on the existing resources and specific needs of their community, but all provide outreach and case management at a minimum. The Department provides statewide training and technical assistance to providers in the areas of permanent supportive housing and other topics relevant to individuals experiencing or at risk of homelessness. This program directly supports strategic initiative #1, Access to Quality, Recovery-Oriented Systems of Care.

V.B. SYSTEM OF CARE STATEWIDE EXPANSION PROJECT

The System of Care (SOC) Statewide Expansion project is a five-year, \$3.9 million cooperative agreement funded by SAMHSA to assist Florida to improve mental health outcomes for children and youth (birth to 21 years of age) with serious emotional disturbances and their families. This project supports wide scale expansion and integration of the SOC approach into the state's service delivery system by creating sustainable infrastructure and services. A detailed description of the SOC approach can be accessed at:

http://gucchdgeorgetown.net/data/documents/SOC_Brief2010.pdf

Florida's approach is based on a partnership of funders, providers, families, youth, faith-based organizations, and community service organizations. This partnership facilitates strategic planning and training and promotes a Wraparound approach that provides intensive, individualized care coordination for youth with complex mental health challenges and their families. This project directly supports strategic initiative #1, Access to Quality, Recovery-Oriented Systems of Care.

V.C. PROJECT LAUNCH (LINKING ACTIONS FOR UNMET NEEDS IN CHILDREN'S HEALTH)

Florida Project LAUNCH is a five-year, \$4 million cooperative agreement funded by SAMHSA that aims to prevent youth emotional and behavioral disorders by improving family function and the quality of the parent-child relationship. This is accomplished through five prevention and promotion strategies, including:

- Screening and assessment in a range of child-serving settings;
- Integration of behavioral health into primary care settings;
- Mental health consultation in early care and education;
- Family strengthening and parent skills training; and
- Enhanced home visiting through increased focus on social and emotional well-being.

Led by a partnership between the Department and the Department of Health, LAUNCH focuses on Lealman Corridor, an area consisting of four zip codes in Pinellas County. The population of Lealman Corridor faces many early childhood developmental risk factors, such as limited services, high crime, substance use, domestic violence, and high rates of child maltreatment associated with substance use and unemployment. The population of this area also struggles with high rates of poverty. LAUNCH will use Lealman Corridor as a pilot site for enhanced provider collaboration, service supports, and family focused prevention and promotion of health and wellness.

The Department and other state level stakeholders have formed the Young Child Wellness Council, which will be using evaluation data to measure outcomes and expand this community's success across the state. LAUNCH directly supports strategic initiative #2, Community-Based Health Promotion and Prevention.

V.D. THE PARTNERSHIPS FOR SUCCESS GRANT

The Florida Partnership for Success (PFS) project is a five-year, \$11.5 million grant program funded by SAMHSA that helps targeted communities reduce underage drinking and substance abuse-related problems through a public health approach to creating community-wide change.

PFS enables substance abuse prevention systems to work with community partners and prevention-related resources to set and achieve measurable goals to reduce substance abuse among youth. The Department and SAMHSA provide technical support, training opportunities, and oversight for participating community substance abuse prevention coalitions. Currently, coalitions in Duval, Orange, Pinellas, Palm Beach, Broward, and Miami-Dade counties are participating in PFS. This grant directly supports strategic initiative #2, Community-Based Health Promotion and Prevention.

V.E. HEALTHY TRANSITIONS

The Now Is The Time Healthy Transitions grant program is a five-year, \$5 million project funded by SAMHSA to improve access to treatment and support services for individuals ages 16 – 25 who have, or are at risk of developing, a serious mental health condition. The Healthy Transitions grant program:

- Increases awareness about early indicators of serious mental health concerns;
- Identifies action strategies for when a serious mental health concern is detected;

- Trains provider and community groups to improve services and support;
- Enhances peer and family supports; and
- Develops services and interventions to support transitions to adult roles and responsibilities.

The project will be administered by the Central Florida Behavioral Health Network in partnership with the Department. In addition to addressing policy and practice issues relating to the transition of youth from child to adult systems of care, the project will pilot evidence-based services for this population in Hillsborough, Lee, and Collier counties. Healthy Transitions directly supports strategic initiatives #1, Access to Quality, Recovery-Oriented Systems of care and #2, Community-Based Health Promotion and Prevention.

V.F. LEARNING COMMUNITY AND ON-SITE TECHNICAL ASSISTANCE FOR YOUTH AND YOUNG ADULTS WITH CO-OCCURRING MENTAL HEALTH AND DEVELOPMENTAL DISABILITIES

This program offered by the Georgetown University Center for Child and Human Development National Technical Assistance Center for Children's Mental Health seeks to enhance services and supports to youth ages 0-21 with co-occurring mental health and developmental disabilities. A project team comprised of the Office of SAMH, other state agencies, a parent, and young person with a co-occurring mental health condition and developmental disability received technical assistance from Georgetown University to assist the State with its integrated service/program models, services array, funding strategies, and workforce development. In addition, an action plan was developed addressing next steps over the next 12 months, including system management, data review, quality improvement and training opportunities. The action plan developed by this learning community directly supports strategic initiative #1, Access to Recovery-Oriented Systems of Care.

V.G. MULTI-SYSTEM COLLABORATION TRAINING AND TECHNICAL ASSISTANCE PROGRAM

This program offered through the Georgetown University Center for Coordinated Assistance to States provides training and technical assistance to assist with serving at-risk youth who are involved with multiple systems and organizations, such as child welfare, education, law enforcement, juvenile justice, and behavioral health. Technical assistance is being provided to multi-disciplinary teams in developing a stronger infrastructure to improve system processes and outcomes for these at-risk youth. This technical assistance directly supports strategic initiative #1, Access to Recovery-Oriented Systems of Care.

VI. Policy Changes

The Department continues to strengthen the quality of mental health and substance abuse treatment and support services through proposed changes in departmental policies, procedures, and recommendations for statutory revisions.²⁷ Table 12 below indicates the sections of Florida Statutes that were recommended to be repealed or amended due to policy changes and revisions:

Table 12: SAMH Statutory Amendment and Repeal Justification

Florida Statute Section	Justification for Repeal or Revision
Section 394.4985, F.S., District-wide information and referral network implementation	This requires the Department's districts to develop and maintain an information and referral network that is duplicative of other requirements.
Section 394.455, F.S., Definitions	The definition of mental illness in this section currently excludes developmental disability as defined in chapter 393, intoxication, or conditions manifested only by antisocial behavior or substance abuse impairment. The Department would propose to also exclude dementia and traumatic brain injuries for the purposes of admission to state mental health treatment facilities as treatment for these conditions are not within their scope.
Section 394.492, F.S., Definitions	This section of law provides definitions for child and adolescent mental health services. The Department proposes to change the age of persons served in these priority populations from under 18 years of age to under 21 years of age to align with Medicaid definitions. This would also provide a transitional period for individuals that will require adult services to remain in their current services until that transition can occur.
Section 394.674, F.S., Eligibility for publicly funded substance abuse and mental health services; fee collection requirements	This section of law provides the Department's eligibility criteria for behavioral health services, and could be amended to reflect the funding priorities of the federal block grants, recent changes to health care law, and the role of Medicaid.

²⁷ S. 394.75 (1c,1f), F.S.

VII. Contract Management

The Department's contracting system is founded on Section 20.19, and Chapters 287 and 402, F.S. Whenever possible under established program objectives and performance criteria, the Department executes multiyear contracts for services to make the most efficient use of resources. Chapter 287, F.S., specifies detailed procurement procedures; certain contract terms and conditions; and legislative intent for the purchases of commodities and services. When statutorily regulated exemptions are inapplicable, the Department has adopted competitive procurement as its default methodology.

The Office of Contracted Client Services (OCCS) is responsible for oversight and management of the Department's contracting system and details contracting procedures in the Department of Children and Families Operating Procedure 75-02. OCCS also houses the Contract Oversight Unit, an independent statewide function that monitors contracted provider compliance and reports the results to contract managers and programs, as specified in s. 402.7305, F.S. and in Children and Families Operating Procedures 75-08. The Department's Operating Procedures are available at: [Florida Department of Children and Families - Policies and Procedures](#).

VII.A. MANAGING ENTITY CONTRACT MANAGEMENT

The majority of the Department's community-based substance abuse and mental health services are provided under contract with Managing Entities, in compliance with s. 394.9082, F.S. Managing Entities do not provide services directly, rather each Managing Entity is responsible for the development, implementation, administration, and monitoring of a subcontracted network of service providers in its geographic area. Each Managing Entity updates service provider information through the Network Service Provider Catalogue of Care annually²⁸, a copy of which is provided in Appendix 4. Managing Entity contracts are executed and managed by contract managers in the Department's regional offices, using templates developed by the SAMH Headquarter office. Templates are available at [Managing Entities | Florida Department of Children and Families](#).

The Department submits an annual report pursuant to s. 394.745, F.S., to document the performance of community behavioral health providers under contract with the Department of Children and Families. It describes the compliance of Managing Entities with legislatively established annual performance standards and corrective actions as a result of not achieving performance standards.

SAMH also has rulemaking responsibility for the Community Substance Abuse and Mental Health Services - Financial Rules promulgated in Chapter 65E-14, F.A.C., applicable to all community service contracts.

VII.B. OTHER SAMH-FUNDED CONTRACTED SERVICES

The Department contracts for additional services outside the scope of the Managing Entity, a summary of which is provided in Appendix 5. These contracts include:

²⁸ The Network Service Provider Catalogue of Care describes the funds allocated to each service provider under contract with an ME and the associated type of services purchased. The Network Service Provider Catalogue of Care is contractually required as part of the ME Business Operations Plan per Attachment I, Section B.1.a.(1)(e). The Network Service Provider Catalogue of Care Template is available online at: [Managing Entities | Florida Department of Children and Families](#).

- Four contracts for residential services at privatized state Mental Health Treatment Facilities;
- Thirteen contracts for professional and operational support services at publically operated state Mental Health Treatment Facilities;
- Thirty-five contracts for community-based client services required to be provided outside the Managing Entity system;
- Fifteen contracts for statewide operational support and technical assistance services;
- One contract for involuntary civil commitment services for sexually violent predators, pursuant to Chapter 394, Part V, F.S. and 24 contracts with independent clinical professionals for evaluations and assessments required by the involuntary civil commitment judicial process;
- One contract for statewide Juvenile Incompetent to Proceed Services, under s. 985.19, F.S.; and
- Nine grant agreements for county Criminal Justice, Mental Health, and Substance Abuse Reinvestment Grant Programs, in compliance with s. 394.656, F.S.

VII.C. CONTRACTING SYSTEM RECOMMENDATIONS FOR IMPROVEMENT

The Department's systems for providing accountability for contracted funds include the procurement, contract management and contract oversight tools previously mentioned, coupled with:

- Additional fiscal oversight of Managing Entity contracts by the Department's Fiscal Accountability Unit;
- Second-tier invoice validation and payment approval by the Department's Administrative Services Support Center;
- Periodic statewide monitoring of programmatic performance and financial reporting; and
- Data reporting in the Department's Substance Abuse and Mental Health Information System.

It is anticipated that the data system enhancements described in Strategic Initiative #4 of this plan will improve contract manager's ability to analyze provider performance, both in terms of service delivery and the associated outcomes, and fiscal accountability. Specifically, the new data system will improve contract management through:

- Implementation of the crisis stabilization utilization services database required by s. 394.9082(10), F.S.;
- Increasing the reliability and validity of National Outcome Measure data collection and reporting;
- Increasing accountability on costs and outcomes associated with state-funded services to target populations;
- Improving common registration, client enrollments and coordination of care across various systems, including child welfare and Medicaid services;
- Supporting appropriate service need and level of functioning determinations; and
- Increasing accountability of service costs based on actual services provided.

Appendix I

ORGANIZATIONAL STRUCTURE

I. ORGANIZATIONAL STRUCTURE

The Department of Children and Families is led by the Secretary who is appointed by the Governor. The Secretary appoints an Assistant Secretary for SAMH, who provides leadership and direction for the SAMH Headquarters office in Tallahassee, and reports to the Deputy Secretary. The Assistant Secretary for SAMH is supported by a:

- 1) Director for Substance Abuse and Mental Health,
- 2) Director of State Mental Health Treatment Facilities,
- 3) Director for the Sexually Violent Predator Program, and
- 4) Child Welfare Integration Director.

The Department's community-based functions are implemented and overseen by a Regional SAMH Director in each of the Department's six regions. Each Regional SAMH Director reports to a Regional Managing Director, who in turn reports to the Assistant Secretary of Operations.

II. RESPONSIBILITIES

At the state level, the SAMH Headquarters office develops the standards for quality care in prevention, treatment, and recovery. The Department is the state licensing authority for substance abuse treatment facilities, and designates public mental health emergency receiving facilities and addiction receiving facilities.

The core functions of the Office of SAMH are managed through the various program areas and include:

- 1) Community Substance Abuse and Mental Health
 - a) Operations
 - i) Contract procurement and management
 - ii) Discretionary grant management and implementation
 - b) Program Information
 - i) Development of clinical guidance, based on industry standards and research
 - ii) Data collection and analysis, related to Department funded services
 - (1) Manage the Substance Abuse and Mental Health Information System (SAMHIS)
 - (2) Collect and analyze seclusion and restraint event data
 - (3) Review and disseminate incident report data
 - iii) Policy and rule development
 - iv) Coordinated cooperation with child welfare
 - v) Training and technical assistance development
 - vi) Implementation of the Office of Suicide Prevention
 - vii) Disaster management.
 - c) Planning
 - i) Oversight and monitoring of the Community Mental Health Block Grant
 - ii) Oversight and monitoring of the Substance Abuse Prevention and Treatment Block Grant
 - iii) Development of statutorily required reports

- iv) Development of strategic plans
 - v) Development of legislative budget requests
- d) Licensing and Designation
 - i) Implementation of Florida statutory requirements for substance abuse providers
 - ii) Management of Substance Abuse Licensing Information System (SALIS)
 - iii) Designation of receiving facilities
 - iv) State Opiate Treatment Authority
- 2) State Mental Health Treatment Facilities
 - a) Programmatic and supervisory oversight of state operated treatment facilities:
 - i) Florida State Hospital;
 - ii) Northeast Florida State Hospital; and
 - iii) North Florida Evaluation and Treatment Center
 - b) Contract management and programmatic oversight for privately operated treatment facilities:
 - i) South Florida Evaluation and Treatment Center;
 - ii) South Florida State Hospital;
 - iii) Treasure Coast Forensic Treatment Center; and
 - iv) West Florida Community Care Center¹
 - c) Management of the Juvenile Incompetent to Proceed (JITP) program
 - d) Coordination of forensic admissions
 - e) Policy and rule development, and compliance monitoring
 - f) Long range program planning
 - g) Development of legislative budget requests
 - h) Data collection and analysis
- 3) Sexually Violent Predator Program
 - a) Commitment recommendations for referrals
 - b) Control, care and treatment to persons subject to the Involuntary Commitment of Sexually Violent Predators Act²
 - c) Contract monitoring for operation of the Florida Civil Commitment Center

As noted previously, community-based functions are also overseen by regional staff, including contract management, licensing, and regional planning. The behavioral health safety net is built on a foundation of community involvement, and coordination, both internally and with external stakeholders. Although the Department serves as the single state agency, substance abuse and mental health services are also available through other state agencies including the Departments of Education, Health, Juvenile Justice, Corrections, Elder Affairs and the Agency for Health Care Administration. Local partners include consumers of substance abuse and

¹ The contract for West Florida Community Care Center is managed by the Department's Northwest Region SAMH Office.

² Chapter 394, Part V, F.S.

mental health services, family members of consumers, Community-Based Care providers, local government, judiciary, law enforcement, advocacy groups, and providers of services.

III. MANAGING ENTITIES

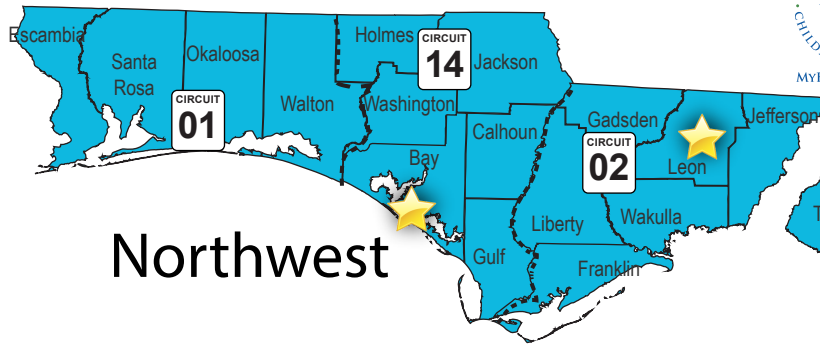

The Department contracts for the management of the majority of community based behavioral health services with seven managing entities (ME). MEs were legislatively authorized to create “a management structure that places the responsibility for publicly financed behavioral health treatment and prevention services within a single private, nonprofit entity at the local level” with the intent to “promote improved access to care, promote service continuity, and provide for more efficient and effective delivery of substance abuse and mental health services.”³

Additionally, the Legislature noted that “streamlining administrative processes will create cost efficiencies and provide flexibility to better match available services to consumers’ identified needs.”⁴

Operationally, the ME contracts are executed, implemented and managed by the Regional Managing Director. In consultation with the SAMH Headquarters office, the Regional SAMH Director ensures that each ME meets the statewide goals and is responsive to the unique conditions in each community. Each ME is contractually responsible for the development, planning, administration, implementation, monitoring and management of behavioral health care in a designated geographical area. Services are provided by subcontracted local Network Service Providers. The map below shows the MEs under contract with the Department and the counties they serve.

DISTRICT REGIONAL PLANS

Northwest Region Substance Abuse and Mental Health Program

Organizational Profile

Geography and Population

The Northwest Region (NWR) Florida Substance Abuse and Mental Health (SAMH) Program Office has statutory responsibility for the planning, oversight and administration of the behavioral health system in Circuits 1, 2 and 14. The counties included in this area, by circuit, include: Circuit 1: Escambia, Santa Rosa, Okaloosa, and Walton; Circuit 2: Franklin, Gadsden, Wakulla, Leon, Liberty, and Jefferson; Circuit 14: Bay, Holmes, Washington, Jackson, Calhoun, and Gulf. In order to correlate with Judicial Circuits, behavioral health services are provided for two counties (Madison and Taylor) in Circuit 3.

Located in the Panhandle of Florida, Circuit 1 is bordered by Alabama to the North and West, and the Gulf of Mexico to the South. Circuits 2 and 14 are bordered by Georgia to the North and the Gulf of Mexico to the South. The two counties of Circuit 3 (Madison) borders the Gulf of Mexico to the South and Taylor County borders Georgia to the North.

The Region is primarily rural, with an estimated population of 1,471,512 (U.S. Census Bureau 2014), with greater population densities around Pensacola, Panama City and Tallahassee. According to data from the US Census, the population in 14 of the 18 counties served in the NWR is below the average Florida poverty level of 16.3%. (Florida Poverty Rate by County, 2009 -2013) Cumulatively, 18.94% of the population in the NWR falls below the state poverty level.

Regional Staff

The NWR SAMH program has staff based in each circuit of the region. The Circuit 1 office is located at 160 E. Government Street, in downtown Pensacola in the State Office Building Complex. The Circuit 2 office is located at 2383 Phillips Road, Tallahassee, and also serves Madison and Taylor Counties in Circuit 3. The Circuit 14 office is located at 2505 West 15th Avenue, in Panama City.

The SAMH program staff are responsible for providing oversight of the substance abuse and mental health services system, as well as performing administrative and regulatory functions that include the licensing of all substance abuse provider agencies.

Regulatory Functions

The Licensing/System of Care Specialists are responsible for licensing and monitoring both public and private substance abuse providers. Currently, there are 57 provider agencies that are licensed to provide substance abuse services in the NWR. These staff are also responsible for recommending designation of Baker Act Receiving Facilities and monitoring compliance to statutory and regulatory standards.

Administrative/Contracting Functions

Direct behavioral health services are delivered through contractual arrangements with provider agencies. The majority of services are managed through a contract with the Big Bend Community Based Care Managing Entity. However, the region continues to directly manage a small number of contracts.

Since 2013, SAMH services throughout the State of Florida are purchased through contracts with non-profit providers known as Managing Entities (ME). The Managing Entity for the Northwest Region is Big Bend Community Based Care (BBCBC), an agency that also holds

the Community Based Care Contract for child welfare services. BBCBC was identified and selected using the Department's competitive procurement process. The main role of the ME is to oversee and enhance the regional system of care. Substance Abuse and Mental Health services are purchased and managed through subcontracts with providers in Circuits 1, 2 and 14 and Taylor and Madison Counties within Circuit 3. The ME is tasked with ensuring that all needs of SAMH clients and consumers are being met through subcontracted service providers by analyzing consumer feedback, conducting needs assessments and monitoring the system for gaps. The ME has developed tools and systems in order to monitor subcontracted providers to ensure the quality and quantity of services provided are at a level and standard approved by state and federal authorities.

The ME contract is managed by the regional ME contract manager, who is responsible for both onsite and desk audits, invoice monitoring, monthly contract monitoring and day-to-day contact with the BBCBC contract manager to validate that contract requirements are being met. This process assures that deficiencies in the system are noted and improvement initiatives can be conducted immediately, as well as making changes deemed appropriate caused by emerging trends and if unexpected/unanticipated changes to the system occur.

In addition to the ME contract, the region is also responsible for managing a few direct contracts with service providers. These contracts include:

- A contract with Lakeview Center, Inc. for the management and full operation of West Florida Community Care Center (WFCCC), an 80-bed Designated State Treatment Facility located in Milton, Florida. The provider serves persons with Serious and Persistent Mental Illness (SPMI) and is CARF accredited. During fiscal year 2014 – 2015, WFCCC served 198 persons and successfully discharged more than 117 individuals. During the year, the facility maintained an average daily census of 74 clients with an average length of stay of approximately 190 days. The average cost per client is estimated to be \$248.63.
- Two Children's Community Action Team (CAT) contracts, one with Life Management and the other with the COPE Center. The CAT teams are designed to provide comprehensive, community-based services to children aged 11 to 21 with a mental health diagnosis or co-occurring substance abuse diagnosis with accompanying characteristics such as: being at risk for out-of-home placement; having two or more hospitalizations or repeated failures; involvement with Juvenile Justice or law enforcement; or poor academic performance and/or suspension. The program is staffed 24/7 to provide support to the child and family and includes counseling, respite, mentoring, and social services.

Regional Staffing

All SAMH staff support the Region's system of care either via contract management, quality assurance activities, data analysis, Baker Act monitoring, licensure inspections, as well as clerical support. The table below reflects staff supported with SAMH funding.

Number of Employees*

Program	FTEs	OPS	Temp/Contract
Substance Abuse	4	1	1
Mental Health	4	3	
Total	8	4	1

**Includes two staff funded through the System of Care Grant and one contract position allocated to the Director of Strategic Planning and Community Services.*

Effective August 2015, the Regional Managing Director reassigned the ME and Community-based Care (CBC) contract managers to the newly created position of Director of Strategic Planning and Community Planning. Re-assigning the three contract managers responsible for the ME and CBC contracts to the same regional program area is intended to support and strengthen child welfare and behavioral health integration. Additionally, this new organizational structure is expected to establish improved support, coordination, and efficiency across these major contracts.

Specific positions assigned to the SAMH program and a brief description of staff areas of responsibility and background are provided below.

Program Staff

- 1) Regional System of Care Coordinator – this individual is a Master's-level employee who is also a Certified Public Manager, and Sterling Examiner, who has many years of clinical and administrative experience, in the areas of substance abuse and mental health. She is responsible for the clinical system of care and oversight of the licensing specialists for the entire region. She is based in the Circuit 1 office.
- 2) Licensure Specialist/System of Care Specialist, Circuit 2 – this individual has a Bachelor's Degree with several years of clinical experience primarily in the area of substance abuse and child welfare.
- 3) Licensure Specialist/System of Care Specialist, Circuit 14 – this individual has a Bachelor's Degree with several years of clinical experience, primarily in the areas of substance abuse and children's mental health.
- 4) Licensure Specialist/Continuous Quality Improvement (CQI) Analyst, Circuit 1 – this individual has a Bachelor's Degree with many years of quality improvement and administrative experience in the areas of child welfare and substance abuse licensure. She performs both substance abuse licensure duties but has regional CQI responsibilities.
- 5) System of Care Site Coordinator, Circuit 2 – this individual is a Licensed Clinical Social Worker with many years of clinical and administrative experience particularly in the area of children's mental health. He is in a grant-funded OPS .25 FTE, position. Since this position requires full-time capacity; a second employee (.75 FTE) shares job duties. The .75 FTE has several years of experience in behavioral health services and is a certified NIATx Peer Mentor.
- 6) System of Care Site Coordinator, Circuit 14 – this individual has a Bachelor's Degree and more than 10 years' experience in the areas of child welfare and social services. She is certified as a Youth and Adult Mental Health First Aid instructor and Wraparound Facilitator. This is a grant-funded OPS position.

Administrative Staff

- 7) ME Contract Manager – this position is currently vacant and has been re-assigned to a different program area.
- 8) Contract Manager – this position manages all non-ME contracts. The employee in this position is due to retire in October 2015.
- 9) Administrative Assistant – the SAMH Program Office is supported by a part-time OPS Administrative Assistant with many years of experience with state government. She is based in Circuit 1, but has regional duties.
- 10) Administrative Assistant – the SAMH Program Office is supported by a career service employee who has several years of experience working with the Department. She is based in Circuit 2.
- 11) Data Liaison – the individual in this position has a Bachelor's Degree with many years of experience in information technology. The individual in this position is a part-time OPS employee and mines data from the Substance Abuse and Mental Health Information System.

Leadership

Regional SAMH Director – this individual has a Bachelor's Degree in Sociology and completed all requirements of a Master's Degree in Psychology (including thesis). She has more than 30 years of experience in state government including: experience at a state mental health treatment facility providing client services, as well as performing programmatic quality assurance; as a Legislative Analyst at the Florida Senate; and at the headquarters Substance Abuse and Mental Health Program Office in several leadership roles. She has served as Regional SAMH Director since August 2013.

FY 15/16 Budget by Category

	55,768,127.00

Northwest Region System of Care

Types of services provided: An array of behavioral health services are available for adults and children across the region. This array includes a full continuum of Emergency/Acute, Treatment Facility Based, Inpatient, Outpatient, and Recovery Support services. These

services are integrated and most community mental health/substance abuse providers utilize a “no wrong door” approach implementing the Minkoff/Klein model that enhances service delivery for persons who have co-occurring disorders.

A comprehensive array of children’s services including a continuum of residential options (SIPP, TGHs, STFHS, and regular TFHs), Emergency and Crisis Support services, and a full array of Outpatient Services, including specialized Infant Mental Health Services, and In-Home and On-Site services. The array of available services include, three (3) FACT Teams, several Comprehensive Community Services Teams (CCST), two (2) CAT Teams for children, multiple residential treatment facilities, crisis stabilization units, detoxification units, one addictions receiving facility, drop in centers, a clubhouse, and outpatient psychiatric services. Recovery and Resiliency is the focus of services in the region.

Services Provided Through Specified/Special Projects Funding

- Funding (\$809,357.00 for NWR) for the expansion of substance abuse services for pregnant women and their affected families was provided to the NWR. This funding was allocated through the ME to three service providers which included Chemical Addictions Recovery Effort (CARE), Community Drug and Alcohol Council, (CDAC), and DISC Village. With this additional funding, these providers are able to provide an array of services to include: residential treatment, outpatient treatment with housing support, outreach, detoxification, childcare, and post-partum case management supporting both the mother and child.
- First Treatment Episode Psychosis – \$750,000.00 was allocated to Life Management Center to implement the “NAVIGATE” program. NAVIGATE is a comprehensive intervention program for people experiencing a first episode of psychosis. Broadly, the NAVIGATE program helps consumers navigate the road to recovery from an episode of psychosis, including supporting efforts to function well at home, on the job, at school, and in the social world. Only two regions in the state received this designated funding.
- Prevention Partnership Grant – The Northwest Region received funding to support the Prevention Partnership Grant (PPG). Through a competitive procurement process, three agencies were selected: Bay District School Board received \$150,000; Community Drug and Alcohol Council received \$150,000; and Chemical Addictions Recovery Effort received \$112,849. PPG funding supports rigorous, effective, evidence-based substance abuse prevention programs and strategies intended to prevent or reduce Florida substance use and abuse rates at the community level.
- Two provider agencies received funding in the amount of \$750,000 per team to support Children’s Community Action Teams. These teams are directed to serve children with mental health issues who are in danger of being removed from their homes. The two CAT providers served 75 children and their families during FY 14/15. During FY 15/16 the region will implement a third CAT Team with the Lakeview Center.

Since many persons who receive behavioral health services also need medical care, NWR providers often collaborate with physical healthcare providers to provide integrated services. Research supports that when medical care and preventative medical and dental care is provided simultaneously, more cost effective and improved patient outcomes (Health Resources and Services Administration, 2015) are achieved. Currently, two service providers house primary care physicians within their agencies (Lakeview Center and Life Management Center).

Using the allocated funding for SAMH services, the providers in the NWR were able to provide services to 35,588 individuals. The following table reflects the distinct number of adults and children who received services.

**Number of Persons Served
FY 2014-15**

Program	# Served
Adult Mental Health	26,854
Children's Mental Health	8,734*

*Includes children served by CAT teams.

Regional Initiatives

- The eighty-bed West Florida Community Care Center (WFCCC) centrally located in Milton, Florida is the only community-based Designated Treatment Facility in the State and is designed to reduce admissions to Florida State Hospital. WFCCC's small size, central location, and family-friendly treatment approach maximizes family participation in treatment and client outcomes.
- The System of Care (SOC) Implementation Grant is in its third year of implementation. Focus for the upcoming year will be on diffusion and sustainability.
- Three Family Intensive Treatment (FIT) Teams are scheduled for implementation in FY 15/16. These teams will be located in each circuit. This initiative will require the collaboration and integration between SAMH and Child Welfare. The primary referral source for FIT will be from child welfare.
- SAMH and Adult Protective Services (APS) staff collaborate on workgroups, meetings and/or staffings to provide assistance in order to better serve vulnerable adults.
- The Northwest Region SAMH Program Office created a team approach to manage and review the ME contract. Given the size and amount of deliverables included within the contract, as well as the magnitude of programs and services, the Regional SAMH Director developed a team with a variety of expertise ranging from substance abuse and mental health program experience; statute, rule and legislative knowledge; data analysis; programmatic budget review; and many years of contract management experience. The team monitored the contract and deliverables in regards to their area of expertise and convened weekly to discuss and approve deliverables, as well as provide recommendations, feedback and technical assistance as needed and requested.
- Community Placements:
 - The Regional SAMH Office is working in partnership with the Managing Entity, Florida State Hospital, WFCCC, and headquarters facility staff to place individuals in state mental health treatment facilities that are discharge-ready and in need of community placement. Increasing placement options in the NWR is a very important goal for our system of care.
 - As a first step to increasing housing options, the region partnered with SAMH headquarters and the Florida Mental Health Institute to provide training in Substance Abuse and Mental Health Services Administration evidence-based supportive housing curriculum.
 - A regional meeting was convened, in conjunction with the ME and local stakeholders to identify circuit-specific needs, potential service gaps and funding sources. Future steps will include establishing specific housing sites.

Needs and Opportunities for Improvement

- An important opportunity for improvement for the System of Care for the Northwest Region is the successful support and management of the ME. Since its implementation in 2013, Big Bend has completed a needs assessment and adjustments to the current service delivery system will be made based on these findings. The SAMH office and the

Director of Strategic Planning and Community Services and staff will work in collaboration with ME staff to meet the needs of the community.

- The SAMH Program Office, in partnership with the SAMH Managing Entity is working to find community locations for individuals in state mental health treatment facilities who are discharge-ready. This is an area of significant concern because community living options are limited, particularly in Circuit 1, as the result of closing approximately 88 community beds during the past three (3) years.
- Residential substance abuse treatment services are costly and continue to be in high demand. While efforts to place individuals in a less restrictive level of care continue, there is an on-going need for this level of treatment.
- Supportive housing options are very limited in the NWR and not equally available within each circuit.
- The demand for psychiatric services continues to outpace our ability to recruit and retain psychiatrists, and especially child psychiatrists. This continues to be an ongoing challenge.
- The successful integration of behavioral health and child welfare services continues to be a challenge. Recently implemented initiatives such as CAT teams, Mental Health First Aid, and Wrap Around training present opportunities to increase service integration across the two areas.

Regional Collaboration and Communication

- The Regional SAMH Director is the current Chair of the West Florida Community Care Center (WFCCC) Governing Body meeting which is convened quarterly.
- The Regional System of Care Coordinator is a standing member of the Circuit 1 Families First Network (community-based care provider) and Department Steering Committee.
- Trauma-informed Care is a high priority for the Region. Consequently, SAMH employees in each circuit are actively involved in meetings and initiatives to make the Region "trauma-informed". There are ongoing workgroups in Circuits 1 and 2; a workgroup is being developed in Circuit 14.
- The SAMH staff provide leadership for the local Baker Act interagency meetings. As a result of feedback from the circuit level groups, plans are under development to convene a Regional Baker Act Interagency meeting in February, 2016.
- The System of Care/Licensing Specialists in Circuits 2 and 14 are very active in supporting local suicide prevention initiatives.
- The Management Analyst participates in community meetings related to homelessness and supportive housing and meets with ME Network Coordinators to discuss ways of enhancing and expanding the supportive housing options in the NWR.
- The Regional SAMH Office is involved with many workgroups, stakeholder initiatives and community forums involving local hospitals, provider agencies, the Agency for Persons with Disabilities, Agency for Health Care Administration, Department of Health, Vocational Rehabilitation, Department of Juvenile Justice, Homeless Coalitions, Domestic Violence Workgroups, Clubhouse Workgroups, Child Welfare Collaboration Workgroups, community alliance meetings, etc.
- The System of Care Grant Site Coordinators have developed strong community partnerships with local stakeholders and families to build a local solid infrastructure where the families' voice is heard and informs the system of changes needed as gaps in services are recognized.

Summary/Conclusion

During FY15/16, the NWR SAMH program will implement initiatives that support the Department's "Priority of Efforts", as well as areas of regional focus. These critical initiatives will, at a minimum, include those listed below.

1. Continue to Promote the Utilization of Evidence-Based Practices by:
 - Supporting Wraparound training in order to expand regional capacity to provide care coordination.
 - Providing community training in Youth and Adult Mental Health First Aid. This training has been offered throughout the region to providers and stakeholders. Next year, training areas and targeted training groups will be expanded to support integration of child welfare and mental health services.
 - Expand the use of Supportive Housing. Training has been provided throughout the region. Several providers implement PATH within their organizations. The Regional office is currently conducting a pilot project in Circuit 2 and Circuit 14 to expand supportive housing for clients in all service levels.
2. Increase care coordination efforts to:
 - Support timely community placements for person needing discharge from the state mental health treatment facilities.
 - Increase the use of Peer Specialist services.
 - Reduce recidivism in acute care settings such as CSU and Detoxification.
3. Improve integration of Child Welfare and Substance Abuse and Mental Health Service System through:
 - Supporting the implementation of the FIT and CAT team's throughout the region.
 - Establish capacity to provide Wraparound Services to clients involved in both systems.
4. Support the ME in meeting critical requirements through technical assistance and training.

**Northeast Region
Substance Abuse and Mental Health
Program Office
Triennial Plan FY 2015-2018**

The Northeast Region (NER) service area consists of twenty (20) counties including Circuits 3, 4, 7 and 8. The Region includes Nassau, Duval, Clay, St. Johns, Putnam, Flagler, Volusia, Baker, Columbia, Union, Bradford, Alachua, Levy, Gilchrist, Dixie, Lafayette, Suwannee, Hamilton, Taylor and Madison which have both densely populated urban and rural communities.

The Northeast Region has a contract with Lutheran Services of Florida Health Systems who has served as our Managing Entity (ME) since 2012, they serve eighteen (18) of the NER twenty (20) counties and well as five (5) counties in the Central Region. We also have a contract with Big Bend, the Northwest Managing Entity, which serves Madison and Taylor Counties. The budget for Madison and Taylor Counties is included in the Northwest Regions Substance Abuse and Mental Health Budget and the providers are located in the Northwest with satellite offices in Taylor and Madison Counties. The Managing Entities serve as our contracting agents with our local providers and manage our system of care.

Regional SAMH System of Care

Statutorily defined priority populations approved by the Legislature include:

For adult mental health services:

1. Adults who have severe and persistent mental illness, as designated by the department using criteria that include severity of diagnosis, duration of the mental illness, ability to independently perform activities of daily living, and receipt of disability income for a psychiatric condition. Included within this group are:

- Older adults in crisis.
- Older adults who are at risk of being placed in a more restrictive environment because of their mental illness.
- Persons deemed incompetent to proceed or not guilty by reason of insanity
- Other persons involved in the criminal justice system.
- Persons diagnosed as having co-occurring mental illness and substance abuse disorders.

2. Persons who are experiencing an acute mental or emotional crisis as defined in 394.67(17)

For children's mental health services:

- Children who are at risk of emotional disturbance as defined in s. 394.492(4).
- Children who have an emotional disturbance as defined in s. 394.492(5).
- Children who have a serious emotional disturbance as defined in s. 394.492(6).
- Children diagnosed as having a co-occurring substance abuse and emotional disturbance or serious emotional disturbance.

For substance abuse treatment services, priority populations include:

- Adults who have substance abuse disorders and a history of intravenous drug use.
- Pregnant IV Drug Users
- Adults at increased risk of losing their children to the dependency system as a result of substance misuse
- Persons diagnosed as having co-occurring substance abuse and mental health disorders.
- Parents who put children at risk due to a substance abuse disorder.
- Persons who have a substance abuse disorder and have been ordered by the court to receive treatment.
- Children at risk for initiating drug use.
- Children under state supervision.
- Children who have a substance abuse disorder but who are not under the supervision of a court or in the custody of a state agency.
- Persons identified as being part of a priority population as a condition for receiving services funded through the Center for Mental Health Services and Substance Abuse Prevention and Treatment Block Grants.

The mental health service needs of priority populations in general tend to be similar across the circuits, and include:

- Crisis services provided in settings such as a crisis stabilization unit, an inpatient unit, a short-term residential treatment program, a detoxification facility, or an addictions receiving facility; at the site of the crisis by a mobile crisis response team; or at a hospital on an outpatient basis.
- Treatment services, such as psychiatric medications and supportive psychotherapies, which are intended to reduce or ameliorate the symptoms of severe distress or mental illness.
- Rehabilitative services, which may include assessment of personal goals and strengths, readiness preparation, specific skill training, and assistance in designing environments that enable individuals to maximize their functioning and community participation.
- Support services, which include services that assist individuals in living successfully in environments of their choice. Such services may include income supports, social supports, housing supports, vocational supports, or accommodations related to the symptoms or disabilities associated with mental illness.

- Case management services are intended to assist individuals in obtaining the formal and informal resources that they need to successfully cope with the consequences of their illness. Resources may include treatment or rehabilitative or supportive interventions by both formal and informal providers. Case management may include an assessment of client needs; intervention planning with the client, his or her family, and service providers; linking the client to needed services; monitoring service delivery; evaluating the effect of services and supports; and advocating on behalf of the client.
- “Residential treatment center for children and adolescents” is a service that is a 24-hour residential program. This category of service includes a therapeutic group home, which provides mental health services to emotionally disturbed children or adolescents and which offers a variety of treatment modalities in a more restrictive setting.
- “Residential treatment facility” is a facility providing residential care and treatment to individuals exhibiting symptoms of mental illness who are in need of a 24-hour-per-day, 7-day-a-week structured living environment, respite care, or long-term community placement.

The substance abuse service needs of priority populations tend to also be similar across the Northeast Region circuits and include

- Prevention services, which include information dissemination; education regarding the consequences of substance abuse; alternative drug-free activities; problem identification; referral of persons to appropriate prevention programs; community-based programs that involve members of local communities in prevention activities; and environmental strategies to review, change, and enforce laws that control the availability of controlled and illegal substances.
- Assessment services, which include the evaluation of individuals and families in order to identify their strengths and determine their required level of care, motivation, and need for treatment and ancillary services.
- Intervention services, which include early identification, short-term counseling and referral, and outreach.
- Rehabilitation services, which include residential, outpatient, day or night, case management, in-home, psychiatric, and medical treatment, and methadone or medication management.
- Ancillary services, which include self-help and other support groups and activities; aftercare provided in a structured, therapeutic environment; supported housing; supported employment; vocational services; and educational services.

These services are designed to prevent or remediate the consequences of substance abuse, improve an individual’s quality of life and self-sufficiency, and support long-term recovery.

The Northeast Regional SAMH Program Office monitors compliance with common licensing standards for substance abuse programs and ensures the health, safety, and well being of the populations receiving services. The Program Office also monitors

compliance of the Baker Act standards, and operations within the Region's Receiving Facilities. The Northeast Region is the home of 17 Receiving Facilities:

Circuit 3- Meridian Behavioral Healthcare Crisis Stabilization Unit, Lake City

Circuit 4- Baptist Medical Center, Jacksonville

Memorial Hospital of Jacksonville, Jacksonville

Mental Health Resource Center South Crisis Stabilization Unit, Jacksonville

Mental Health Resource Center North Crisis Stabilization Unit, Jacksonville

Orange Park Medical Center, Orange Park

River Point Behavioral Health, Jacksonville

UF Health Jacksonville, Jacksonville

Wekiva Springs Center, Jacksonville

Circuit 7 – Flagler Hospital, St. Augustine

Halifax Health Inc., Daytona Beach

Halifax Psychiatric Center North, Daytona Beach

SMA Behavioral Health Services Crisis Stabilization Unit, Daytona Beach

Circuit 8- Meridian Behavioral Healthcare Crisis Stabilization Unit, Gainesville

North Florida Regional Medical Center, Gainesville

UF Health Shands/Shands Hospital at the University of Florida, Gainesville

UF Health Shands Psychiatric Hospital, Gainesville

As outlined in statute, the Northeast Region contracts with a managing entity to meet the needs of the region's clients and administer substance abuse and mental health funds and services. The region contracts with LSF Health Systems who serves as the Managing Entity. Note that two of the Northeast Region counties, Madison and Taylor, are served by the Northwest Region Managing Entity, and that Circuit 5 in the Central Region is served by LSF Health Systems. LSF Health Systems contracts with 32 Service Providers who provide an array of client-needed services throughout the region.

The managing entity structure was created to increase access to care, improve coordination of care, and redirect service dollars from more restrictive care settings to community-based services that emphasize recovery. Regarding Service Provision and Scope of Service, the core functions of the managing entity for the Northeast Region include:

- System of Care Development and Maintenance
- Utilization Management
- Provider Agency Network Subcontract Management
- Promote and enhance Continuous Quality Improvement
- Provide Technical Assistance and Training
- Collect, report and analyze data
- Promote sound fiscal management and accountability
- Planning

- Maintenance of a strong organization and governance structure
- Disaster planning and responsiveness

The Managing Entity also promotes the integration of Substance Abuse, Mental Health and Welfare systems, to ensure a prompt and family centered focus. Families should be served with minimal waiting, in a trauma informed system of care and with evidence based programs.

Realizing the importance of evidenced based practices to promote positive client outcomes, the Northeast Region managing entity promotes the implementation of best practices and evidence based practices through its contract language and by offering training on best practices and evidence based practices at regular intervals throughout the year. Oversight to ensure use of these practices occurs when the managing entity does concurrent and retrospective clinical chart reviews. The managing entity uses specific monitoring tools that focus on critical areas that not only establish use of these practices but also maintenance of fidelity to these practice models.

The comprehensive care coordination plan for the region is designed to:

- Reduce, manage and eliminate wait list;
- Promote increased planning, use and delivery of services;
- Increase timeliness and accessibility of clinically appropriate services;
- Promote use of service outcome data to achieve desired outcomes;
- Ensure that services are rendered in the least restrictive level of care and clients are diverted from higher levels of care when appropriate;
- Monitor and implement system changes to promote effectiveness.

Through the provision of contractual language between LSF Health Systems and Provider Agencies, county of residence is not an eligibility factor to access of needed services. If one provider agency is at capacity for a service, that client will access the service from another provider agency within the region.

LSF Health Systems operates a 24/7 Access-to-Care line that is staffed by clinical personnel. This service provides referral and linkage of behavioral health services to clients in need. This provides the potential for regular contact between the managing entity and clients, and offers the potential for identifying trend requested services and identify service gaps and information that communities may need to better access available services.

The SAMH Program Office has established linkages with specialty courts within the region. Currently there are 10 Drug Courts, 2 Dependency Drug Courts, 10 Mental Health Courts, and on track to begin is our first Baby Court.

The managing entity employs community engagement specialists who facilitate/participate with community advisory groups throughout the region. These groups are stakeholders in our system of care, and they include contract service providers. An ombudsman position has been created to act as a client advocate. This

staff person informs clients, family member and other stakeholders with the intent and focus being to ensure that client rights and choice is a priority at every level. Future plans include the formation of Consumer Advisory Councils to provide input that will help shape the system of care.

The managing entity requires by contract that its network of service providers achieve Department approved performance measures. These establish minimal acceptable outcomes to be achieved. Progress towards achieving these performance measures are maintained in the managing entity's database, which can be reviewed by service providers at any time. Technical assistance and training is available to assist achievement of performance measures, and corrective action plans can and are sometimes instituted should services not be meeting required outcomes.

Consumer satisfaction is assessed by provider agencies throughout the year, and monitored by the managing entity. Satisfaction scorecard reports are compiled by the managing entity and emailed to providers and compared to target outcomes. The areas where consumer feedback is sought include:

- General satisfaction with care
- Access to care
- Appropriateness and quality of care
- Outcomes of care
- Involvement in treatment
- Social connectedness
- Functional satisfaction

The Care Coordination Program of the managing entity responds to any fragmentation of services for the most vulnerable clients in the system of care. Most commonly, this occurs during care transitions such as discharge from a higher level of care to a lower level of care. Care coordination teams meet regularly to identify, assess and track clients vulnerable to fragmentation issues

Activities of the Care Coordination Program include:

- Communication
- Assessing needs
- Aligning resources with client needs
- Involving community resources
- Establishing accountability and Negotiating responsibility
- Facilitating transitions
- Supporting self-management goals
- Monitor, follow-up and respond to change

The Forensic and Civil State Hospital clients tend to be a particularly vulnerable population. Often it is difficult to identify an appropriate housing situation for clients ready for discharge. As a result, managing entity Clinical Care Support Specialists work

to maximize successful and appropriate discharge planning including housing arrangements. Among many things that they do, they monitor a website to identify licensed ALF-LMH and skilled nursing facilities for possible placements. DCF-required ALF-LMH training for licensure is offered every 60 days throughout the Northeast Region. The forensic clinical care support specialist also coordinates with the Department of Corrections to ensure that clients who are nearing their end of sentence and who have a mental health and/or substance abused need are linked with the appropriate providers and resources to promote successful transition.

A comprehensive care coordination plan for the region is designed to:

- Reduce, manage and eliminate wait list;
- Promote increased planning, use and delivery of services;
- Increase timeliness and accessibility of clinically appropriate services;
- Promote use of service outcome data to achieve desired outcomes;
- Ensure that services are rendered in the least restrictive level of care and clients are diverted from higher levels of care when appropriate;
- Monitor and implement system changes to promote effectiveness.

Through the provision of contractual language between LSF Health Systems and Provider Agencies, county of residence is not an eligibility factor to access of needed services. If one provider agency is at capacity for a service, that client will access the service from another provider agency within the region.

LSF Health Systems operates a 24/7 Access-to-Care line that is staffed by clinical personnel. This service provides referral and linkage of behavioral health services to clients in need. This provides the potential for regular contact between the managing entity and clients, and offers the potential for identifying trend requested services and identify service gaps and information that communities may need to better access available services.

The SAMH Program Office has established linkages with specialty courts within the region. Currently there are 10 Drug Courts, 2 Dependency Drug Courts, 10 Mental Health Courts, and on track to begin is our first Baby Court.

The managing entity employs community engagement specialists who facilitate/participate with community advisory groups throughout the region. These groups are stakeholders in our system of care, and they include contract service providers. An ombudsman position has been created to act as a client advocate. Future plans include the formation of Consumer Advisory Councils to provide input that will help shape the system of care.

The managing entity requires by contract that its network of service providers achieve Department approved performance measures. These establish minimal acceptable

outcomes to be achieved. Progress towards achieving these performance measures are maintained in the managing entity's database, which can be reviewed by service providers at any time. Technical assistance and training is available to assist achievement of performance measures, and corrective action plans can and are sometimes instituted should services not be meeting required outcomes.

Consumer satisfaction is assessed by provider agencies throughout the year, and monitored by the managing entity. Satisfaction scorecard reports are compiled by the managing entity and emailed to providers and compared to target outcomes. The areas where consumer feedback is sought include:

- General satisfaction with care
- Access to care
- Appropriateness and quality of care
- Outcomes of care
- Involvement in treatment
- Social connectedness
- Functional satisfaction

The Care Coordination Program of the managing entity responds to appearance of any fragmentation of services for the most vulnerable clients in the system of care. Most commonly, this occurs during care transitions such as discharge from a higher level of care to a lower level of care. Care coordination teams meet regularly to identify, assess and track clients vulnerable to fragmentation issues

Activities of the Care Coordination Program include:

- Communication
- Assessing needs
- Aligning resources with client needs
- Involving community resources
- Establishing accountability and Negotiating responsibility
- Facilitating transitions
- Supporting self-management goals
- Monitor, follow-up and respond to change

The Forensic and Civil State Hospital clients tend to be a particularly vulnerable population. Often it is difficult to identify an appropriate housing situation for clients ready for discharge. As a result, managing entity Clinical Care Support Specialists work to maximize successful and appropriate discharge planning including housing arrangements. Among many things that they do, they monitor a website to identify licensed ALF-LMH and skilled nursing facilities for possible placements. DCF-required ALF-LMH training for licensure is offered every 60 days throughout the Northeast Region.

The forensic clinical care support specialist also coordinates with the Department of Corrections to ensure that clients who are nearing their end of sentence and who have a mental health and/or substance abused need are linked with the appropriate providers and resources to promote successful transition.

With regard to children and youth, efforts to reduce/eliminate fragmentation within the system of care by utilizing a Team Approach for the delivery of services with linkage through multiple system care management perspectives and integration; Identify desired outcomes with designated responsibilities and accountability. Some of the participants in this Team Approach include FDOE, DJJ, Criminal Justice, Vocational Rehabilitation, APD, FSPT, Health Care, Child Welfare, various SAMH providers and Lutheran Services of Florida (LSF).

Here are some of the key activities that reduce the potential for fragmentation given involvement by multiple systems of care:

- Communicate: Identify the problem and need for services: Stakeholders, Providers, ME, and family.
- Collaborate: Dialogue with partners for delivery of cross system-community based services with the family
- Coordinate: Connect with the community partners and family and offer an array of community based traditional and non-traditional services.
- Cooperate: Stakeholders, providers and family will together develop a roadmap to navigate through the systems of care.
- Clarification: of language and terminology
- CLC principles: Integration of culturally linguistically competency principals
- Chart, Monitor the progression and provide TA for desired outcomes.

The Northeast Region has two Family Intervention Treatment (FIT) programs which provide focus on treatment of an entire family unit rather than the traditional approach of treating only the individual experiencing substance abuse.

Regarding medications, housing and employment;

- The Northeast Region Managing Entity LSF Health System works collaboratively with the Janssen Pharmaceuticals representative in the region who is very active in the mental health system. Janssen has been instrumental in providing consumers access to necessary psychotropic medications that are essential to their long-term stability. The Janssen representative works closely with the Clinical Care Support Specialist to provide samples to consumers who do not yet have their benefits reinstated when leaving the state hospital. The Janssen representative also serves as a member of all the FACT advisory councils in her region providing the latest information on medication advancements and new products Jansen provides. Patient assistance programs, IDPs and sample are all utilized to assist consumers with obtaining medications.

- According to managing entity staff, the Section 811 program has changed so much so that it is almost impossible for any developer in Jacksonville to qualify to win any of these programs through the state. No developers in Jacksonville have even attempted to apply for these funds for at least 3 years that the managing entity is aware of. With the addition of our new Regional Director of Housing at the managing entity, they will revisit the criteria, but it is unlikely that there will be any more 811 programs built in Circuit 4 unless the criteria changes.
- The managing entity is aware of the Vocational Rehabilitation program and promotes it in conjunction with all of their SOAR initiatives. Other specific ideas involving supported employment will be investigated and considered further in the coming year.

Because of the extensive collaborative initiatives promoted throughout the region, the area is close to a single system of care rather than a mental health system of care and a separate substance abuse system of care. The managing entity's Care Coordination team focuses on high-risk, high utilizing individuals with high recidivism rates in acute care services, so a focus on clients with co-occurring issues and the care they are receiving is reviewed for quality and appropriateness. This element of integration also takes place with clients who are involved with Baker Act and Marchman Act. Persons with a mental illness have substance abuse issues at a higher rate than typical of the general population of persons. A common issue connecting mental illness and substance abuse is the intention of patients to medicate the mental health symptoms that they find disruptive or uncomfortable by using alcohol and drugs.

The National Bureau of Economic Research (NBER) reports that there is a "definite connection between mental illness and the use of addictive substances" and that mental health disorder patients are responsible for the consumption of:

38 percent of alcohol
44 percent of cocaine

NBER also reports that people who have been diagnosed with a mental health disorder at some point in their lives are responsible for the consumption of:

69 percent of alcohol
84 percent of cocaine

With regard to providing services to clients residing in Assisted Living Care Facilities, it begins with the managing entity providing training per Florida Statute for Assisted Living Care Facilities that have the designation as a Limited Mental Health provider (meaning they serve three or more residents with a mental illness).

The training is 8 hours, and is offered in the Northeast Region at least every 60 days.

Training topics include:

- Major Diagnoses of Mental Illness
- Common Psychotropic Medications and Side Effects
- Legal and Ethical Issues
- Basic Behavioral Management Techniques
- Crisis Intervention Techniques
- Trauma

Beyond assisting the facility staff to have knowledge and competency in addressing the needs of these residents, there remains the expectation that the network of service providers will also be involved in treatment and support services, as appropriate.

Regional Collaboration and Communication

The NER along with our ME work closely with our community partners in all counties. This includes participation in county behavioral health consortiums and various advisory councils surrounding service array and delivery. SAMH staff work with contracted provider groups, Department of Juvenile Justice, Department of Corrections, Judiciary, School Systems, Child Welfare and Adult Protection, The State Hospitals, Law Enforcement, Local Hospitals and Private Providers including Crisis Units, Local Government and various consumer and family groups. The NER is committed to serving and supporting the needs of the community with as much interaction and involvement as possible.

Lutheran Services of Florida Health Systems has created strategies that align with both the Northeast Region and the State priorities to improve and monitor the current Behavioral Health System of Care. The NER Substance Abuse and Mental Health Program (SAMH) office meets with the ME twice monthly to address any contractual issues and then again to address any programmatic issues. The contract meeting includes discussion regarding any monitoring or audits of providers conducting by either the ME as a result of contracts or the NER SAMH office as a result of licensing or Baker Act Designation. The monthly program meeting agenda includes children's community mental health and community children in residential programs, forensics both adult and juvenile, state hospital placements, prevention, incident reports, integration with child welfare and adult protection and strategies surrounding supported housing and employment.

The NER SAMH Program office works in an advisory capacity whenever possible to all of our behavioral health providers and partners including consumers and their families. This includes working with providers on licensing issues and Baker Act designations. Staff serve on advisory councils whenever possible and engage in community forums as well as multi disciplinary staffing on difficult behavioral health cases. This is done in partnership with the Managing Entity due to limited staff availability and communication on process and progress on community involvement is discussed in biweekly staff meeting for the NER staff and in monthly meeting with the ME.

As we move forward in the coming years, it is the intention of the NER and the Managing Entity to continue this process of collaboration and communication with the entities mentioned and to continue growing the collaborative within the behavioral health community. Currently, we are working on relationships with Universities within our region to increase training and development of provider staff and community partners and ensure systems and programming within communities can be evaluated to provide the best possible outcomes for consumers and their families. The NER is also working with the current system of care to ensure community collaboration and full access to treatment as well as supportive services are available to the populations at the highest risk.

The NER and ME recognize that our current system of care is currently and has for some time spent the majority of funds on the crisis side of the behavioral health system. It is the plan in the NER to utilize any new dollars or cost saving to strengthen the front end of the system to enhance our prevention service through early identification of behavioral health issues and early interventions. This objective will be met through partnering with new grants or state dollars, eliminating shadow systems with other behavioral health funding systems and improved care coordination efforts.

Regional Budget

- 3a. A record of the total amount of money available in the district for mental health and substance abuse services.

\$71,650,901 – Based on FY 14/15 Funding for Northeast Region

- 3b. A description of each service that will be purchased with state funds.

The funds will be utilized to provide Adult and Children's Substance Abuse and Adult and Children's Mental Health based on the Covered Services identified in 65E-14.021.

- 3c. A record of the amount of money allocated for each service identified in the plan as being purchased with state funds.

See attached

- 3d. A record of the total funds allocated to each provider.

See attached

- 3e. A record of the total funds allocated to each provider by type of service to be purchased with state funds.

See attached

- 3f. Input from community-based persons, organizations, and agencies interested in substance abuse and mental health treatment services; local government entities that contribute funds to the public substance abuse and mental health treatment systems; and consumers of publicly funded substance abuse and mental health services, and their family members. The plan must describe the means by which local input occurred.

Develop a plan for needs assessment as the foundation for the development of programmatic and policy directives and for the allocation of resources to achieve strategic objectives. The needs assessment is to identify the treatment needs of children and adult with an identified mental illness or substance abuse in the Northeast Region with the input from local Stakeholders. This needs assessment will help reaffirm current priorities and discover new priorities as well as uncover strengths weaknesses and gaps in services.

- 4e. Include a summary budget request for the total district substance abuse and mental health program, which must include the funding priorities established by the district planning process.
- 4f. Provide a basis for the district legislative budget request.

Regional legislative budget request is based on different circumstances. It could be from current demand of needs for our existing population, involvement of local political leaders, stakeholders, community partners and network service providers that identifies specific need for their catchment area. Most legislative request are handled by the SAMH State Program Office.

- 4g. Include a policy and procedure for allocation of funds.

Policy: The Region coordinates with the Managing Entity to establish a process for the allocation of funds for contracted services.

Procedure: The following conditions are to be considered as basis for the allocation of funds.

- The Department and Managing Entity identifies area of need for services that are relevant for the population we serve.
- The Department and Managing Entity identifies covered services that are either being over-utilize or covered services provided beyond those that are budgeted.
- Procedure under which the allocation of funds will consist by reviewing allocation based on recommendation from Stakeholders.

- 4h. Include a procedure for securing local matching funds. Such a procedure shall be developed in consultation with governing bodies and service providers.

Local match are secured based on the requirement under Florida Administrative Code 65E-14.005. Local match submitted by the Managing Entity must be verifiable, allowable under Cost Principles and Audit Requirements for Federal Awards (also known as the “OMB Super Circular”)

- 4i. Provide for the most appropriate and economical use of all existing public and private agencies and personnel.

Use of all existing provider agencies and personnel is appropriate and economical because of the familiarity of current stakeholders, consumer needs and goals. Providers have invested trainings with their existing personnel to meet requirements for providing service to our consumers and community partners within our catchment area.

7. In developing the district plan, optimum use shall be made of any federal, state, and local funds that may be available for substance abuse and mental health service planning. However, the department must provide these services within legislative appropriations.

Regional Administrator Responsibilities

The Northeast Region Substance Abuse and Mental Health Program Office Regional Director monitors Lutheran Social Service Health Systems and Big Bend, our Managing Entities on a monthly basis for both contract compliance and program management through two different monthly meetings. The Regional Managing Director is updated on the Managing Entity at a quarterly meeting which covers both contractual issues and programmatic requirements including all required reports and plans. This includes fiscal reports and spending trends. The reports and plans are discussed in the budget section and attached to this report.

The NER SAMH office maintains responsibility for Substance Abuse Licensing and Baker Act Designation for both private and public behavioral health treatment and prevention facilities. We utilize our audits as an opportunity to review the services funded with state dollars as a means to spot check the Managing Entities audit results. The Managing Entities audits of contracted providers are also reviewed by program staff and contract manager. When possible staff will audit some providers simultaneously and utilize the ME audit tools to ensure the audit is sufficient to meet statutory requirements.

The NER conducts annual planning sessions with its contracted entities, including SAMH ME, both long and short term planning. These plans are updated and align with statewide plans provided from leadership in the statewide program offices and the Secretary. These plans are then vetted with community groups and partners and are posted on the NER public web site. In the event that concerns are noted from the community the issues are raised at quarterly community reviews. It is rare but if an issue is raised that cannot be decided at the community level it will be raised to the Secretary's level for discussion and resolution.

The Managing Entities act as the fiscal intermediary for behavioral health spending and although monitored by Department of Children and Families staff, they work with the community on spending plans. This is done once Department priorities are met as required in statute. This is rarely at odds as the plans are vetted with the community and funding issues are usually discussed at that time. New money that comes to the Region is usually distributed as a Request for Proposals (RFP) and the proposals are aligned with Regional needs and plans. The exception is when minimal dollars are available and it is more advantageous to add to a provider's budget that is already addressing a need in the Region. An employee of the Department SAMH office is part of the team that reviews RFP and participates in the scoring and selection process. The SAMH Regional Director then oversees implementation and maintains oversight of the program's success and assist in problem solving for any barriers to service.

In moving forward the NER will continue this process as moving from a crisis oriented system to one that anticipates and intervenes at the earliest stages of onset of behavioral health symptoms. As with any major change in culture the NER recognized that this will take some time to build. This process is done over time as the neediest in our system still must be attended to in a timely and effective manner. It is in no way the intention to ignore those in crisis or to provide fewer services than the community currently needs. As we plan for the future it is in concert with the State of Florida and the needs and voice of the communities we serve.

LSF Health Systems

2015-2016 Strategic Plan

Updated October, 2015

Our Vision	Every child, adult, and family has access to quality behavioral health care in the communities we serve.															
Our Mission	To ensure a quality behavioral health care network built on integrity, innovation and collaboration.															
Contracts and Funding	<p>LSFHS is the Managing Entity for the Department of Children and Families substance abuse and mental health funding for the 23-County Region of Northeast Florida, and has been since July of 2012. Our funding supports a broad array of services for indigent persons who lack insurance or the ability to pay. Our team of 30 highly trained experts is embedded in this community in a very real and purposeful way, bringing leadership and expertise to the conversation, and advancing new initiatives and innovations in the field of behavioral health.</p>

<p>Seven Core Managing Entity Functions</p>	<p><i>Development and Planning</i> - The Managing Entity shall develop and manage an integrated Network that promotes recovery and resiliency, and meets the Behavioral Health Service needs for the community. The Network shall be accessible and responsive to individuals, families, and community Stakeholders.</p> <p><i>Implementation</i> - The Managing Entity shall maintain a comprehensive Network that provides an adequate and reasonable array of services in terms of geographic distribution to meet the service needs of individuals without excessive time and travel requirements.</p> <p><i>Administration</i> - The Managing Entity shall collaborate with and accept input from Stakeholders to administer services. The Managing Entity shall ensure the administration of the Network includes the following programmatic standards: SIPP, Forensics, LMH-ALF, SOAR, Prevention, JITP, BNet, IDP, PPG, PATH, FACT, and TANF. The Managing Entity shall establish a quality management process and a fraud, waste and abuse prevention protocol.</p> <p><i>Monitoring</i> - The Managing Entity shall monitor Network Service Providers using a risk assessment approach in accordance with all applicable state and federal laws, rules and regulations.</p> <p><i>Data Collection Reporting and Analysis</i> – The Managing Entity shall develop and maintain a confidential, accurate data reporting system that includes all service related data.</p> <p><i>Fiscal Responsibility</i> - The Managing Entity shall ensure that it budgets and accounts for revenues and expenditures, and the Managing Entity’s financial management and accounting system must have the capability to generate financial reports detailing by fund source, individual recipient utilization, and cost, which, at a minimum, will meet federal requirements for the Block Grants</p> <p><i>Disaster Planning and Response</i> - The Managing Entity shall cooperate with the Department to develop a regional disaster plan that reflects the Managing Entity’s planned involvement with community based disaster management agencies.</p>
<p>Our Goals for 2015-2016</p>	<ul style="list-style-type: none"> ✓ <i>Integration of Systems</i> ✓ <i>Diversification of Funding Stream</i> ✓ <i>Increased Visibility</i>

Background and History

Scope of the Organization

LSF Health Systems is the Managing Entity for the Department of Children and Families Substance Abuse and Mental Health funding for the 23-County Region of Northeast Florida and has been since July of 2012. LSFHS is an LLC of Lutheran Services Florida, a statewide social services organization and non-profit 501(c)3 affiliated with the Lutheran Church. Lutheran Services Florida encompasses a wide variety of social service programs throughout the state and supports LSFHS with central office functions.

LSF Health Systems is governed by Florida Statute 394.9082, which establishes that “the responsibility for publicly financed behavioral health treatment and prevention services within a single private, nonprofit entity at the local level will promote improved access to care, promote service continuity, and provide for more efficient and effective delivery of substance abuse and mental health services”.

The objective of LSF Health Systems is to provide community based leadership to the behavioral health system through public-private partnerships, collaborative relationships, and management of a diverse and highly qualified network of service providers. It is our intention to be transparent stewards of the public trust through efficient and effective management of the state and federal funds appropriated for the treatment of one of Florida’s most vulnerable populations; those in need of substance abuse and mental health treatment services.

History of Assessing Need and Strategic Planning

Following the publication in February of 2013 of a Regional Needs Assessment conducted through a subcontract with WellFlorida Council, Inc., a local health planning council, LSFHS conducted an initial Strategic Planning process. This process resulted in the 2014-15 Strategic Plan.

2014-15 Strategic Plan Goals

1. LSF Health Systems will create a standardized, reliable and accurate data gathering system for all providers to utilize for data reporting.
2. LSF Health Systems will assist in the creation of standardized auditing procedures for providers with multiple regulatory requirements.
3. Maximize the utilization of existing funds allocated to LSF Health Systems for oversight of the substance abuse and mental health system of care in a 23-county area of Northeast and North Central Florida.
4. LSF Health Systems will strive to increase the participation of consumers in the substance abuse and mental health treatment system through increased access to care within the LSF Health Systems Network, while encouraging the delivery of these treatment services with Evidenced-Based, quality services that are culturally and linguistically competent.
5. LSF Health Systems will develop a comprehensive training and technical assistance program to assure a knowledgeable, skilled workforce is available within the Network.

6. LSF Health Systems will work to decrease stigma, so that citizens in Northeast and North Central Florida have a better understanding that mental health and absence from substance misuse is essential to overall health.

As these targets have been either been met or are no longer relevant for current operations, LSFHS embarked on a strategic planning process for the 15-16 fiscal year to identify new goals and strategies that address the changing face of our field.

A New Approach to Strategic Planning

In the fall of 2015, with a new Executive Director at the helm, LSFHS embarked upon a new strategic planning process. Much has changed in the landscape of Behavioral Health and specifically the State of Florida since the beginning of this contract in July of 2012. An increased threat to the existence of the Managing Entity model in Florida has by definition changed the approach to behavioral health management for indigent populations. The transfer of Medicaid and Medicare funding to managed care organizations has resulted in service delivery upheaval and system insecurities throughout the state. LSFHS recognizes that a new approach is warranted, one that incorporates an entrepreneurial focus. As a result of this assessment, in January of 2015, LSFHS conducted a retreat day of strategic planning with all staff and an outside consultant to guide the effort. From that session, several key areas of focus were identified as critical to the future success of the organization.

Strategic Objectives

- ✓ ***Integration of Systems***
- ✓ ***Diversification of Funding***
- ✓ ***Increased Visibility***

From these three broad areas, a list of subcategories was identified as individual strategies to achieve these goals within the next 12-18 months. The following outlines specific steps and deadlines for achievement each goal. Beginning in March of 2015, staff will operationalize this plan using the LSFHS project planning template to assign responsibility and track progress toward each goal. Each broad area identified above, once achieved, positions LSFHS to emerge from the current upheaval in the field as a leader, convener and key stakeholder in the field of behavioral healthcare.

Our Goals: 2015-16

Goal 1: Integration of Systems

Strategies:

1.1 More Effective Internal and External Meetings, More Effective Internal Communication

- 1.1.1 Appropriately allocate staff to community meetings in an efficient and effective way. Evaluate internal meetings to determine efficient use of resources and effective facilitation.
 - 1.1.1.1 By April 1, 2015 conduct an assessment of all internal and external meetings including attendees, purpose and action items. - Completed
 - 1.1.1.2 By May 1, 2015, make appropriate adjustments to internal and external meetings to increase efficiency and effectiveness. – Completed
- 1.1.2 Produce an internal ‘Bulletin’ on a periodic basis that includes all information relevant to the entire team.
 - 1.1.2.1 By April 1, 2015, develop a list of items relevant to all staff members to increase effective internal communication.
 - 1.1.2.2 By April 15, 2015, produce the first in a series of bi-weekly bulletins for internal publication to staff only.

1.2 Integration of Child Welfare and SAMH Systems

- 1.2.1 Establish regular, periodic meetings with SAMH CEOs and CBC CEOs. Develop strategic goals for this collaborative. Track progress toward goals on a quarterly basis.
 - 1.2.1.1 By March 1st 2015, convene an initial meeting with all SAMH CEOs and CBC CEOs. -Completed
 - 1.2.1.2 By June 1st 2015, convene a subsequent meeting and establish a calendar for regular quarterly meeting for this group. – Completed
 - 1.2.1.3 By December 1st, 2015, facilitate the development of joint strategic goals for system integration. Track progress toward goals on a periodic basis.
- 1.2.2 Increase the number of SIPP beds
 - 1.2.2.1 By September 30th 2015, identify the network service provider. - Completed
 - 1.2.2.2 By September 30th 2015, identify location of potential programs. - Completed
 - 1.2.2.3 By December 30th 2015, secure funding.
- 1.2.3 Increase in the number of group home beds
 - 1.2.3.1 By September 30th 2015, identify the network service provider. - Completed
 - 1.2.3.2 By September 30th 2015, identify location of potential programs. - Completed
 - 1.2.3.3 By December 30th 2015, secure funding.
- 1.2.4 Increase in the number of respite beds
 - 1.2.4.1 By September 30th 2015, identify the Network Service Provider – Completed
 - 1.2.4.2 By September 30th 2015, identify location of potential programs -Completed
 - 1.2.4.3 By December 30th, 2015, secure funding.
- 1.2.5 Improve and Standardize a process for data and information sharing among CBC/SAMH providers
 - 1.2.5.1 By January 31st, 2016, collaborate and implement a written protocol for enhanced information sharing among CBC/SAMH providers.
 - 1.2.5.2 By March 30th, 2016, develop and implement a standardized release of information.

- 1.2.6 Develop an inventory of CWI programs in the Region including FIS, FITT, FAST, etc. Update the inventory quarterly. Work toward standardization of the above programs throughout the Region.
 - 1.2.6.1 By April 1st, 2015, develop an inventory of SAMH CW programs within the Region. Publish this inventory both internally and externally. - Completed
 - 1.2.6.2 By May 1st, 2015, establish a mechanism for data analysis and tracking of performance metrics for SAMH CW programs. – Completed
 - 1.2.6.3 By December 1st, 2015, implement rapid safety feedback tool. Collect and analyze data, identifying trends and opportunities for improvement.
 - 1.2.6.4 By January 2016, distribute report with rapid safety feedback results.
 - 1.2.6.5 By February 2016, develop recommendations and a plan for process improvement for SAMH CW programs to include training for identified deficiencies.
- 1.2.7 Increase Competency of Child Welfare, CBC, Family Safety Staff
 - 1.2.7.1 By March 2016, provide MHFA training to all CPI staff.
 - 1.2.7.2 By June 1st 2016, LSFHS will offer MHFA/ YMHFA to CBC staff.
- 1.2.8 Resource Development and Community Engagement
 - 1.2.8.1 By June 2016, Planning and completion of at least one CW and SAMH community engagement summit in each circuit.
 - 1.2.8.2 By June 2016, Present at a statewide conference on Child Welfare Integration Practice.

1.3 Provider Network Integration

- 1.3.1 Responsible network management through administration of contracts and funding
 - 1.3.1.1 By May 31, 2016, have 95% of funds amended for those providers experiencing underutilization.
 - 1.3.1.2 By June 30, 2016, assess and evaluate currently available crisis services (crisis stabilization, substance abuse detoxification and crisis support/emergency staff hours) against the needs of the region to establish regulations on network service provider allocations to these intensive levels of care.
 - 1.3.1.3 By April 30, 2016, complete an analysis of the region-wide contracted rates for drop-in center services, relative to the change in unit structure to ensure responsible purchase of services for these programs.
- 1.3.2 Accountability through compliance, quality assurance, oversight and technical assistance
 - 1.3.2.1 By March 31, 2016, conduct training sessions regarding performance measure monitoring and compliance.
 - 1.3.2.2 By April 30th, 2016, conduct an analysis of performance measure compliance by to establish consequences for non-compliance by June 30, 2016.
 - 1.3.2.3 By June 30th, 2016, finalize Risk Assessment indicators for each provider agency.
- 1.3.3 Risk Mgmt Committee to assess and respond to areas of risk in the Provider Network
 - 1.3.3.1 By June 30, 2016, hold a minimum of three (3) standing Risk Management Committee meetings to evaluate potential risks across the network of provider agencies in the region.
 - 1.3.3.2 By April 30th, 2016, establish risk mitigation procedures and strategies for identified areas of concern throughout the network.

1.4 Data Integration

- 1.4.1 All contracted Network Service Providers submitting accurate data.
 - 1.4.1.1 By January 31, 2016, 45% of contracted provider agencies will submit accurate (error rate of less than 5%) data to the system by the end of the month for services rendered in the month prior.
 - 1.4.1.2 By June 30, 2016, 90% of contracted provider agencies will submit accurate (error rate of less than 5%) data to the system within 10 days of the new month, correcting errors within 3 days of notification.

- 1.4.2 Invoices will be generated by the system automatically using the data submitted.
 - 1.4.2.1 An analysis of the electronic data-driven invoice compared to the manual invoice will be collected monthly beginning in August of 2015.
 - 1.4.2.2 Provider agencies with discrepancies between electronic invoicing and manual invoicing will be notified on a monthly basis beginning in January of 2016.
 - 1.4.2.3 By June 30, 2016, 85% of all agency electronic invoices will be accurate as compared to the manual invoice for a minimum of two consecutive months.
- 1.4.3 Performance measures will be created and analyzed by each network service provider.
 - 1.4.3.1 By February 2016, at least 75% of provider agencies will submit evidence of an internal review of performance measures from the data system with action steps to improve any non-compliance areas.
 - 1.4.3.2 Beginning in September 2015, the Data Department in collaboration with the Network Management and Clinical Departments will review performance measures for network service provider agencies.
 - 1.4.3.3 Beginning in January 2016, a score card regarding performance measures will be publicized and disseminated as a joint effort between the data, network management and clinical departments.

1.5 Care Coordination

- 1.5.1 Develop a formal Community-Based Care Coordination to address high-need, high-utilizers of the system of care.
 - 1.5.1.1 By February 1, 2015, develop Care Coordination policies and procedures which include tracking of client outcomes. – Completed
 - 1.5.1.2 By April 1, 2015, develop a Care Coordination database for internal use and tracking of outcomes.- Completed
 - 1.5.1.3 By October 30, 2015 enroll high-utilizers of the SAMH system of care into care coordination
- 1.5.2 Demonstrate how the Community-Based Care Coordination system has improved the service delivery system and individual lives.
 - 1.5.2.1 By December, 2015, produce a monthly Community-Based Care Coordination report.
 - 1.5.2.2 By January 2016, report preliminary data on system impact in terms of both monetary saving as well as stories of individual transformation.
- 1.5.3 Develop a formal Child Welfare Care Coordination program to address high-need, high-utilizers of the system of care
 - 1.5.3.1 By November 2015, Interview and hire a Child Welfare Coordinator position to oversee care coordination team
 - 1.5.3.2 By June 2016 and ongoing, continual assessment of need for additional care coordinators
 - 1.5.3.3 By November 2015, enroll high-utilizers of the child welfare system into care coordination

1.6 Increased Consumer Involvement

- 1.6.1 Increase the level of involvement of consumers in the processes of the both the Managing Entity and the system of care in its broadest definition.
 - 1.6.1.1 By March 1st 2015, establish Consumer Advisory Committees in each service area of the Region.- Completed
 - 1.6.1.2 By April 1st 2015, establish formal policies and procedures for Consumer Advisory Committees. Include in these policies Consumer's Bill of Rights and definitions of roles and responsibilities, and a formal process

for Consumer feedback to be received by senior LSFHS staff on a regular basis. - Completed

1.6.1.3 By May 1st, produce a quarterly report on Ombudsman activities.- Completed

1.6.2 Develop a community-based model for Ombudsman activities.

1.6.2.1 By May 1st 2015, define community-specific topics for each advisory committee.- Completed

1.6.2.2 By June 1st 2015, develop a mechanism for empowering Consumer Advisory Committee members to practice self-advocacy on a local level.

1.6.3 Increase use of Peer Specialist in the System of Care

1.6.3.1 By June 2016 and ongoing, provide Peer Specialist Training at regular intervals throughout the region.

1.6.3.2 By June 2016 and ongoing, promote hiring of peer specialist throughout the system of care through regular meetings with network service providers.

Goal 2: Diversification of Funding

Strategies:

2.1 Diversification of Contract Funding

2.1.1 Diversity funding by securing additional state, federal and local grants that relate to improvement and enhancement of the system of care.

2.1.1.1 By February 1st 2015, hire a full-time Director of Development to focus on grant writing.- Completed

2.1.1.2 By April 1st 2015, develop formal internal grant writing policies and procedures.- Completed

2.1.1.3 By April 1st, develop a process for external requests for grant writing assistance. – Completed

2.1.1.4 By July 1st, secure at least one additional funding source. - Completed

2.2 Diversification of Income Sources Through Entrepreneurial Partnerships

2.2.1 Diversify funding through strategic partnerships with organizations that relate to the improvement and enhancement of the system of care.

2.2.1.1 By April 1st 2015, identify key partners that have the potential to increase the revenue base of LSFHS.- Completed

2.2.1.2 By December 1st 2015, develop a minimum of three potential project plans with identified partners that include an outside revenue source. - Completed

2.2.1.3 By June 30th 2016, secure at least one additional source of revenue as a result of the identified partnerships, grants or collaborative partnerships.

Goal 3: Increased Visibility

Strategies:

3.1 Legislative Advocacy on Behalf of the Needs of Behavioral Health Consumers

- 3.1.1 By August 1st 2015, develop a plan for regular visits to local elected officials by the Community Engagement staff to engage policymakers in addressing the Behavioral Health needs of the communities we serve.
- 3.1.2 By September 1st 2015, develop a one-page information sheet to distribute to elected officials and other key stakeholders outlining LSFHS initiatives and policy positions.
- 3.1.3 On an ongoing basis, engage in policy and legislative actions such as delegation meetings, committee hearings, and individual meetings to advance LSFHS policy positions.

3.2 Development of Marketing Materials and Activities

- 3.2.1 By April 1st 2015, develop an informational brochure for broad distribution to the general public.- Completed
- 3.2.2 By May 1st 2015, develop a promotional tri-fold board to be used at conferences, trainings and presentations to increase public awareness of our organization.- Completed
- 3.2.3 By May 1st 2015, develop an informational business card with the Access-to-Care line information for broad distribution. – Completed
- 3.2.4 By January 2016, enhance marketing materials by designing visibility sheets for each department outlining activities and outcomes.

3.3 Positioning LSFHS as the Leaders in Behavioral Health in the Region

- 3.3.1 Convene bi-monthly trainings on Behavioral Health for the Region.
 - 3.3.1.1 By April 1st 2015, meet with the training collaborative to plan for 6 trainings to be offered in the 15-16 fiscal year.- Completed
 - 3.3.1.2 By May 1st 2015, develop a primary focus for each training.- Completed
 - 3.3.1.3 By June 1st 2015, secure dates and locations for the trainings.- Completed
 - 3.3.1.4 No later than the spring of 2015, conduct the initial training. – Completed
- 3.3.2 Publish an LSFHS annual report.
 - 3.3.2.1 By March 1st 2015, develop a draft outline of the report contents.- Completed
 - 3.3.2.2 By December 2015, develop a cost estimate to produce the report.
 - 3.3.2.3 By February 2016, explore potential for outside funding to produce the report.
 - 3.3.2.4 By April 2016, complete layout, graphics, and draft narrative portions of the report.
 - 3.3.2.5 By May 2016, finalize the data portions of the report.
 - 3.3.2.6 By June 2016, publish the report.
- 3.3.3 Develop a Training Institute for the Region to focus on increasing the use of Evidence-Based Practices.
 - 3.3.3.1 By March 1st 2015, conduct an internal meeting to determine priorities and focus of the Institute. - Completed
 - 3.3.3.2 By March 1st 2015, convene a meeting of the Regional trainer's collaborative for input into the design and priorities of the institute.- Completed
 - 3.3.3.3 By May 1st 2015, completion of annual training curriculum and Continuing Education Units.- Completed

3.3.3.4 By June 2016, completion of the Training Institute website.

3.3.4 JCCI Mental Health Study Implementation

3.3.4.1 By March 1st, 2015, LSFHS staff will be represented on all subcommittees of the JCCI Mental Health Study Implementation process.- Completed

3.3.4.2 By July 1st, 2015, LSFHS will have substantially contributed to both the content and the direction of the implementation of the Study through their participation and facilitation of these meetings.- Completed

3.3.4.3 By June 2016 and ongoing, LSFHS will continue participation as deemed appropriate by the VP of SAMH throughout implementation phase.

3.3.5 Successful Audit and Monitoring Reports with an Absence of Findings

3.3.5.1 By the end of fiscal year 15-16, LSFHS will have successful audits for all external and internal entities.

3.3.6 Media Relations

3.3.6.1 By January 2016, Develop relationships with key media personnel

3.3.6.2 By April 2016, Have a presence in all media outlets

3.3.6.3 By June 2016, Present at local, state, and national conferences on issues surrounding behavioral health.

Central Region
Circuits 5, 9, 10 and 18
Substance Abuse and Mental Health Program

1. Organizational Description	Profile/Program
--	------------------------

a) Location and Counties Served

The Central Substance Abuse and Mental Health (SAMH) Region consists of (12) counties and encompass Circuits 5, 9, 10, and 18. The Central Region includes the following urban and rural counties: Citrus, Hernando, Lake, Marion, Sumter (Circuit 5), Orange and Osceola, (Circuit 9) Hardy, Highlands, Polk, (Circuit 10) and Brevard and Seminole (Circuit 18). The Central Region SAMH Program Office strongly believes and supports the department's mission to in partnership with local communities to protect the vulnerable, promote strong and economically self-sufficient families, and advance personal and family recovery and resiliency.

Currently, in Circuits 9 and 18, pursuant to section 394.9082, F.S (Senate Bill 1258), the Central Region's SAMH Program Office, as the SAMH Authority, contracts with Central Florida Cares Health System effective July 1st, 2012 to administer 62 million dollars in funds and services, to manage the SAMH system of care. The contract requires CFHCS as the Managing Entity to subcontract with qualified, community-based network agencies that provide services for adults and children with behavioral health issues and to improve timely access to cost-effective services by implementing a robust Utilization Management System.

Circuit 9, Orange and Osceola counties and Circuit 18, Brevard and Seminole counties geographic area population is 2,470,837. These four counties comprise a high volume of individuals from a variety of cultures with severe mental illnesses, substance use and co-occurring disorders, as well as a high rate of homelessness, Human Trafficking, and incarceration.

In addition, the Central Region is also served by Central Florida Behavioral Health Network (CFBHN) Inc., which serve three (3) counties in Circuit 10; Hardee, Highlands and Polk and Lutheran Services Florida Health System (LSFHS) which serve five (5) counties; Citrus, Hernando, Lake, Marion and Sumter. CFBHN and LSFHS don not have contract oversight by the Central Region SAMH Program Office.

b) Staffing (OPS and FTE's)

The chart below outlines the Central Region Substance Abuse and Mental Health (SAMH) Program Office staffing as of October 1, 2015. The Region's SAMH Program Office continues to perform Substance Abuse Licensure regulatory activities as well as Public and Private Baker Act receiving facilities monitoring and designation activities. The Region's SAMH Program Office provides contractual, policy and system of care oversight to CFCHS (ME).

CENTRAL REGION SAMH PROGRAM OFFICE STAFFING

Programs	FTE	Vacant FTE	Vacant OPS
Substance Abuse	4	0	0
Mental Health	6	0	0
Total	10	0	0

c) Types of Services Provided and Number's Served

The Central Region SAMH Program Office works collaboratively with the Managing Entity in the community to secure the needed services for our consumers. The SAMH Program Office, in conjunction with CFCHS, is dedicated to develop a comprehensive system of care which includes substance abuse and mental health services for adults and children, as well as prevention, emergency/detoxification, and treatment services for individuals and families at risk of/or affected by substance use disorders, mental health issues, and/or co-occurring disorders.

Central Region Clients served by CFCHS FY 2014-2015 Circuits 9 and 18	
Adult Mental Health	19,392
Children Mental Health	2,721
Adult Substance Abuse	11,949
Children Substance	4,637
Total Served:	38,699

Types of contracted CFCHS services for Central Region	
Mental Health	Substance Abuse
Emergency Stabilization	Prevention Services
Residential Care	Outreach Services
Intensive Case Management	Outpatient Intensive Treatment
Outpatient Services	Outpatient Treatment
Community Support	Case Management Services
Medication Management	Residential Level 1,2,3,4 Services
Adult Foster homes	Detoxification
Florida Assertive Community Treatment Team (FACT) Services	Addiction Receiving Facility (ARF)
Juvenile Incompetent to Proceed (JITP)	Integration of Services Unit (ARF/CSU)
Mental Health Club Houses	Priority Access to Treatment for Pregnant Women
Adult Community Competency Restoration Services	Waitlist Management for Infection Drug Users and Pregnant Women
Care Coordination for High Need SAMH Population	Compliance with charitable choice provisions
Statewide Inpatient Psychiatric Program (SIPP) Coordination	Prevention Partnership Grant (PPG)
Integration of Services Unit (ARF/CSU)	Aftercare Services
Peer Specialists	Assessment Services
Incidental Expenses	Day/Night Treatment Services
Short-Term Residential Treatment (SRT)	Family Intensive Treatment Team (FITT)
Program Assistance to end Homelessness PATH	Family Intervention Specialists (FIS)
Respite Services	Treatment Alternatives for Safer Communities (TASC)

Furthermore, the SAMH Program Office, in collaboration with CFCHS, has established a diverse array of evidence-based practices aimed at addressing the multiple and changing needs of consumers. Some of the evidence-based practices utilized throughout the system includes: SSI/SSDI Outreach Access and recovery (SOAR), Wellness Recovery Action Plan (WRAP), Limited Mental Health Licensed Facilities Training for Assisted Living Facilities (ALF), Mental Health First Aid Training (MHFA), and Network Management Plan (NMP).

The implementation towards evidence-based practices (EBP) has been part of a strategic move to maximize SAMH dollars by providing the highest quality and most effective care.

The Central Region has been challenged by budget reductions which have limited the ME's ability to further expand the array of evidence-based practices. The Region's use of EBP has resulted in a move from more restricted levels of care to less restrictive levels of care.

Central Region Substance Abuse Licensed Providers

CIRCUIT	COUNTIES	TOTAL NUMBERS OF PROVIDERS	TOTAL NUMBERS OF LICENSES
5	CITRUS, HERNANDO, LAKE, MARION, SUMTER	31	76
9	ORANGE, OSCEOLA	32	126
10	HARDEE, HIGHLANDS, POLK	35	130

18	BREVARD, SEMINOLE		2	1	2
TOTAL		10	12	11	15

Local Partnerships and Stakeholder Input

The Central Region SAMH, CFCHS, LSFHS and CFBHN participate in various community collaborations with stakeholders in Circuits 5, 9, 10 and 18 including county government, school systems, provider agencies, law enforcement, public defenders, state attorneys,

hospitals, the Agency for Health Care Administration (AHCA), Agency for Persons with Disabilities (APD), Vocational Rehabilitation (VR) the Department of Juvenile Justice (DJJ), consumers of services and local advocates.

Child-welfare and Substance Abuse and Mental Health (SAMH) Integration:

The Central Region SAMH Program Office recognizes the significance of research and at the center of social challenges lies the generational roots of Substance Abuse and Mental Health issues. As a result, our internal culture and dialogue now encompasses the engagement of the SAMH expertise in collaboration with the Managing Entities and stakeholders in systemic analyses, planning, and community engagement.

The Central Region SAMH Program Office has developed unique positions entitled, Substance Abuse and Mental Health Integration Specialists (SAMHIS) that will be assign to each of the twelve (12) counties to work in collaboration with DCF protective investigators on processing complex and challenging mental health and substance abuse cases. These professionals will assist in the processing of complex cases, the alignment of the prescriptive services to mitigate and remediate familial issues, assist in the referral process and follow-up with engagement in services while monitoring compliance and progress made.

Although these positions are funded through Title IV-E and may not be recurrent, the Central Region SAMH Program Office has taken to its core initiative the philosophy of integrating within our own organization ways to leverage system wide resources across all internal lines to include but not limited to: Family Safety, Economic Self Sufficient, Child Care Regulation and Community Relations as a model for the community at large that “integration” starts at home. The intent is to provide guidance, resources and a more effective approach at aligning prescriptive services to at-risk families with a sense of urgency. We anticipate these new players in our SAMH Regional Team will contribute to our Family Safety support system’s effort to serve families more effectively.

Task Force, Coalitions and providers meetings:

- Orlando’s Heroin Task Force and its Treatment Intervention sub-committee is co-chaired by the Central Region SAMH Program Administrator. The objective is to increase awareness, promote education and built networks that will work together leveraging existing resources while assessing the gaps in services in order to give critical feedback to CFCHS (ME), the Department and its contracted providers to include the Community Base Care (CBC) organizations.
- The City of Life’s Community Action Team: Collaboration of DCF, CBC, DJJ, providers and consumers focused on paving a better path to services for youth aging out of the child welfare system. This “think-tank” has numerous innovative ideas of resourcing this subpopulation with web-based application that will not

only educate but empower them towards wellness and sustainability. The City of Life is a volunteer group that doesn't hesitate to "roll-up" its sleeves to problem solve social issues to include the threat of vulnerability to drug and alcohol on the streets and how children aging out of the system continue to be easy prey.

- Circuits 5,9,10 and 18 SAMH Summits – Summits have been deployed through each of the four (4) Circuits in concert with the three managing entities serving the SAMH Central Region; CFCHS, LSFHS, CFBHN promoting both the structure and function of the SAMH System of Care. It was a great opportunity to familiarize stakeholders with the roles of the MEs and the department while providing dialogue relevant to the challenges faced by the providers and consumers in this evolving managed care era. The summits were so successful that we have been asked to follow up with local efforts "drilling" down on systemic barriers to facilitate changes to better access services and address funding issues.
- Tri-sect Central Florida Commission's Committee on Family Homelessness
- Orange County Children Cabinet; Advocacy for children and family support services to meet needs. This multi-agency initiative continually updates stakeholders on policy, practice and community changes and development.
- Orange County Youth Mental Health Commission; A task Force to assess youth Mental Health needs and promote collaborations towards meeting those needs.
- Treatment Work Group of the CSEC/DMST Greater Orlando Human Trafficking Task Force; A treatment workgroup that has been formed for the Greater Orlando Human Trafficking Task Force to assess existing national programs for intervention with victims of human trafficking. Group goals, reviewing existing treatment modality for victims of human trafficking; making recommendations based on previous reviews, including determination on how to train Mental Health practitioners to treat the Mental Health population.
- Seminole Prevention Coalition; Unites local organizations, agencies, business and individuals for the achievement of the common goal for a safer and healthier community through the prevention of Substance Abuse.
- Homeless Coalition-Lutheran Services Florida Health System (LSFHS); is currently part of the Coalition in Circuit (5). LSFHS is represented on the Board of Governance for the Mid Florida Homeless Coalition. LSFHS will ultimately have a seat on the Board of Governance for their Continuum of Care (CoC) agencies in Circuit 5. Staff makes regular visits to the PATH providing agencies. LSFHS is developing an incorporated document for PATH providers that integrates input from local CoC agencies. These efforts will be enhanced by the new Housing Initiative being developed by LSFHS for the Circuit.

- (FIS) stakeholders to ensure Region Plan has been implemented and to discuss successes, barriers and possible modifications to the plan.
- Champion Staffing for Common Children for Circuit (9); Monthly meetings held between multiple agencies to reach a resolution on case specific issues and reach a consensus on sharing. Group works towards reaching a positive outcome locally to prevent the need to refer the case to the local review team for their review.
- DCF System of Care Meetings provides updates from SAMH, Managing Entities, CBC Administrators and DCF Administrators, and reviews DCF score cards.
- Partners in Crisis provide Advocacy for Mental Health and substance abuse services.
- CFCHS Town Hall Meetings facilitate community meetings to provide updates on CFCHS operations.
- Brevard Youth Substance Abuse Prevention's coalition meeting review strategic plan and coordinate events.
- CFCHS Quarterly Provides Network Meetings to discuss system of care issues and develop processes/action to address issues.

Management Entity Implementation: The Central Region contracted with Central Florida Cares Health System (CFHCS) on July 1, 2012, to administer substance abuse and mental health funds and services. The managing entity structure is expected to increase access to care, improve coordination and continuity of care, and redirect service dollars from restrictive care settings to more community-based recovery services.

a. Procurement

The Managing Entity developed and implemented a plan for competitive procurement of all substance abuse and mental health services; bringing anticipated cost savings and improved quality of care.

b. Service Provision/Scope of Service

The following are the ten core functions of the CFHCS Managing Entity services in Circuits 9 and 18.

Function 1.

System of Care Development and Maintenance: CFHCS has developed and managed substance abuse and mental health services into an integrated network of services that are accessible and responsive to individuals in need of such services, along with their families and community Stakeholders.

Function 2.

Utilization Management: Utilization Management plan is including methods to reduce, manage, and eliminate waitlists, promote co-occurring services, and ensure appropriate access to substance abuse and mental health crisis intervention, support and stabilization across the life-span.

Function 3.

Network/Subcontract Management: CFHCS is managing the Subcontractor network, at a minimum, through the following means: enforcement and monitoring of access standards and management of the system of care, web registration, subcontractor performance monitoring, background screening verification, onsite annual audits and evaluation of all new subcontractors prior to service delivery.

Function 4.

Continuous Quality Improvement: CFHCS is maintaining a Continuous Quality Improvement (CQI) program which include use of outcomes for individuals served, Stakeholder satisfaction data, complaint tracking and resolution, as well as the level of staff commitment for this function. This program is following a system approach to reporting, analyzing, and tracking critical incidents related to individuals served, community Stakeholder, employees, and family and consumer groups.

Function 5.

Technical Assistance/Training: CFHCS has developed and implemented a plan for technical assistance and training, including using the relationship between emerging trends in the behavioral health field, monitoring finding, training, clinical supervision, and the CQI program.

Function 6.

Data Collection, Reporting and Analysis: CFHCS implemented the performance measure and data collection improvement plans developed by CFHCS and approved by the Department. These plans describe improvements for performance measurement and the data collection system based on state performance and outcome measures and the federally- mandated National Outcome Measures and describe approaches to future integration of appropriate data among SAMHIS data systems operated by the Department.

Function 7.

Financial Management: CFHCS continues to monitor sound fiscal stability of its Subcontractors and ensure revenues and expenditures are budgeted and accounted for in state-designated cost centers for substance abuse and mental health services.

Function 8.

Planning: CFHCS is working with the Department to provide performance, utilization and assessment of the System of Care, and other network information for the

Department's Substance Abuse and Mental Health Services Plan, and annual update thereof, and to provide appropriate information for the Department's Long Range Program Plan and its Annual Business plan.

Function 9.

Board Development and Governance: CFHCS is maintaining a strong organization and governance structure, with clear lines of authority across all levels of the service network to the county level.

Function 10.

Disaster Planning and Responsiveness: CFHCS is working collaboratively with the Department for disaster planning and preparation to develop a regional disaster plan that reflects the Managing Entity's planned involvement with community based disaster plans.

3. Conclusion

The Central Region SAMH Program Office will continue to work with CFHCS to ensure that cost savings, due to decreased administrative rates through utilization management, will be used to continually improve and expand services in our area. This, along with continuous quality improvement, will increase the capacity for our system of care and improve outcomes for clients and their families.

Central Florida Cares Health System (CFHCS) Funding/Budget FY 2015-2016

Administrative Costs				
Managing Entity Administrative Costs	MHS00	153,785	2,141,526	2,295,311

Community Action Teams (CAT):

Community Action Teams (CAT) were implemented through the General Appropriations Act proviso project (GAA) on July 2013. We, in the Central Region, hold true to the fidelity of the CAT model that utilizes a “team” approach that “wraps around” the youth and family resources to address any concerns and issues. CAT programs meet state wide monthly to discuss occurring issues and new implementations that may work or have worked in other services locations.

COMMUNITY ACTION TEAM (CAT) FUNDING FOR FY 2015-2016		
COUNTY	FISCAL YEAR	FUNDING
Brevard	2014-2016	\$1,500,000.00
Hardee, Highlands, Polk	2014-2016	\$1,500,000.00
Lake, Sumter	2014-2016	\$1,500,000.00
Orange	2014-2016	\$1,500,000.00

Merging of three (3) Central Region Behavioral Healthcare providers:

Three Behavioral Healthcare providers, Lakeside Behavioral Healthcare, The Center for Drug Free Living and Seminole Behavioral Healthcare merged into one organization. This collaboration’s intent was to create a more effective and efficient system of care designed to increase client and community access to services while removing obstacles to getting help. The new provider’s name is Aspire Health Partners, Inc., the merge was effective July 1st, 2014. Aspire Health Partners have approximately

1,500 employees providing programs and services in Orange, Seminole, Osceola and Brevard counties including the recently licensed (March 2015) Integration of Services Unit (ARF/CSU) the first ISU in the Central Region providing Detoxification and Crisis Stabilization to individuals with co-occurring disorders.

Future plans and goals for the Central Region’s Substance Abuse and Mental Health (SAMH) Program Office:

The Central Region’s SAMH Program Office, in collaboration with the Regional Executive Leadership, team had been working in concert towards re-establishing an “integrated culture” followed by an integrated working model that engages and empowers both internal stakeholders (Substance Abuse and Mental Health, Family Safety, Economic Self Sufficiency personnel, etc.) and external stakeholders (Managing Entities, Community Based Care agencies, providers, schools, Department of Juvenile Justice, Department of

Health, Agency for Health Care Administration, Agency for Persons with Disabilities, etc.) towards cross-discipline communication, engagement and problem solving practices.

We acknowledge that through relationship building, shared expectations and a relentless demand for all parties' receptivity to an integrated culture for the greater good of our mission. The Central Region SAMH Program Office is further investing in the marketing, recruitment, training and support of a newly introduced workforce referred to as Substance Abuse and Mental Health Integration Specialists (SAMHIS). Prior to the end of this calendar year we plan to have one SAMHIS per county, assigned to colocate with our Family Safety personnel, focused on providing support, case and process analysis, and navigational guidance to our child protective investigations on complex and/or high risk cases.

Quality Assurance programs' major focus is to assure that organizations adhere to standards to ensure a continuous and systematic evaluation of services. Through development of standards with measurable goals, documenting policies and procedures, staff training and review of data associated with standards, the quality assurance program acts as a system of "checks and balances".

The Central Region SAMH Program Office is in the process of developing a Quality Assurance Program model to assist with the obligations and responsibilities of providing oversight, monitoring and technical assistance to the following existing contracts: Central Florida Cares Health System Managing Entity, Community Action Teams (CAT), Orange County Central Receiving Center (CRC), Circuit 9 Public Defender Memorandum of Agreement, Human Trafficking and Mental Health Integration. In addition, the SAMH QA Program will ensure that goals and processes are current and match SAMH's direction and standards and are in support of the department's mission.

The Central Region SAMH Program Office in collaboration with our Managing Entities has begun a focus on providing education and awareness to the community at large to include judges, public defenders, the state attorneys, forensic evaluators, etc., in their determination for the diversion from commitment of individuals who have non-violent charges and have the ability to be stabilized and sustained within their communities while receiving necessary treatment with an emphasis on restoring competencies. The SAMH Office will work with the MEs on funding challenges in pursuit of expanding capacity for necessary resources to this subpopulation to include the much needed supportive housing.

SunCoast Region SAMH Services Plan: District (Regional) Plan

Regional SAMH System of Care

The SunCoast Regions' service area includes eleven (11) counties in central and southwest Florida. The Region includes Circuits 6, 12, 13, and 20. The Region includes the urban and rural counties of Hillsborough, Pinellas, Pasco, Manatee, Sarasota, DeSoto, Collier, Lee, Charlotte, Hendry and Glades. The SunCoast Region's Substance Abuse and Mental Health (SAMH) Program Office works to promote and embody the Department's Mission, Vision, Values and Core Competencies. The SAMH team works in partnership with local communities to protect the vulnerable, promote strong and economically self-sufficient families, and advance personal and family recovery and resiliency.

The SunCoast SAMH Program Office, as the SAMH Authority, has contracted with Central Florida Behavioral Health Network, Inc., (CFBHN) as its Managing Entity since July 2010. CFBHN is currently contracted to manage the Region's substance abuse and mental health funded services. CFBHN is required by contract to manage the Region's system of care to improve timely access to cost-effective services by implementing a robust Utilization Management system.

The Region's SAMH Program Office continues to perform substance licensure activities as well as Baker Act monitoring and designation activities. The Region's SAMH Program Office has two (2) grant funded OPS staff that perform grant specific activities related to the System of Care and Linking Actions for Unmet Needs in Children's Health (LAUNCH) grants. The Region's SAMH Program Office provides contractual, policy and system of care oversight to its Managing Entity.

Numbers of Employees

Program	FTE	Grant Funded OPS	Vacant
Substance Abuse	4	1	0
Mental Health	4	1	0
Total	8		

Mental Health

The Adult Mental Health service system provides an array of Evidence-Based services that includes 12 FACT teams, nine (9) Supported Housing Programs, six (6) Supported Employment Programs, and two (2) Clubhouses. Emerging Practices such as Peer Supported Crisis Respite and Self-Directed Care are utilized in the Region as well. The Region's Children's Mental Health system includes in-home services, case management, individual and family counseling, Therapeutic Group Homes and the Statewide Inpatient Psychiatric Program (SIPP).

A five year SAMHSA grant was awarded to the SunCoast Region through the Now Is The Time: Healthy Transitions initiative to work with youth and young adults between

the ages of 16-25, who are at-risk or previously diagnosed with a serious mental illness or co-occurring.

The Suncoast Region, Circuit 6 was awarded the SAMHSA Children's Mental Health System of Care Expansion Implementation Grant. The grant awarded totaling \$1,312,584.00 covers the grant period 2012-2016. The goal of the grant is to expand and sustain a system of care that is family driven, youth guided, community based and culturally linguistically competent. Florida Children's Mental Health System of Care expansion is implementing the system of care framework into its statewide mental health service delivery network.

The System of Care is a framework for system change. The System of Care is a coordinated network of community based services and supports that are organized to meet the unique challenges of children and youth with serious mental health needs and their families. Families and youth work in partnership with public and private organizations to design mental health services and supports that are effective, that build on the strengths of individuals and that address each person's cultural and linguistic needs. The System of Care helps children, youth and families function better at home, in school, in the community and throughout life.

The grants target population for Circuit 6 is youth ages 10-16 residing or receiving mental health/substance abuse services in Pasco or Pinellas counties. The key focus areas for the grant involve the implementation/integration of the system of care principals, which are as follows:

- Access to a broad flexible array of services and supports
- Individualized services/Strength-based focus
- Services provided in the least restrictive/normative setting
- Families, youth, caregivers are full partners in planning and service delivery
- Cross-System Collaboration
- Services are delivered in a coordinated and therapeutic manner
- Developmentally appropriate mental health services and supports
- Facilitate the transition of youth to adulthood
- Early identification and intervention/Prevention
- Continuous accountability and quality improvement to track achievement of goals
- Protect the rights of children and families – Advocacy
- Services are culturally and linguistically competent

Central to the work of the system is engagement of family and youth involvement in all aspects of the planning and service delivery process; the integration of the Wraparound evidenced-based service delivery process model; the integration of cultural and linguistic competencies into the individual, organizational and system-wide service delivery processes.

Substance Abuse

The substance abuse services provided range from the Inpatient Detoxification to Recovery Support services. There are three Family Intensive Treatment teams located in the SunCoast Region as well as Pregnant/Post-partum Women's program and outpatient services.

Consumer's needs are considered when identifying the service/funding needs of each community. Feedback is obtained from clients, family members, and providers through client needs assessment surveys, as well as feedback from the National Alliance on Mental Illness (NAMI), community alliance, local consortia, and regional council meeting attendees. Services are evaluated utilizing annual consumer satisfaction surveys, utilization reports, and feedback from providers and community stakeholders. Services are reviewed on an ongoing basis to ensure continued effectiveness. If it is determined that a service is no longer effective or needed by the community, strategies to strengthen the service or implement alternative programming are discussed.

The federal block grant regulations define priority populations for substance abuse services as women who are pregnant and/or IV drug users. Those requesting services that fit the requirements of a priority population are to be given preference for admission. The specific hierarchy is:

1. Pregnant women
2. Women with dependent children
3. Intravenous drug users
 - a. Intravenous drug users are defined as those individuals who are seeking treatment for IV drug use even if the last use indicates that the individual may not need detoxification services. (Example someone released from jail seeking services.)
4. Persons who are living with HIV or AIDS
5. The SunCoast Region has also established an additional priority group, which consists of parents/caregivers and children who are involved with the child welfare system and have substance use disorders.

These populations include individuals awaiting transfer to the state treatment facility, in-jail services and diversion from the criminal justice system, BNet, Florida Assertive Community Treatment (FACT) services, Juveniles Incompetent to Proceed (JITP), and Statewide Intensive Psychiatric Programs (SIPP).

The Department was awarded a Project Linking Actions for Unmet Needs in Children's Health (LAUNCH) Grant in October 2012. This initiative will build on the existing use and experience of the Screening, Brief Intervention, and Referral to Treatment (SBIRT) Program. Project LAUNCH is a partnership between SAMH and primary care to prevent mental health and substance use issues in children of parents abusing prescription drugs. Primary care and behavioral health treatment will be coordinated through

interagency agreements and fidelity to the SBIRT model will be ensured through training and quality improvement clinical reviews.

Project LAUNCH is focused on five high risk zip codes in Pinellas County. Goals of the initiative include encouraging local innovation by the Lealman Corridor Young Child Wellness Council. The council and grantees are working to integrate local and state initiatives to reduce the duplication of services and maximize resources. The initiative focuses on promoting a healthy childhood in a nurturing environment. Families are being empowered to lead service transformation. The 5 core strategies are as follows: Behavioral Health Integration in Primary Care, Mental Health Consultation in Early Care and Education, Enhanced Home Visiting, Family Strengthening, and improved Screening and Assessment for Children and Parents.

Consumer & Stakeholder Feedback

The Region office and Managing Entity take into account the needs of the consumers when identifying the service/funding needs of each community. Feedback is obtained from clients, family members, and providers through client needs assessment surveys, as well as feedback from NAMI, community alliance, local consortia and regional council meeting attendees. Services are evaluated utilizing annual consumer satisfaction surveys, utilization reports, and feedback from providers and community stakeholders. Services are reviewed on an ongoing basis to ensure continued effectiveness. If it is determined that a service is no longer effective or needed by the community, strategies to strengthen the service or implement alternative programming are discussed.

Community Managers

To ensure that the Managing Entity is aware of the current needs and issues of the community, CFBHN employs two Community Managers within each of the four circuits within the Suncoast Region. Community Managers continuously work with the local behavioral health service providers, coalitions and councils to increase CFBHN's knowledge of gaps and issues within the system of care. The Community Managers also ensure the providers and consortiums are aware of any upcoming/pending changes in services, legislation, or funding. Any information obtained by the Community Managers regarding lack of resources or access to care is then further discussed with the providers and constituents. Information received may also be substantiated through the use of consumer/provider feedback surveys, gap analysis and focus groups. The ultimate goal of this process is to expand the array of available services and ensure that services meet the needs of the communities being served. The information is then used to manage equity of funds and services through funding reallocations (when needed), increasing service providers, and leveraging alternative community resources.

Care Coordination

CFBHN encourages the providers to work with their consumers to complete a release of information to allow outreach to and/or case staffing with all involved providers in client care, including: medical, mental health, substance abuse, case management as well as any other providers identified by the individual. In addition to releases for other providers, consumers are also encouraged to identify natural supports (family, friends) for the purposes of education, care planning, and establishing supports for their treatment.

**Care Coordination Overall Long Range Goal:
To Increase the Quality of Care and Maximize Resources**

Goals	Objectives	Strategies
1. Continue to enhance the process to coordinate appropriate care for individuals who have high needs and/or high utilization of services in the acute and residential I and 2 levels of care.	a. Implement enhanced processes throughout the subcontractor network	<ul style="list-style-type: none"> • Engage CC committee to review/update/implement and monitor HN/HU process. • Work with IT to further refine needs for HN/HU process. • Monitor through quarterly analysis of data regarding re-admissions with the CC and QI Oversight Committees.
2. Manage the utilization of acute, residential care and state hospital admissions and discharges.	b. Reduce acute care, residential care and state hospitals readmissions. c. Develop alternative services in the community to support diversion from acute care, residential care and state hospital.	<ul style="list-style-type: none"> • Track, trend and report utilization data quarterly, including numbers served, length of stay and re-admissions for care coordination. • CC Committee meetings at least bi-monthly for a minimum of 5 times a year. • Maintain communication on care coordination through IHSIS. • Care Managers will work with agencies in order to link high cost individuals to more appropriate services, to decrease cost, while supporting enhanced personal social community functioning. • Utilize the CFBHN State Mental Health Treatment Facility Bed Utilization Plan • To review for treatment appointments within 7 days after discharge from acute and residential care so as to decrease readmissions.

<p>3. Reduce, manage and eliminate waitlist.</p>	<p>a. Review discharge planning documentation and treatment planning.</p> <p>b. Treatment planning.</p> <p>c. Enhancement and use of quality measures.</p>	<ul style="list-style-type: none"> • CC committee meets at least bi-monthly. • Care Managers will review and follow-up on active wait list reports weekly and provide reports to the CC and QI Oversight committees on a quarterly basis. • Review trends. • Link individuals to the appropriate level of care at the right frequency, time and duration. • To review for treatment appointments within 7 days after discharge from acute and residential care so as to decrease readmissions.
--	--	---

Civil and Forensic Diversion

Continuity of client care between state treatment facilities and community programs is a priority in the SunCoast Region. A Civil State Hospital liaison at the Managing Entity works with the community providers and the State Treatment Facility to identify financial discharge barriers and utilizes Transitional Funds to aid in the timely discharge of an individual so as to not unnecessarily lengthen the individuals' length of stay at the state treatment facility. The Managing Entity Civil State Hospital liaison and applicable providers from the SunCoast Region participate in a monthly call with State Treatment Facility staff to discuss individuals who are ready for discharge. Planning and problem solving are topics of discussion as plans unfold for the individual to transition back to their community. Appropriate length of stay is always a consideration when discussing and planning with the person served. Expedited discharge occurs when possible and best suited for the individual and agreed to by the person served. Upon discharge the team works together on the engagement of available social supports to address identified basic needs for resources such as applying for insurance/disability, housing, food, and work programs.

State Mental Health Treatment Facilities provide services to individuals who meet the admission criteria set forth in either Chapter 394, F.S. (relating to civil commitment) or Chapter 916, F.S. (relating to forensic commitment). These services include the most restrictive and intensive level of care available for individuals age 18 and older, and for juveniles adjudicated as adults and committed to a state mental health treatment facility. Services include psychiatric assessment, treatment with psychotropic medication, health care services, individual and group therapy, individualized service planning, competency restoration assessment and training, vocational, and educational services, addiction services, and rehabilitation therapy and enrichment activities.

A forensic diversion program is currently operating in Hillsborough County through Gracepoint. This program diverts persons who have been adjudicated under Chapter

916, F.S., from admission to a forensic state hospital. This member project is a residential program that has 20 beds. This program is designed to decrease the use of forensic state hospital beds for residents in the Region and also allow for increased continuity of care and reduced recidivism.

Assisted Living Facilities (ALF) with Limited Mental Health Licenses (ALF-LMHL) are also a part of the housing continuum providing the least restrictive environments for adults living with mental illnesses. The Managing Entity submits an annual plan to the local SAMH Program Office for ensuring service delivery to residents in ALF-LMHLs who have a mental illness. The plan addresses training for ALF-LMHL staff, placement, and follow-up procedures to support ongoing treatment for residents. The annual ALF-LMHL Regional Plans are kept on file at the SAMH Program.

Priority Populations

The SunCoast Region SAMH Program Office contract with CFBHN contains requirements for Priority Populations and these are reflected in CFBHN's Policies and Procedures

Priority I: (These individuals shall have priority for admission to the program)

- Individuals who are incompetent to proceed (ITP) or not guilty by reason of insanity (NGI) in accordance with Chapter 916 F.S. and on conditional release order.

Priority II: (no longer 916)

- Individuals who have been found competent to proceed or are non-restorable (they have had their charges dropped; received time-served or probation)
- Individuals who have previously been found NGI, and the court has relinquished jurisdiction

CFBHN will work closely with the individual, interested family members when authorized, the treatment facility service/treatment team, local mental health provider agency staff, and placement sites to locate appropriate community placements and arrange for needed aftercare services for individuals determined appropriate for discharge. CFBHN will intervene when necessary to resolve issues among stakeholders to ensure the process moves forward in a timely manner.

Regional Collaboration and Communication

Regional SAMH and Managing Entity staff participate in community collaborations with stakeholders throughout the human services spectrum. The stakeholders who meet with and collaborate with the Region and Managing Entity include: Community Based Care organizations, Law Enforcement, Homeless Coalitions, County Governments, Circuit Courts, Public Defenders, State Attorneys, the Agency for Persons with Disabilities, the Department of Juvenile Justice, the Agency for Healthcare Administration, local school systems, the National Alliance for Mental Illness and other local consumer

organizations. These meetings provide the opportunity for engagement and collaboration in the multiple communities that make up the Region with local input system feedback concerning service delivery and service needs.

Child Welfare Integration

Regional SAMH and CFBHN continue to work with the Child Welfare system to serve the families involved with or at risk of involvement with the Child Welfare system. The goal of this work is to get services to families in a more timely and effective manner. The FIT and FIS programs are key intercept points where the SAMH system and the Child Welfare system can, by working together, decrease the number of children going into out-of-home care and decrease the length of time children are in out-of-home care. Working in collaboration with CBC, CPI, DCF and child welfare is key to ensure the effective administration of the FIS and FIT programs to families whose ability to parent has been impacted by their substance use. The goal of this program is to maintain children safely in their homes, and in cases where this is not possible, strengthen the family for reunification.

Regional SAMH and CFBHN staff continue to work with the CBC's, CPI, child welfare providers, DJJ, DCF, and community stakeholders in each county through alliance, consortia and other agency meetings to strengthen the system of care, increase access to services, reduce child welfare involvement and repeated crisis service utilization. A Child Welfare Integration Program Manager with the Managing Entity works with the providers within each area to ensure effective collaborations among providers, provide technical assistance, review processes/procedures, and ensure positive outcomes are being met.

System Initiatives

The co-location of programs throughout the area has increased the integration of substance abuse and mental health services. Throughout the SunCoast region, there have been co-locations of substance abuse and mental health providers, CBC and substance abuse providers, CPI and substance abuse providers, mental health and substance abuse providers. Regional SAMH and CFBHN support the incorporation of co-located services and looks for opportunities to assist the providers in facilitating this.

CFBHN and Pinellas County Jail entered a partnership in which admissions and discharges are received from the jail and compared to the SAMH consumer data. The goal is to share the information with the providers in an effort to facilitate effective follow-up and discharge services.

Managing Entity staff participate in the Safe Reduction Workgroup in Hillsborough County. The group consists of child welfare representatives from the judicial system,

CBC, DCF, Guardian ad litem, CPI, State's Attorney's Office, and Children's Legal Services. The goal of the workgroup is to reduce reentries and new entries of families into the child welfare system and maintain children safely in their homes.

A newly contracted provider agency, Crossroads Behavioral Health Center, Inc., (Crossroads) has been contracted by CFBHN to provide the behavioral health services in Hendry and Glades County. Crossroads has created a relationship with schools in Hendry and Glades Counties. The agency has a therapist that works in the schools to provide counseling services to the youth and refer them in-house for evaluations and medication management services.

Multi-Agency Service Coordination

A holistic health model towards healthcare incorporates the total needs of each individual. This includes mental health, substance abuse, physical health, housing and other supportive service needs. CFBHN encourages providers to work across the system of care to ensure effective collaboration, prevent duplication of services, and ensure enhanced outcomes for the individuals being served. All individuals receiving services sign release of information documents to allow providers to communicate with their current service provider(s). Multi-agency release forms are being utilized throughout the Region. The Regional SAMH and Managing Entity are working in the various communities to increase the utilization of this type of release as a tool to provide better coordination of care and services.

Consumer Affairs

The Consumer/Family Affairs Director and Liaisons with the Managing Entity ensure that individuals receiving services and their family members have input into service development and evaluation of the system of care. This is accomplished through extensive participation in advocacy groups, peer mentoring, National Alliance on Mental Illness, CFBHN regional consortiums and community meetings of key stakeholders directly involved with the provision or receipt of behavioral health services. This involvement includes advocating and supporting activities to reduce stigma and discrimination in the community.

These community and stakeholder relationships have allowed for the Consumer Affairs staff to:

- Provide recommendations on areas of service eligibility and service array, including identifying gaps in services
- Assist in identifying underserved populations
- Provide recommendations on the development of additional services and new models of service provision
- Participate in monitoring service development and delivery
- Provide feedback on state and local service budgets
- Assist in developing quality improvement and performance measures
- Guide consumers and families in locating resources

Total Amount of DCF State Funds Contracted for Mental Health and Substance Abuse Services in the SunCoast Region and Circuit 10

Southeast Region
Circuits 17, 15, and 19
Substance Abuse and Mental Health Program

1. Organizational Profile/Program Description

a. Location and Counties Service

The Southeast Substance Abuse and Mental Health (SAMH) Region consists of six (6) Counties and encompasses Circuits 17; Broward County, 15; Palm Beach County, 19; Indian River, Martin, Okeechobee and St. Lucie Counties. The Southeast Region is working in partnership with two managing entities and with local communities to realize the Department's mission to protect the vulnerable, promote strong and economically self-sufficient families, and advance personal and family recovery and resiliency.

Currently, in Circuit 17, pursuant to section 394.9082, F.S., (Senate Bill 1258), the Southeast Regional SAMH Program Office, as the SAMH Authority, contracts with Broward Behavioral Health Coalition (BBHC) that was created in 2011 to administer \$50,965,015 million dollars in funds and services, to manage the SAMH system of care in Broward County. The contract requires BBHC as the Managing Entity (ME) to subcontract with qualified, thirty one (31) community-based service providers that provide services for adults and children with behavioral health issues. The intention of this model of care is to provide services in a timely and cost-effective manner.

Circuit 17 or Broward County has a land area of 1,209.72 square miles with an average of 1,444.9 persons occupying a square mile. In 2014, according the U.S. Census Bureau Broward County had a population of 1,869,235 individuals. The population realized a 6.9% growth during the period of April 1, 2010 through July 1, 2014. The population is diverse and 28.9% of the population identifies themselves as Black or African American, and 27.5% as Hispanic. Broward County is the home of many people that originated in places other than the United States and 31.5% of the residents are Foreign born. The median household income is \$51,251.00 with a median value of owner-occupied housing units of \$181,500. The percentage of individuals' that own their own home is 65.9%. 37.8 % of the population speaks a language other than English in their home. Persons living below the poverty level is 14.3%. 19,575 Veterans call Broward County their home.

The population of Broward County provides challenges for the system of care currently in place. There are vast cultural differences among the community members that perceive the issues of substance abuse and mental illness in different ways, thereby impacting how the delivery of these services are interpreted and accepted by those that are receiving assistance and care. The prevalence of individuals with severe mental illnesses, substance use and co-occurring disorders, homelessness and lack of affordable housing options for many of the residents of Broward County has led to the determination by the BBHC and SAMH needs assessment the requirement for an additional \$111,325,201 in funding to adequately address the behavioral health needs of this county.

The Southeast Regional SAMH also contracts with Southeast Florida Behavioral Health Network (SEFBHN) to administer \$55,666,728 million dollars in funds and services, to manage the SAMH system of care in Palm Beach, Martin, St. Lucie, Indian River and Okeechobee Counties. The contract requires SEFBHN to subcontract with qualified, community-based service providers that provide services for adults and children with behavioral health issues. It is the intention that by providing services at the local level needs will be addressed in an efficient, effective and cost effective manner.

The area in square miles covered by this managing entity is 4356.47 with a total population of 2,026,034 persons. The SEFBHN contracted with The Community Coalition Alliance to complete a needs assessment relating to Substance Abuse. SEFBHN is also currently working with a local foundations to complete a needs assessment that will address Mental Health Issues and identify the prevalence of serious mental illness in the adult population and serious emotional disturbance among children and the gaps in services for this population. Resources including Medicaid will be addressed in the needs assessment.

In 2014, according the U.S. Census Bureau Palm Beach County had a 5.0% increase in population during April 1, 2010 through July 1, 2014. The population is 18.8% Black or African American and 20.7% Hispanic. 22.6% of the population is Foreign born and 28.4% speak another language other than English in the home. The median household income is \$52,432.00 per year and the median value of an owner-occupied housing unit is \$199,700. There are 99,057 Veterans in Palm Beach County. 14.5% of the population lives below the poverty level.

Martin County has a population 153,392 and realized a population increase of 4.5% during the period between April 1, 2010 and July 1, 2014. Of those residing in Martin County 5.7% identify themselves as Black or African American and 12.9% are Hispanic. 9.8% of the population is foreign born, There are 16,999 Veterans living in Martin County. The median household income is \$49,846

with a median value of owner-occupied housing units of \$197,900. 13% of the population lives below the poverty level.

St. Lucie County has a population of 291,028 and realized a population increase of 5.0% during the period between April 1, 2010 and July 1, 2014. Of those residing in St. Lucie County 20.2% identify themselves as Black or African American and 17.6% self-identify as Hispanic. 14.9% of the population is foreign born and 20.5% speak another language other than English in the home. The median household income is \$43,413 with a median value of owner-occupied housing units of \$122,900. The percentage of the population living below the poverty level is 18.4%.

Indian River County has a population of 144,755 and realized a population increase of 4.9% during the period between April 1, 2010 and July 1, 2014. Of those residing in Indian River County 9.4% identified themselves as Black or African American and 11.9% self-identified as Hispanic. 10.4% of the population is foreign born and 14.3% speak a language other than English in the home. The Median household income is \$44,772 with a median value of owner-occupied housing of \$157,400. The percentage of individuals living below the poverty level is 15.1%.

Okeechobee County has a population of 39,149 and realized a population decrease of 2.1% during the period of April 1, 2010 and July 1, 2014. Of those residing in Okeechobee County 8.8% the population identified themselves as Black or African American and 11.9% self-identified as Hispanic. 12.1% of the population is foreign born and 24.3% speak a language other than English in the home. The median household income is \$34,570 and there is a median value of owner occupied housing of \$105,300. The percentage of individuals living below the poverty level is 26.9%

These six counties encompass 4,356.47 square miles with a total population of 2,026,034 persons. Individuals living within this area are diverse and have varied cultural and economic backgrounds. While most of the counties realized growth during the past Okeechobee did not and has the highest rate of individuals living below the poverty level; almost 27 percent. All other counties have an average of 15.25 percent of the population living below the poverty level. While mental health and substance abuse effects all populations the negative effects of these health issues is disproportionately experienced by those individuals and families that live close to or below the poverty level as access to treatment and services can be limited. The diversified population residing in the Southeast Region, the amount of individuals living below the poverty level, and lack of affordable housing provide opportunities and challenges to the ME and the SAMH Program office to attempt to address the various needs of the individuals we serve.

b. Staffing (OPS and FTE's)

The chart below reflects staffing as of February, 2015 and indicate vacant pending hiring.

Programs	FTE	FTE Pending	OPS	OPS Pending	Total
Substance Abuse	4	0	5.5	0	9.5
Mental Health	1	0	2	0	3
Total	5	0	6	0	12.5

Staff in SAMH has Substance regulatory functions as well as the designation of private and public receiving facilities.

Due to the significant growth in the development and implementation of substance abuse facilities in the Palm Beach area (6 -8 new applications per week), all positions in SAMH, conduct licensing activities in order to ensure that the licensing requirements are in compliance.

c. Types of Services Provided and Number's Served

The Southeast Region SAMH Program Offices works collaboratively with both SEFBHN and BBHC to secure the needed services for our communities. The ME's and the Southeast Region SAMH is dedicated to develop a system of care which includes substance abuse and mental health services for adults and children. Additionally, services are provided to include prevention, emergency mental health services, detoxification, mental health and substance abuse recovery services.

Local Partnerships and Stakeholder Input

The Southeast Region SAMH, BBHC, and SEFBHN participate in various community collaborations with stakeholders in Circuits 17, 15, and 19 including county government, school systems, provider agencies, law enforcement, the public defender's office, state attorneys hospitals, and consumers of services as well as advocates. Circuit 17 is currently collaborating with the Agency for Health Care Administration (AHCA), Agency for Persons with Disabilities (APD), Department of

Juvenile Justice (DJJ) and the Department of Corrections (DOC) in an effort to provide a continuum of care for individuals and families.

Child-welfare and Substance Abuse and Mental Health (SAMH) Integration:

BBHC implemented the Family Engagement Program, a team of Peer Specialists housed at the Broward Sheriff's Office (BSO) which provides Child Protective Investigations (CPI) for Broward County. BSO CPIs refer cases where suspected parental substance abuse and or mental health issues may place children at risk of harm. The team engages families into behavioral health treatment and eliminates barriers that keep families from getting services. This has been a very successful initiative where the engagement of challenging parents to services has increased diverting children from the Dependency system and protecting them from harm by immediately linking them to services by a well-trained peer specialist team. This initiative, in collaboration with providers of behavioral health services, closes the loop on non-compliant parents by reporting to the abuse hotline and FSN progress or lack thereof. The outcome from this initiative is to divert families from the dependency system and to protect children from harm.

In addition, for fiscal year (FY 2015-16) BBHC and SEFBHN were both funded for a FIT Team which was awarded to one of our network providers in September 2015. These teams will work with the families involved in the child welfare system and insure they are linked to appropriate services.

SEFBHN has identified areas of focus for System of Care planning and development. Some of the areas identified that pertain to the integration of child-welfare and substance abuse/mental health integration are:

- Integrating behavioral health services with the network of child welfare service subcontractors
- Implementing a children's system of care that is family centered, that focuses on increasing the child's ability to successfully cope with life challenges and build resiliency, and that works in partnership with the Department and other state agencies to manage the children's system of care;
- Implementing a system of care that is consumer focused, supports the individual and family, sustains recovery, builds resiliency and optimizes the partnership with the Department and other stakeholders.

Ultimately, the vision of SEFBHN is to provide a seamless, accessible, recovery-oriented system of behavioral health care driven by consumers, providers, and other stakeholders, in which innovation and collaboration are the norm and diversified financial resources comfortably support an array of prevention and treatment practices leading to excellent outcomes for individuals served, providers, and the community. They strive to accomplish this vision by developing, supporting and managing an integrated network of behavioral health services to promote the

emotional and mental well-being and drug-free living of children and adults in Indian River, Martin, Okeechobee, Palm Beach and St. Lucie Counties.

Task Force, Coalitions and Provider Meetings'

Both Managing Entities in the region participates in number of community engagement activities and collaborative partnerships and coalitions on a regular basis.

A few of the involvement of SEFBHN are involved in the following:

- Crisis Intervention Training – training specifically developed for law enforcement officers in collaboration with community mental health providers. These trainings offer law enforcement officers information on available community resources and how to access those resources, in addition to providing them an understanding of mental illness and how to intervene in crisis situations as they interact in the community with individuals who suffer from a mental illness and or a substance abuse problem. These trainings are held on a monthly basis. Hopefully these interventions will minimize and reduce Baker Acts and decrease criminalization of mental illness.
- Mental Health Collaborative of Indian River – Stakeholders and policy makers develop and implement a countywide strategic plan for improving the lives of residents with behavioral health illnesses.
- Palm Beach County Criminal Justice Commission – Palm Beach County community based strategic planning for criminal justice entities.
- Palm Beach County Criminal Justice Commission SAMH Juvenile, Adult and Re-Entry Committees – Palm Beach County community based strategic planning for criminal justice entities with a focus on adults and juveniles with mental illness and/or substance abuse problems.
- Palm Beach County School Health Advisory Council Behavioral health Sub-committee – Strategic planning for the Palm Beach County School District with an emphasis on behavioral health.
- Community Alliance Circuit 15 - Community based Council responsible for strategic planning for DCF.
- Community Alliance of Okeechobee and Treasure Coast – Community based Council responsible for strategic planning for DCF.
- DCF Children's SOC Expansion Grant Community Partners Council - Multi-systemic representatives to guide the implementation of the SOC grant project in the Belle Glade area.
- DCF Children's SOC Expansion Grant Advisory Committee – Multi-systemic representatives to guide the implementation of the SOC grant in the Belle Glade area.
- DCF SOC Expansion Grant Provider Workgroup – Providers of children services in the Belle Glade area with a focus on the implementation of the grant and wrap-around services.

- Circuit 15 Criminal Justice Department of Juvenile Justice Advisory Council – Multi-agency Governor appointed Advisory Board for issues around youth involved with the Juvenile Justice system.
- Treasure Coast Homeless Coalition – Strategic planning for the homeless population in the Treasure Coast area.
- Palm Beach County Homeless Coalition – Strategic planning for the homeless population in the Palm Beach area.
- Palm Beach County Domestic Violence Council – Strategic planning for victims of domestic population in the Palm Beach County.
- Circuit 15 SAFEER (Screening Assessment, Family Engagement and Retention) – Planning group around the integration of Child Welfare and Behavioral Health.
- Circuit 19 CW and SAMH Integrated Meeting – Planning group around the Integration of Child Welfare and Behavioral Health.
- Circuit 15 DCF Baker Act Taskforce – Circuit-wide private and public receiving facilities, law enforcement, providers and general hospital representation to address challenges related to the Baker Act system and process.

BBHC Managing Entity is also involved in several taskforce and coalition within the community on a monthly basis. A sample of a few are listed below:

- Mental Health Taskforce – meeting with criminal justice system and community providers with a focus on individuals involved in the MH court system.
- Provider Meetings- involves community providers and other stakeholders to discuss issues around the system of care and the ME.
- CFLA- Meeting that involves representation of CEOs within the system of care to address issues from a high level perspective.
- Homeless Coalition- Involves stakeholders, county and state representation, law enforcement to address issues of homelessness within Broward County.
- Juvenile Justice Advisory Board- Group of state, local and county representation to focus on issues related to juveniles and behavioral needs.
- CWIT- The integration of child welfare in the behavioral health system to ensure seamless service delivery.
- Funders Collaboration- Collaboration of funders throughout the county to focus on ensuring funding is maximized and unduplicated in service delivery.
- Human Trafficking Coordination- meeting of law enforcement, behavioral health and other stakeholders to develop and implement systems to address the needs of the individuals involved in human trafficking.
- CIT- meeting with representation from different municipalities and the Broward Sheriff to focus on the system challenges.
- Baker Act Taskforce – Meeting of the behavioral health system, law enforcement and all Baker Act Receiving facilities (private and public) in addition to general hospitals and other stakeholders. They focus on issues pertaining to the

implementation of the BA52, process, and access to resources as well as practice. This helps to minimize Baker Act and facilitate timely access to appropriate community resources.

- Case Management Coordination – Meeting with all case management provider agencies to focus on system issues.
- System of Care Meetings- These are meeting with the ME, DCF AND others as needed to strategize on planning the system of care for individuals receiving services in Broward County.
- Partners in Crisis - providing advocacy for mental health and substance abuse services.
- Common Staffing – participation in staffing of children with significant behavioral needs.

Management Entity Implementation

Broward Behavioral Health Coalition, Inc. (BBHC) was created in 2011 and was selected by the Florida Department of Children and Families (DCF) as Broward County's Managing Entity (ME) for mental health and substance abuse services. BBHC enjoys a diverse, committed Board of Directors comprised of community stakeholders, consumers, and a limited number of providers. BBHC has a vision which is "to ensure a responsive and compassionate behavioral healthcare experience for people in our (Broward's) community". Their mission is "to advocate and ensure an effective and efficient behavioral health system of care is available in Broward County that promotes improved access to care, service, continuity and provide for a more efficient and effective delivery of behavioral health services.

BBHC has adopted the following system of care values:

- Consumer driven
- Cultural competence
- Compassionate service
- Efficient management
- Innovative system and
- Fiscal Integrity

The mission of the Southeast Florida Behavioral Health Network, Inc. (SEFBHN) is to develop support and manage an integrated network of behavioral health services to promote the emotional and mental well-being and drug-free living of children and adults in Indian River, Martin, Okeechobee, Palm Beach and Saint Lucie Counties.

Anticipated Outcome: Assure a Comprehensive, Integrated, Recovery Oriented System of Care

Service Objective: Build Workforce Capacity for the Provision of Peer Run Programs and Services

- Host Certification Training for Peers and Family Members
- Develop Volunteer Opportunities within Network to meet 1000 hour requirement for certification

Service Objective: Refine an Ideal Comprehensive Service Array Model

- Identify Service Gaps and Omissions utilizing needs assessment
- Monitor Existing Capacity
- Prioritize Existing Service Array
- Identify and Develop Evidenced Based Programs

Service Objective: Continuously Enhance System Integration and Identify System Integration Opportunities. Priority is given to the Interface of SAMH and Child Welfare and the Interface of the SAMH system and the Criminal Justice Systems.

- Create and/or Revise Interagency MOU's
- Identify and Conduct Cross Training
- Refine process and monitor activities
- Seek Braided Funded Opportunities

Conclusion

The Southeast Region SAMH Program Office will continue to work with both SEFBHN and BBHC to ensure that cost savings, due to decreased administrative rates through utilization management will be used to continually improve and expand services in our area. This along with continuous quality improvement and integration of services will increase the capacity for our system of care and improve outcomes for the individuals and families that we serve.

Both BBHC and SEFBHN will focus this year on several initiatives, one major initiative will be the focus on the development and implementation of Care Coordination activities to decrease recidivism and help improve individuals' overall recovery.

The SAMH Regional Office will continue in its advocacy and support as the MEs face significant funding challenges to expand their current service array in order to meet the growing needs of the community they serve.

Southern Region SAMH Services Plan: District (Regional) Plan

Regional SAMH System of Care

South Florida Behavioral Health Network (SFBHN) has adopted the following System of Care (SOC) principles which are consistent with the Department and have been embedded within the delivery system including subcontracts:

- 1) Family/Consumer Driven
- 2) Youth Guided (as appropriate)
- 3) Cultural and Linguistic Competence
- 4) Community Based Services

SFBHN has also embraced the system of care values and is working to ensure that the values are rooted throughout the entire continuum of care:

- 1) Family members and youth are active members of the board
- 2) The system of care values are clearly delineated in all provider contracts
- 3) The SOC values are embedded within the contract monitoring tools
- 4) The Contract Monitoring and Oversight Department conducts all contract reviews and provides feedback to the program staff
- 5) Conducts fidelity checks throughout the subcontracts.

As the managing entity SFBHN is able to:

- 1) Subcontract state and federal dollars with community providers for services quickly and seamlessly
- 2) Develop a continuum of coordinated service aimed at addressing the needs of children, youth, families and adults served by individual providers
- 3) Encourage the development of partnerships to strengthen the availability of community supports
- 4) Utilize continuous quality assurance process to identify system-wide and provider-specific challenges
- 5) Utilizes data to drive funding allocation
- 6) Utilize data from various sources (CFS, Substance Abuse and Mental Health Information System, Knight Integration Software, Otsuka Digital Health and Florida Safe Family Network) as a component of the monitoring and Continuous Quality Improvement (CQI) process.

SFBHN has developed and manages an integrated network of behavioral health services that is accessible and responsive to individuals in need of services, along with their families and community stakeholders. Support across all levels is necessary to ensure integration throughout the system of care. SFBHN is committed to managing a system of care that is supported by individuals served, families, community stakeholders, providers and other resources. SFBHN maintains Memorandum of

Southern Region SAMH Services Plan: District (Regional) Plan

Understandings (MOUs) with multiple system partners to ensure integration of behavioral health with multiple systems.

Individuals to be Served:

SFBHN contracts with Network Service Providers for comprehensive Behavioral Health Services to be provided to individuals, as outlined in our main contract with the Department and requires its Network Service Providers to comply with the Department's requirements for these Individuals Served.

Individuals Served: Behavioral Health services are provided to persons pursuant to s.394.674, F.S., including those individuals who have been identified as requiring priority by state or federal law. These identified priorities include, but are not limited to, the categories outlined below. Persons in numbers (1) and (2) are specifically identified as persons to be given immediate priority over those in any other categories.

(1) Pursuant to 45 C.F.R. s. 96.131, priority admission to pregnant women and women with dependent children by Network Service Providers receiving Substance Abuse Prevention and Treatment (SAPT) Block Grant funding;

(2) Pursuant to 45 C.F.R. s. 96.126, compliance with interim services, for injection drug users, by Network Service Providers receiving SAPT Block Grant funding and treating injection drug users;

(3) Priority for services to families with children that have been determined to require substance abuse and mental health services by child protective investigators and also meet the target populations in subsections (a) or (b), below. Such priority shall be limited to individuals that are not enrolled in Medicaid or another insurance program, or require services that are not paid by another payor source:

- (a) Parents or caregivers in need of adult mental health services pursuant to s. 394.674(1)(a)2., F.S., based upon the emotional crisis experienced from the potential removal of children; and
- (b) Parents or caregivers in need of adult substance abuse services pursuant to s.394.674(1)(c)3., F.S., based on the risk to the children due to a substance use disorder.

(4) Individuals who reside in civil and forensic State Mental Health Treatment Facilities (SMHTF) and individuals who are at risk of being admitted into a civil or forensic SMHTF pursuant to s. 394.4573, F.S., Rules 65E-15.031 and 65E-15.071, F.A.C.;

(5) Individuals who are voluntarily admitted, involuntarily examined, or placed under Part I, Chapter 394, F.S.;

Southern Region SAMH Services Plan: District (Regional) Plan

- (6) Individuals who are involuntarily admitted under Part V, Chapter 397, F.S.;
- (7) Residents of assisted living facilities as required in ss. 394.4574 and 429.075, F.S.;
- (8) Children referred for residential placement in compliance with Ch. 65E-9.008(4), F.A.C.; and
- (9) Inmates approaching the End of Sentence pursuant to Children and Families Operating Procedure (CFOP) 155-47: Processing Referrals from the Department of Corrections.
- (10) In the event of a Presidential Major Disaster Declaration, Crisis Counseling Program (CCP) services shall be contracted for according to the terms and conditions of any CCP grant award approved by representatives of the Federal Emergency Management Agency (FEMA) and the Substance Abuse and Mental Health Services Administration (SAMHSA).

For a complete listing of services purchased and available through SFBHN, please see attached SFBHN's Catalog of Services.

By contract, SFBHN required that subcontracted network providers agree that all persons meeting the target populations identified within the contract and further defined in s. 394.674 and 394.675 are eligible for services. SFBHN contracts for a comprehensive array of services to meet the needs of individuals served. These services include, but are not limited to: crisis stabilization, residential, and outpatient services. For a full listing of the array of services purchased through SFBHN, please see attached SFBHN's Catalog of Services.

Recipient eligibility is reviewed during the Subcontracted Network Provider's monitoring visit to ensure the Subcontracted Network Provider's compliance with the contract requirement.

SFBHN has identified Coordination of Care as one of the key areas of focus within the System of Care. We have an established Utilization Management (UM) process with components that provide an infrastructure for coordination of care for the individual served within the SOC. Coordination of Care is defined as the deliberate organization of care activities between two or more participants including the person served and family involved in an individual's care to facilitate the effective delivery of health care services. The definition highlights two prerequisites to coordination of care: communication and collaboration across providers and within and across institutions. SFBHN adheres to the principle that communication exists when each treatment provider caring for an individual served, shares needed treatment information with other clinicians and providers caring for said individual. Information can be shared verbally;

Southern Region SAMH Services Plan: District (Regional) Plan

manually in writing; or through information technology, or through a shared electronic health record when consent is provided by the individual served. Through this coordination of services, the SOC delivers a continuum of care that addresses all of their behavioral health needs.

SFBHN strives to ensure that its core values and principles are incorporated on every level of the SOC. These core values and principles drive all aspects of planning, use and delivery of services to individuals within the SOC. SFBHN applies the UM processes to ensure those values and principles are intrinsic to the services provided and are integrated and reflected at every level and/or entry point.

For a full outline on how SFBHN coordinates care, please see SFBHN's Coordination of Care Plan located at <http://sfbhn.org/providers/policy-and-procedures/>

As outlined in SFBHN's ME Annual Plan, the table below identifies priorities for investment by services type for Adult Mental Health, Children's Mental Health, Adult Substance Abuse, and Children's Substance Abuse:

Goal Description	Projected Funding Amount
Develop and implement a coordinated system of integrated treatment to improve Standards of Care	\$1,188,283
Increase Peer Support services within the network	\$226,450
Improve linkages to accessible Housing which is integrated with treatment	\$800,000
Encourage Family Involvement in consumer's treatment	\$10,002
Improve communication and care coordination between the Criminal Justice System and the	\$1,534,898

Southern Region SAMH Services Plan: District (Regional) Plan

Behavioral Health System of Care.	
Improve communication and care coordination between the Child Welfare System and the Behavioral Health System of Care.	\$158,450

SFBHN's goals are part of its 3 year Strategic Plan and will be implemented in phases. The above table reflects those goals that are currently being focused on. Not all goals will be addressed at once. It should also be noted that due to the one-time block grant allocation, SFBHN's funding amount will decrease for FY 16-17. SFBHN will continue to look for grants and additional funding to support community needs.

SFBHN has developed a systematic and collaborative process over the years to ensure that our Network provides case management services to each resident of a SMHTF from Miami-Dade and Monroe counties. SFBHN considers all individuals admitted to SMHTF to be "priority clients" and works diligently to make sure that they are connected to a Community Mental Health Center's Case Management or a FACT Team, according to their catchment area. This includes assisting clients access benefits (including Medicaid) through SSI/SSDI Outreach, Access, and Recovery (SOAR). SOAR is an expedited process to apply for benefits.

For a full description of how SFBHN manages consumers transitioning from state treatment facilities, please see Integration of Individuals Ready for Discharge from State Mental Health Treatment Facilities Plan located at <http://sfbhn.org/providers/policy-and-procedures/>

SFBHN ensures that behavioral health services are coordinated and developed into an integrated network of services accessible and responsive to individuals in need of substance abuse and mental health services, families, and community stakeholders.

Network Providers are contractually required to ensure individuals need treatment services, depending on severity of individual need, consistent with industry standards for distance and time.

Management of access to care is found within the Consumer and Family Services Manual which includes: a) services provided by the SOC and how to access the services, including a provider directory; b) Emergency services and what to do in case of a psychiatric or medical emergency; c) the individuals served rights and information on how to file complaints or grievances; d) information regarding available auxiliary aids

Southern Region SAMH Services Plan: District (Regional) Plan

and services, and how to request these services; e) cost sharing and fee payment requirements; and f) information regarding how to select a practitioner or change practitioners if the consumer served wishes to. Additionally, SFBHN established an 800 call-in number (1-888-248-3111) to assist individuals served in contacting the ME for assistance which is noted in the Manual. Consumer and Families Services Manual: This is also located on the SFBHN website:

<http://sfbhn.org/providers/policy-and-procedures/>

SFBHN has also developed and implemented a Care Coordination and Utilization Management Manual which describes current methods to access services presently being managed by SFBHN. The Care Coordination and Utilization Management Manual is located on the SFBHN website: <http://sfbhn.org/providers/policy-and-procedures/>

Specific to access to medication, network providers have access to the Indigent Drug Program (IDP) in order to access the most recently developed psychiatric medications for our network consumers. Additionally, network providers participate in various patient assistance programs through the various pharmaceutical companies to access medications at reduced costs.

Since 2012, SFBHN has been facilitating a Housing and Employment Workgroup. These workgroups address the housing and employment needs within the Southern Region. As part of these workgroups community partners such as the Homeless Trust and Department of Vocational Rehabilitation have been invited to present and participate to better understand and leverage services at system partners.

SFBHN has incorporated co-occurring services as part of its contract requirements. Through contract, SFBHN requires providers to utilize: “Comprehensive Continuous Integrated System of Care (CCISC) model” which is a system design and implementation model for organizing services for individuals and families with co-occurring disorders that is designed to improve services capability on a statewide or regional basis to achieve: system level change; efficient use of resources; use of evidence-based and consensus based practices; and integrated mental health and substance abuse services throughout the system, by organizing a process in which every program improves their provision of co-occurring disorder services, and every clinical staff person improves their level of co-occurring disorder service competency based on their job and level of training.

SFBHN has implemented various CQI activities to monitor providers’ compliance with access performance measures as specified in the contract. These activities include, but are not limited to: the Provider Report Card, Secret Shopper Calls, Client Satisfaction Surveys, Census Reports, Waitlist Reports, Retention Reports and tracking of access

Southern Region SAMH Services Plan: District (Regional) Plan

concerns for trend analysis. Consumer records are reviewed during CQI and Investigative activities to further evaluate and monitor compliance with access.

In FY 12-13, SFBHN implemented new contract language requiring providers to make “warm” hand offs when providing linkage and referrals. Beginning in fiscal year FY 13-14 through this current fiscal year subcontractors are required by contract to implement and maintain policies and procedures that address the referral and linkage process of individuals served to local community providers for services not offered by the network provider. The network provider is responsible for tracking and ensuring that the proper linkages are made.

As incorporated into contract language:

“Linkage and Referral Process: The network provider may only refer a consumer to a provider that offers the service for which the network provider created the referral.

If the network provider is a receiving provider then the network provider must inform the referring provider that the consumer was admitted/not admitted within seven (7) calendar days, unless otherwise required by applicable state, federal rules and/or statutes.

If the network provider is the receiving provider, the network provider will have seventy-two (72) hours to respond to a new referral, unless otherwise required by applicable state, federal rules and/or statutes.

If the network provider is the receiving provider, and if upon assessing a referred consumer on in-take, determines that the consumer requires a service that is different from the service for which the consumer has been referred, the network provider will admit the consumer for the service that the consumer needs if the network provider offers the service and has availability to offer the service. In the event the network provider does not offer the service nor has availability to offer the service, the network provider will create a referral for the consumer to receive the service at a different provider.”

Providers are additionally required to track the following performance measures which are expected to be part of the semi-annual CQI plan submission:

- 1) Average number of calendar days between a request for service and the date of the initially scheduled face-to-face appointment, tracked by assessment, counseling/psychotherapy and psychiatric appointments.
- 2) Percent of individuals served who do not appear for their initial appointment tracked by assessments, counseling/psychotherapy and psychiatric appointments.

Southern Region SAMH Services Plan: District (Regional) Plan

- 3) Percent of appointments cancelled by the client tracked for all initial appointments for assessments, counseling/psychotherapy and psychiatric services.
- 4) Percent of appointments cancelled by the staff for all initial appointments for assessments, counseling/psychotherapy and psychiatric services.
- 5) Medication error percentage, as documented during the reporting period including: wrong medication, wrong dose or wrong time of administration as reported in inpatient/CSU and residential settings.

It is the intent to use the providers' QA/QI initial plans and semi-annual CQI updates as a source for monitoring the providers.

Monitoring of Access:

SFBHN utilizes several methods to monitor provider access. Specific activities that monitor access include, but are not limited to: Secret Shopper Calls, Consumer Satisfaction Surveys, Contract Accountability Monitoring, tracking of complaints and the Report Card.

For a full description on how SFBHN manages access including its Utilization Management System and Housing Initiative, please see SFBHN's Network Management Plan located at <http://sfbhn.org/providers/policy-and-procedures/>.

Please see the responses to the citations in 4-5 of this Plan outline for activities surrounding population groups and how they are managed by SFBHN.

Regional Collaboration and Communication

As described in many of SFBHN's plans including, but not limited to, the Network Management Plan and the Care Coordination Plan:

SFBHN has developed and manages an integrated network of behavioral health services that is accessible and responsive to individuals in need of services, along with their families and community stakeholders. Support across all levels is necessary to ensure integration throughout the system of care. SFBHN is committed to managing a system of care that is supported by individuals served, families, community stakeholders, providers and other resources. SFBHN maintains Memorandum of Understandings (MOUs) with multiple system partners to ensure integration of behavioral health with multiple systems.

Through SFBHN's CQI Department, Quality Assurance takes place through a variety of methods, including but not limited to, the review of compliance and quality elements of each provider through the Provider Report Card, Contract Accountability Monitoring, complaint and grievance protocol, performance and outcome measurement monitoring, incident reporting trending and investigations, and monitoring of a provider's ability to

Southern Region SAMH Services Plan: District (Regional) Plan

effectively and accurately execute evidence based practices, emerging trends, and promising practices. These elements were identified as the most important indicators of sound programmatic and financial management and contractual compliance by the network's provider agencies.

For a full description of SFBHN's QA activities, please see SFBHN's QA Plan located at <http://sfbhn.org/providers/policy-and-procedures/>.

The following Committees are central to collaboration within the network. These committees include community, provider, individual served and other stakeholder participation and as such are used for dynamic communication and change management. Additionally, these committees in concert with data analysis allow SFBHN to identify service gaps, inform community needs and the need for specialized services.

Monthly

- Miami- Dade County Addictions Services Board (ASB)
- Coordinated Outreach Meeting (Homeless Trust) CBC Alliance Meeting
- Drug Court Meeting (Juvenile & Dependency)
- Executive Committee (EC) Meeting
- FACES Program Subcommittee
- FACES Evaluation Subcommittee
- Beyond Empowerment Program Subcommittee
- Beyond Empowerment Evaluation Subcommittee
- FACES Policy Workgroup
- HIV/AIDS Partnership Committee
- Re-Entry Partnership Committee
- Miami-Dade HIV AIDS Partnership, Strategic Planning Committee
- Geocare Discharge Planning Meeting
- Child Welfare Integration Workgroup
- Family Intensive Treatment Team (FITT) Case Staffing
- Miami Dade County Domestic Violence Fatality Review and Child Abuse Death Review Team
- RPG Impact EMPP Grant Planning Meeting
- FITT Monthly Meeting (via Conference Call) with Tallahassee
- Data Liaison Meeting (via Conference Call) with Tallahassee

Bi- Weekly

- Consumer Network Meeting

Southern Region SAMH Services Plan: District (Regional) Plan

- Motivation Support Program (MSP) and FITT Meetings

Bi-Monthly

- Board of Directors Meeting
- FACES Governance Board Meeting
- Data Group Meeting

Quarterly

- Adult System of Care (ASOC) Planning Meetings with the Department
- Children's (CSOC) & Prevention System of Care Planning Meetings with the Department
- ASOC Provider/Stakeholder Meeting
- CSOC Provider/Stakeholder Meeting
- Cultural and Linguistic Competence (CLC) Workgroup
- FACT Advisory Committee
- Peer Specialist Training and Support Meeting
- Regional Prevention Meeting
- South Florida State Hospital Stakeholders Meeting
- Statewide Consumer Network Grant Advisory Committee
- Trauma Informed Care Meeting
- Housing Initiative Meeting
- Employment Initiative Meeting
- Florida Certification Board Advisory Council Meeting
- Baker Act/Crisis Intervention Team (BA/CIT) Advisory Committee Meeting
- Florida Certification Board Advisory Council Meeting
- Targeted Case Management Meeting
- Geocare Liaison Meeting
- Protection and Advocacy for Individuals with Mental Illness (PAIMI) Council Meetings for Disability Rights Florida
- Behavioral Health/Primary Care (Integrated Care) Meetings
- SOC/QI Board Subcommittee Meeting
- STAR Program Discharge Planning Meeting

Bi - Annual

- Forensic Stakeholders Meeting
- CSU/Detox Program's Directors Meeting

Southern Region SAMH Services Plan: District (Regional) Plan

Annual/ Ad-Hoc

- DCF Planning Council

The description of the committees and their relation to SFBHN are described in SFBHN's Network Management Plan and QA Plan located at <http://sfbhn.org/providers/policy-and-procedures/>.

Please see attached SFBHN's Catalog of Care.

The Southern Region's SAMH Program Office designates twenty (20) public and private Baker Act Receiving Facilities. We have reviewed the latest version of Baker Act Facilities listed on the following website: <http://www.myflfamilies.com/service-programs/mental-health/baker-act-receiving-facilities>. All twenty facilities are correctly listed with up-to-date information, with the following exception: row 19 for Citrus Health Network in Pembroke Pines should have the DCF circuit listed as 11 and not 17. It should be noted that the Miami Veteran's Administration Healthcare System, located at 1201 NW 16th Street, Miami, FL 33125, is a Baker Act Receiving Facility; however, they have received a federal waiver for Baker Act designation. This facility is not listed in the latest version of Baker Act Facilities listed on the website.

In addition, we are attaching the list for the private Substance Abuse providers that are licensed by the Southern Region's SAMH Program Office.

Representatives from the Southern Region's SAMH Program Office and the Regional Administrators Office participate in the following list of directors and governing body meetings for the purpose of service planning:

- The Homeless Trust
- The Children's Trust
- South Florida Workforce and Investment Board
- Department of Juvenile Justice Circuit Advisory Board
- Early Learning Coalition – Vice Chair
- Dade-Miami Criminal Justice Council
- Addiction Services Board
- South Florida Behavioral Health Network, Inc.'s Board of Directors
- South Florida Behavioral Health Network, Inc.'s Executive Committee Meeting
- Community Based Care Alliance Board

SFBHN conducted Community Needs Meetings during the second and third quarter of FY 14-15 to elicit community/stakeholder input. These meetings were held throughout the Miami – Dade County on November 25, 2014, December 17, 2014, December 18, 2014, February 18, 2015, February 24, 2015, and February 25, 2015. The meeting was

Southern Region SAMH Services Plan: District (Regional) Plan

held in Monroe County on January 12, 2015. In addition to the meetings, SFBHN released a survey to gather input. The findings from the meetings and the survey were incorporated into SFBHN's Strategic Plan. A revised three year Strategic Plan has been developed for FY 15-18. Strategic goals based on the input from the community needs meetings have been incorporated into the plan.

For additional information on SFBHN's goals based on community input, please see SFBHN's Strategic Plan located at <http://sfbhn.org/providers/policy-and-procedures/>.

Additionally, the community needs process is fully outlined in SFBHN's ME Annual Operations Plan located at <http://sfbhn.org/providers/policy-and-procedures/>

Regional Budget

Per SFBHN's ME Annual Business Operations Plan for FY 15-16:

Program	FY 15-16 Schedule of Funds
Administrative Costs	\$3,486,654
Mental Health	\$46,142,452
Substance Abuse	\$33,083,502
Non-DCF	
Jackson Health System – PHT	\$2,545,055
Bristol Myers Squibb	\$51,899
SAMHSA – Juvenile Drug Court	\$108,771
SAMHSA – Adult Drug Court	\$230,846
State Court System – Jail Diversion Program	\$250,000

A description and record of the amount of money allocated for each service identified in the plan as being purchased with state funds as well as the total funds allocated to each provider is available in SFBHN's Catalog of Care (attached).

SFBHN receives a Schedule of Funds from the Department which outlines the total funding available for the Region.

Southern Region SAMH Services Plan: District (Regional) Plan

SFBHN conducts various activities to determine community needs. These include running a variety of qualitative reports including, but not limited to trends, penetration rates, provider performance, and treatment gaps. SFBHN submits quarterly to the DCF local office a CQI quarterly report that outlines various community activities and needs. These quarterly reports are shared at various planning committees including, but not limited to: SFBHN's SOC/QI Committee, the Board of Directors, ASOC Providers & Stakeholders, CSOC Providers & Stakeholders, and DCF local Office for public (community) comments. Feedback from the various committees/planning bodies are taken and incorporated into SFBHN's activities. Additionally annually, SFBHN then reviews the annual data sets to determine trends and identify gaps. This analysis is shared at community planning meetings and with the Department. The results and feedback from the community planning meetings are then incorporated into SFBHN's Strategic Plan and goals. The Strategic Plan and goals are monitored regularly and reviewed at the various committee and community meetings described above to determine progress and make adjustments if necessary.

These needs are then matched with the Schedule of Funds to ensure funding is distributed based on the community planning process.

For more detailed information, please see SFBHN's Schedule of Funds and SFBHN's ME Annual Business Operations Plan.

The funding priorities for the \$85,899,179 include improving Standards of Care, increasing Peer Support, increasing Prevention services, improving linkages to accessible Housing, encouraging Family Involvement, providing more Culturally Competent Services, improving communication and coordination between Criminal Justice System, and improving communication and care coordination between Child Welfare System.

The Legislative Budget Requests (LBR) are identified through an assessment of need in the Southern region which are consistent with the priorities and goals of the DCF Strategic Plan. Issues are identified in addition to the benefits that will be obtained by funding the issue. All LBRs also include the specific return on investment including cost calculations. The Regional SAMH Director and the Regional Budget Liaison review and approve the request before submitting to Headquarters. In July 2013, the Southern Region submitted an LBR for FY2014-2015 as part of the Southern Region's Forensic Services' priorities. The LBR was for a Specialized Florida Assertive Community Treatment (FACT) Team for reentry of the criminally involved. This LBR was not funded; however, it was resubmitted to the Director of SAMH this past July for reconsideration. South Florida Behavioral Health Network has a well-developed network of sub-contracted providers that are able to meet the needs of the community. Wide arrays of

Southern Region SAMH Services Plan: District (Regional) Plan

services are available for adults and children. These in-network services include the following:

General Services:

- Aftercare
- Assessment
- Case Management
- Comprehensive Community Service Teams (CCST)
- Crisis Support/Emergency
- Day/Night
- Drop In/Self-Help Centers
- Incidental Expenses
- Medical Services
- Mental Health Clubhouse
- Outpatient
- Outreach
- Prevention
- Substance Abuse Detoxification
- Supported Employment
- Supported Housing/Living

Children's System of Care Specific Services:

- Behavioral Health Network (BNET)
- Children's Crisis Response Team (CCRT)
- Children's Crisis Stabilization Unit (CCSU)
- Families and Communities Empowered for Success (FACES)

Functional Family Therapy (FFT)

- Specialized Therapeutic Group Care
- Statewide Inpatient Psychiatric Program (SIPP)
- Juvenile Incompetent to Proceed Program (JITP)
- Juvenile Addictions Receiving Facilities (JARF)
- Children's Residential II Substance Abuse Services

Adult System of Care Specific Services:

- Crisis Stabilization Units (CSUs)
- Florida Assertive Community Treatment Team (FACT)
- State Treatment Facilities

Southern Region SAMH Services Plan: District (Regional) Plan

- Incidental Expenses
- Short-term Residential Treatment (SRT) Program - Civil
- Short-term Residential Treatment (SRT) Forensic Program
- Miami-Dade Forensic Alternative Center (MDFAC)
- Adult Forensic Services
- Indigent Drug Program (IDP)
- Projects for Assistance in Transition from Homelessness (PATH)
- Family Intervention Specialists (FIS)
- Adult Residential Levels I-IV

For the full description on how funds are allocated to purchase the covered services described above, please see SFBHN's Cost Allocation Plan located at <http://sfbhn.org/providers/policy-and-procedures/>.

SFBHN promotes contracting with providers that are stable and have demonstrated a history of performance, both fiscally and operationally, for quality, appropriateness, and efficiency of the services provided. SFBHN's procurement process also promotes quality behavioral health services with financial responsibility by the providers to improve direct service management and limit unnecessary expenditures. For the full procurement process, please see SFBHN's Procurement Plan located at <http://sfbhn.org/providers/policy-and-procedures/>.

Additionally, SFBHN on a regular basis monitors network providers expenditure patterns based on agency billing records and data in order to minimize the occurrence of lapse dollars and maximize the utilization of funds available for community services. Lapse funds will be identified on a timely basis so they may be transferred internally to other needed services within the funded Provider agency, to the extent allowed by regulations and/or contractual restrictions, or transferred to a different agency to provide services within the contract year. Full policy can be found:

<http://sfbhn.org/policies/Master%20SFBHN%20Finance%20Procedures%20v22.pdf>

The total amount of local match is to be calculated in accordance with rule 65E-14.005(4), F.A.C., i.e., the total amount of local match is equal to the total amount of funds requiring local match divided by 3. The total amount of funds requiring local match is equal to the total DCF contract amount less the amount for mental health deinstitutionalization, Children's Mental Health appropriation category 100435, a specific amount of Community Mental Health Block Grant funds, and drug abuse funding as determined in SFBHN's Subcontractor Match Policy.

For the full policy on Subcontract Match, please see SFBHN's Policies and Procedures, Fiscal & Contracting Section, Policy: Subcontractor Match.

<http://sfbhn.org/policies/Master%20SFBHN%20Finance%20Procedures%20v22.pdf>

Southern Region SAMH Services Plan: District (Regional) Plan

SFBHN has developed and manages an integrated network of behavioral health services that is accessible and responsive to individuals in need of services, along with their families and community stakeholders. Support across all levels is necessary to ensure integration throughout the system of care. SFBHN is committed to managing a system of care that is supported by individuals served, families, community stakeholders, providers and other resources. SFBHN maintains Memorandum of Understandings (MOUs) or Consulting Agreements with multiple system partners to ensure integration of behavioral health with multiple systems. Partners include, but are not limited to: Our Kids or Miami Dade and Monroe Counties, Homeless Trust, Miami-Dade County Public Schools, Florida International University, Dependency Drug Court, Health Choice Network, Public Health Trust, and University of South Florida.

SFBHN's on-site monitoring is utilized to perform comprehensive programmatic reviews that will include employee background screening. For in-scope programs and cost centers, the on-site monitoring scope includes the following as applicable based on risk and materiality thresholds:

- Scope of service;
- Service tasks;
- Staffing requirements;
- Deliverables;
- Performance specifications;
- Network Service Provider responsibilities;
- Method of payment (service validation);
- Level 1 and 2 background screening, as applicable;
 - Screening exemptions or exclusions;
 - Attestations;
- Compliance with federal and state confidentiality laws;
- Compliance with the requirements and restrictions of the Block Grant funds, and accompanying maintenance of efforts requirements;
- State and federal grant programs;
- Compliance with specific appropriations, or GAA directed projects;

Southern Region SAMH Services Plan: District (Regional) Plan

- Compliance with TANF;
- Compliance with applicable provisions of Rule 65E-14, F.A.C.; and
- A 20% sample of case management records for residents of Assisted Living Facilities with Limited Mental Health Licenses to verify Cooperative Agreement and Community Living Support Plan requirements are being met.

Please see SFBHN's Network Management Plan located at <http://sfbhn.org/providers/policy-and-procedures/> for a full description on how network providers are managed and monitored for compliance with all regulatory requirements including legislative appropriations.

Regional Plan Requirements

The DCF Regional SAMH Director has ensured the Regional SAMH Services Plan conforms to the priorities in the State Plan and the standards adopted under this section. Strategies are in place for the review, management, and oversight of these priorities on an on-going basis as outlined in citation 10c.

The DCF Regional SAMH Program Office ensured that the most effective and economical use has been made of available public and private substance abuse and mental health resources in the region by continued oversight and management of the Managing Entity (South Florida Behavioral Health Network, Inc.). Also, the DCF Regional SAMH Program Office licenses over 359 substance abuse service components in 200 locations through monitoring reviews that are conducted every three years for accredited providers and annually for non-accredited providers. In addition, the DCF Regional SAMH Program Office designates nineteen (19) public and private Baker Act Receiving Facilities through oversight and monitoring every three years. All complaints are reviewed to determine that basis for an investigation for all public and private licensed substance abuse providers and public and private Baker Act Receiving Facilities.

The DCF SAMH Regional Program Office reviews, evaluates, provides oversight and technical assistance for the SAMH System of Care that is provided through the Managing Entity. This process ensures that quality and best practices are provided to individuals and families seeking services. Some of these reviews includes participation and oversight of quarterly reports/meetings, monthly progress reports, monitoring reports, Board meetings, CQI subcommittee meetings, monitoring, COU monitoring, Incident Reports as well as actions taken by the Managing Entity to ensure that issues are corrected.

The DCF Regional SAMH Director will request modifications in the regional plan as necessary to conform to updates that may need to occur as new priorities are

Southern Region SAMH Services Plan: District (Regional) Plan

established by DCF in Tallahassee. If there are any issues that need to be resolved at a higher level than the region, these issues will be submitted to the Director of SAMH in Tallahassee.

Funding allocated for behavioral health services in Miami-Dade and Monroe Counties is contracted through the Southern Region Managing Entity. Should there be a need for a modification to the funding allocation, a request is made through a formal budget amendment by the Managing Entity or the DCF SAMH Program Office, dependent upon the source of the request.

Regional priorities include, but are not limited to, the integration of Child Welfare, Coordination of Care, and the Forensic System. Appropriated funds through the Southern Region Managing Entity appropriations include the Pregnant Women and their Affected Families, the Family Intensive Treatment Teams (FIT), homeless services, and the Community Action Teams (CAT). Integration of this funding is coordinated through the DCF SAMH Regional Program Office and the Southern Regional Managing Entity.

AGENCY ISSUE NARRATIVE:

2016-2017 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: Expansion of Team Interventions to Prevent Out-of-Home Care for At-Risk Children

SPECIFY WHICH AGENCY GOAL FROM THE FISCAL YEARS 2016-2017 THROUGH 2020-2021 STRATEGIC PLAN IS ADDRESSED BY THIS BUDGET
 ISSUE PROPOSAL:

Goal 1: Protect the vulnerable people we serve.

Goal 3: Advance personal and family recovery and resiliency.

SUMMARY:

Pursuant to Special Appropriation 377G of the Fiscal Year 2015-16 General Appropriations Act (GAA), the Department of Children and Families (Department) is allocated funds for eighteen CAT teams to provide services in twenty-two counties across the state. Pursuant to Special Appropriation 377J of the Fiscal Year 2015-16 GAA, the Department is allocated funds for 11 existing FIT teams and additional teams in Broward County, Palm Beach County, and the Northwest Region (the number of teams to be determined).

The Department requests an additional \$6,550,000 in recurring General Revenue as follows:

-\$3,750,000 in the Mental Health Program for five additional CAT teams in communities that do not currently have them;
 and

-\$2,800,000 in the Substance Abuse Program to expand FIT teams in six additional counties that have high numbers of verified abuse and neglect reports related to substance misuse.

PROBLEM STATEMENT:

Over the past two years, the Florida Legislature has appropriated special funds for community-based team interventions for families with children who are at risk of out-of-home care in the child welfare, juvenile justice, and mental health systems. The goal of these interventions is to keep families together and provide them with the skills and tools to safely and effectively parent their children in the home. Two specific approaches have been implemented - the Community Action Treatment (CAT) teams and the Family Intensive Treatment (FIT) teams.

CAT Teams

AGENCY STRATEGIC PRIORITIES						4000000
EXPANSION OF TEAM INTERVENTIONS TO						
PREVENT OUT-OF-HOME CARE FOR						
AT-RISK CHILDREN						4005070

The CAT teams provide comprehensive, community-based services to children ages 11 to 21 with a mental health diagnosis or co-occurring substance abuse diagnosis with accompanying characteristics such as:

- being at-risk for out-of-home placement, as demonstrated by repeated failures at less intensive levels of care;
- having two or more hospitalizations or repeated failures;
- involvement with the Department of Juvenile Justice or multiple episodes involving law enforcement; or,
- poor academic performance and/or suspensions.

Children younger than age 11 may be candidates if they meet two or more of the aforementioned characteristics.

For children with serious mental health or co-occurring mental and substance use disorders, questions regarding the ineffectiveness and fragmentation of usual community-based mental health care for children and families nationally have been raised for decades and recent data reinforce these concerns. Furthermore, community-based services are not routinely tailored to align with the developmental needs of children and adolescents in a manner that supports positive youth development (See, <http://www.ncbi.nlm.nih.gov/pmc/articles/PMC3670677/>, Improving Community-Based Mental Health Care for Children: Translating Knowledge into Action. US National Library of Medicine National Institutes of Health, Site accessed July 23, 2015.)).

According to the National Institute of Mental Health (NIMH), half of all lifetime cases of mental health disorders have begun by age 14 and three quarters have begun by age 24 (See, <http://www.nih.gov/news/pr/jun2005/nimh-06.htm>, site accessed July 21, 2015.)). This means successful transition between the children and adult systems is critical. People with mental health disorders often fall through the gaps between the children and adult mental health systems during a critical time in their lives (See <http://www.nasmhpd.org/docs/publications/docs/2005/Expand%20Transition%20Supports.pdf>, Site accessed July 21, 2015.)). The transition years are the time of greatest vulnerability for young people with serious mental health conditions, as they are likely to have their highest levels of risk and challenge, including risk of arrest and criminal involvement and peaking substance use (See <http://www.pathwaysrtc.pdx.edu/>, Community-based Approaches for Supporting Positive Development in Youth and Young Adults with Serious Mental Illness. Site accessed July 21, 2015.)). Additionally, the typical age of onset for psychotic disorders comes during these transition years, and overall, adult mental health disorders have their highest rates of incidence in early adulthood (See <http://www.pathwaysrtc.pdx.edu/>, Community-based Approaches for Supporting Positive Development in Youth and Young Adults with Serious Mental Illness. Site accessed July 21, 2015.)).

Effectively addressing the needs of children, adolescents, and their families in the community-based mental health system requires innovative approaches to deliver coordinated, individually tailored, family-focused, and developmentally appropriate community-based services and supports to reduce the need for more restrictive levels of care.

FIT Teams

The FIT teams provide intensive team-based, family-focused, comprehensive services to families with parental substance

misuse in the child welfare system. Teams target communities with high rates of verified abuse reports related to substance abuse.

Findings of the Review of Child Fatalities Reported to the Florida Department of Children and Families (2013), completed by the Casey Family Programs, indicated that the sample of child deaths reviewed in Florida reflected trends commonly identified in studies of child maltreatment deaths, such as parental substance abuse, chronic mental health problems, and domestic violence (See, http://www.dcf.state.fl.us/newsroom/pressreleases/docs/20131105_NovCaseyReport.pdf, site accessed July 21, 2015.). In the sample reviewed, 90 percent of deceased children were under the age of five. Further findings indicated that the safety assessment completed during investigations did not adequately explore domestic violence, substance abuse, and other family dynamics that increase risk to children. Nationally, research indicates that children are more likely to experience abuse and neglect when parents abuse alcohol or drugs (Dube, S. R., Anda, R. F., Felitti, V. J., Croft, J. B., Edwards, V. J., and Giles, W. H. (2001). Growing up with parental alcohol abuse: Exposure to childhood abuse, neglect, and household dysfunction. Child Abuse and Neglect, 25, 1627-1640.). Furthermore, once maltreatment is verified, children of parents who abuse alcohol or drugs are more likely to be placed in out-of-home care and stay in care longer than other children (Barth, R., Gibbons, C., and Guo, S. (2006). Substance abuse treatment and the recurrence of maltreatment among caregivers with children living at home: A propensity score analysis. Journal of Substance Abuse Treatment, 30(2), 93-104.). In 2012, the reason for removal of almost 31 percent of children placed in foster care was parental substance use (National Data Archive on Child Abuse and Neglect. (2012). Adoption and Foster Care Analysis Reporting System. Ithaca, NY).

Each segment of the service system generally operates independently and the interrelationship of disparate services and family dynamics are not fully appreciated or addressed. For example, several different providers may be working with different family members without appropriate collaboration around assessments, treatment planning and desired outcomes, not only for the individual, but also for the family.

In order to better serve families, the FIT team model uses a different approach with designated services at the correct level of treatment and necessary supports for parents and family members; concentrates on the family as a focus for treatment; and integrates treatment for substance use disorders, parenting interventions, and coordination of services received by all family members regardless of the funding source. The FIT Team model delivers services to parents who have at least one child between the ages of 0 and 10 who has been determined unsafe.

WHAT BENEFITS WILL BE OBTAINED BY FUNDING THIS ISSUE:

CAT Teams

The Center for Community Support and Research at Wichita State University conducted a literature review of best practices in children's mental health that lead to good outcomes (T. Gregory, D. Peltier, C. Vu, O. Dziadkowiec, E. Grant, T.

Shagott, and S. Wituk, Children's Mental Health Best Practices Literature Review, Wichita State University, Center for Community Support and Research, 2009. See, <http://hcfgkc.org/sites/default/files/documents/hcf-wsu-children-mental-illness.pdf>, site accessed July 15, 2015.). The CAT model includes several of these practices to include:

- Collaboration with the child and family;
- Collaboration with others, to include the multidisciplinary team approach to assessment and service delivery;
- Accessible services;
- Most appropriate setting for service delivery, to include the home, school, community and work location;
- Timeliness of accessing services and supports;
- Services tailored to the child, youth and family; and
- Connection to natural supports.

Statewide CAT outcomes and program information for Fiscal Year 2014-15 are summarized below.
Program Information

- A total of 1,263 youth and their families received CAT services.
- A primary goal of the CAT program is to provide services and supports to children and youth with mental health conditions who are at risk of placement outside the home. Of the 695 youth discharged during Fiscal Year 2014-15:
- 88% were discharged from services while living in the community;
- 2% were discharged due to removal from the home by child welfare;
- 7% were discharged due to admission to a residential mental health treatment center; and
- 3% were discharged due to a juvenile justice commitment.

Contract Performance Measures

- Individuals receiving services shall attend an average of 80% percent of school days.
- 100% of CAT providers met this performance measure
- 80% of individuals receiving services shall improve their level of functioning between admissions to discharge.
- 93.8% of CAT providers met this performance measure
- Individuals served will spend a minimum of 90% of days living in a community setting
- 100% of CAT providers met this performance measure
- 65% of the individuals and primary caregivers receiving services shall demonstrate a decrease in level of stress between admission and discharge
- 100% of CAT providers met this performance measure

FIT Teams

The desired outcomes of the FIT team model include the following:

- Decreased parental substance abuse,

- Increased safety and reduced risks for children,
- Increased parental protective capacity, and
- Reduced rates of re-abuse and neglect of children with parents with a substance use disorder.

There are currently 11 FIT teams operational who have served a total of 585 parents. The Department is currently working with the Managing Entities to expand FIT teams in three areas in Florida: Broward County, Palm Beach County, and the Northwest Region.

WHAT UNDERLYING PROGRAM THEORY CHANGE IS INVOLVED IN THIS ISSUE (IF ANY):

In 2003, the New Freedom Commission on Mental Health released a report entitled Achieving the Promise: Transforming Mental Health Care in America , which identified gaps in the mental health system (See, <http://govinfo.library.unt.edu/mentalhealthcommission/reports/FinalReport/downloads/FinalReport.pdf>, site accessed July 15, 2015.). This report made recommendations to fundamentally transform the mental health system through community-based services and supports that promote recovery (Recovery is defined by SAMHSA as a process of change through which individuals improve their health and wellness, live a self-directed life, and strive to reach their full potential. See, <http://www.samhsa.gov/newsroom/advisories/1112223420.aspx>, site accessed July 15, 2015.) and resilience (Resilience is defined by SAMHSA as the ability to adapt well over time to life-changing situations and stressful conditions See, <http://www.samhsa.gov/children/trauma-resilience-definitions.asp>, site accessed July 15, 2015.) to assist individuals with mental illness to live successfully in the community. This also holds true for persons with substance use disorders, where a recovery oriented system of care focuses on the individual and their family, with a comprehensive array of services that can be adjusted to meet an individual's needs and chosen pathway to recovery (See, <http://www.nattc.org/learn/topics/rosch/whatarerosc.asp>, site accessed July 31, 2015.).

The CAT and FIT models are examples of innovative and comprehensive service approaches that provide community-based, flexible services and supports to young people with mental illnesses who are at risk or out-of-home placements to assist them to remain successfully in the community with their family/caregivers and to parents who come into contact with child welfare as a result of substance misuse.

WHAT IMPLEMENTATION MECHANISMS WILL BE CHANGED AS A RESULT OF THIS ISSUE (IF ANY):

This action will add funding to the existing allocation for CAT and FIT to expand current program capacity by targeting communities that do not currently have them. The additional teams will serve the following communities/counties:

- CAT Team 1 Leon, Gadsden, Wakulla
- CAT Team 2 Columbia, Suwannee, Hamilton, Lafayette, Dixie
- CAT Team 3 Volusia
- CAT Team 4 Palm Beach
- CAT Team 5 Broward

FLORIDA STRATEGIC PLAN FOR ECONOMIC DEVELOPMENT:

24. Support and sustain statewide and regional partnerships to accomplish Florida's economic and quality of life goals.

RETURN ON INVESTMENT:

Serving youth in foster care, residential mental health treatment, and juvenile justice programs is typically more expensive than serving them in the community behavioral health system. For example, the daily rate for Medicaid funded Statewide Inpatient Psychiatric Program (SIPP) is \$408.00, with an average length of stay of six months, totaling to \$71,808 for a six-month treatment episode.

For CAT teams, the average cost per child and family served in Fiscal Year 2014-15 was \$778.00 per month and \$9,336.00 for the total cost of treatment. In addition to the financial return on investment, the CAT teams focus on keeping young people at home with their families and connected to their communities. This includes school attendance, successful transition to adulthood, and involvement in gainful activities that lead to career exploration and employment. Some of the communities identified to receive a new CAT team are rural, which historically have experienced increased difficulty accessing behavioral health services and supports.

The FIT team model of treatment answers the Governor and Legislature's call to provide data-driven, result focused treatment to families in an innovative and comprehensive manner. In order to determine return on investment, FIT teams are collecting data through an expanded data set, to accurately measure the effectiveness of treatment being provided. As the FIT team model of treatment continues to grow and more families are receiving services, more data will be collected to accurately determine the model's success.

COST CALCULATIONS:

The \$3,750,000 expansion request for CAT teams is based on the historical allocation of \$750,000 per CAT team, as prescribed in the Special Appropriation 377G of the Fiscal Year 2015-16 GAA. Based on the number of families served in Fiscal Year 2014-15 and the number of CAT teams, it is estimated that an additional 395 families will be served annually.

-The cost of each new team is \$750,000 X 5 new teams = \$3,750,000.

-1,263 families served 16 CAT teams = an average of 79 families served per team. Five (5) CAT teams x 79 families = 395

To identify need for additional FIT teams, the Department used Substance Misuse-Verified abuse report data to identify

AGENCY ISSUE NARRATIVE:

2016-2017 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: Expansion of Team Interventions to Prevent Out-of-Home Care for At-Risk Children

SPECIFY WHICH AGENCY GOAL FROM THE FISCAL YEARS 2016-2017 THROUGH 2020-2021 STRATEGIC PLAN IS ADDRESSED BY THIS BUDGET
 ISSUE PROPOSAL:

Goal 1: Protect the vulnerable people we serve.

Goal 3: Advance personal and family recovery and resiliency.

SUMMARY:

Pursuant to Special Appropriation 377G of the Fiscal Year 2015-16 General Appropriations Act (GAA), the Department of Children and Families (Department) is allocated funds for eighteen CAT teams to provide services in twenty-two counties across the state. Pursuant to Special Appropriation 377J of the Fiscal Year 2015-16 GAA, the Department is allocated funds for 11 existing FIT teams and additional teams in Broward County, Palm Beach County, and the Northwest Region (the number of teams to be determined).

The Department requests an additional \$6,550,000 in recurring General Revenue as follows:

-\$3,750,000 in the Mental Health Program for five additional CAT teams in communities that do not currently have them;
 and

-\$2,800,000 in the Substance Abuse Program to expand FIT teams in six additional counties that have high numbers of verified abuse and neglect reports related to substance misuse.

PROBLEM STATEMENT:

Over the past two years, the Florida Legislature has appropriated special funds for community-based team interventions for families with children who are at risk of out-of-home care in the child welfare, juvenile justice, and mental health systems. The goal of these interventions is to keep families together and provide them with the skills and tools to safely and effectively parent their children in the home. Two specific approaches have been implemented - the Community Action Treatment (CAT) teams and the Family Intensive Treatment (FIT) teams.

CAT Teams

AT-RISK CHILDREN						4005070

The CAT teams provide comprehensive, community-based services to children ages 11 to 21 with a mental health diagnosis or co-occurring substance abuse diagnosis with accompanying characteristics such as:

- being at-risk for out-of-home placement, as demonstrated by repeated failures at less intensive levels of care;
- having two or more hospitalizations or repeated failures;
- involvement with the Department of Juvenile Justice or multiple episodes involving law enforcement; or,
- poor academic performance and/or suspensions.

Children younger than age 11 may be candidates if they meet two or more of the aforementioned characteristics.

For children with serious mental health or co-occurring mental and substance use disorders, questions regarding the ineffectiveness and fragmentation of usual community-based mental health care for children and families nationally have been raised for decades and recent data reinforce these concerns. Furthermore, community-based services are not routinely tailored to align with the developmental needs of children and adolescents in a manner that supports positive youth development (See, <http://www.ncbi.nlm.nih.gov/pmc/articles/PMC3670677/>, Improving Community-Based Mental Health Care for Children: Translating Knowledge into Action. US National Library of Medicine National Institutes of Health, Site accessed July 23, 2015.)).

According to the National Institute of Mental Health (NIMH), half of all lifetime cases of mental health disorders have begun by age 14 and three quarters have begun by age 24 (See, <http://www.nih.gov/news/pr/jun2005/nimh-06.htm>, site accessed July 21, 2015.)). This means successful transition between the children and adult systems is critical. People with mental health disorders often fall through the gaps between the children and adult mental health systems during a critical time in their lives (See <http://www.nasmhpd.org/docs/publications/docs/2005/Expand%20Transition%20Supports.pdf>, Site accessed July 21, 2015.)). The transition years are the time of greatest vulnerability for young people with serious mental health conditions, as they are likely to have their highest levels of risk and challenge, including risk of arrest and criminal involvement and peaking substance use (See <http://www.pathwaysrtc.pdx.edu/>, Community-based Approaches for Supporting Positive Development in Youth and Young Adults with Serious Mental Illness. Site accessed July 21, 2015.)). Additionally, the typical age of onset for psychotic disorders comes during these transition years, and overall, adult mental health disorders have their highest rates of incidence in early adulthood (See <http://www.pathwaysrtc.pdx.edu/>, Community-based Approaches for Supporting Positive Development in Youth and Young Adults with Serious Mental Illness. Site accessed July 21, 2015.)).

Effectively addressing the needs of children, adolescents, and their families in the community-based mental health system requires innovative approaches to deliver coordinated, individually tailored, family-focused, and developmentally appropriate community-based services and supports to reduce the need for more restrictive levels of care.

FIT Teams

The FIT teams provide intensive team-based, family-focused, comprehensive services to families with parental substance

- Increased parental protective capacity, and
- Reduced rates of re-abuse and neglect of children with parents with a substance use disorder.

There are currently 11 FIT teams operational who have served a total of 585 parents. The Department is currently working with the Managing Entities to expand FIT teams in three areas in Florida: Broward County, Palm Beach County, and the Northwest Region.

WHAT UNDERLYING PROGRAM THEORY CHANGE IS INVOLVED IN THIS ISSUE (IF ANY):

In 2003, the New Freedom Commission on Mental Health released a report entitled Achieving the Promise: Transforming Mental Health Care in America , which identified gaps in the mental health system (See, <http://govinfo.library.unt.edu/mentalhealthcommission/reports/FinalReport/downloads/FinalReport.pdf>, site accessed July 15, 2015.). This report made recommendations to fundamentally transform the mental health system through community-based services and supports that promote recovery (Recovery is defined by SAMHSA as a process of change through which individuals improve their health and wellness, live a self-directed life, and strive to reach their full potential. See, <http://www.samhsa.gov/newsroom/advisories/1112223420.aspx>, site accessed July 15, 2015.) and resilience (Resilience is defined by SAMHSA as the ability to adapt well over time to life-changing situations and stressful conditions See, <http://www.samhsa.gov/children/trauma-resilience-definitions.asp>, site accessed July 15, 2015.) to assist individuals with mental illness to live successfully in the community. This also holds true for persons with substance use disorders, where a recovery oriented system of care focuses on the individual and their family, with a comprehensive array of services that can be adjusted to meet an individual's needs and chosen pathway to recovery (See, <http://www.nattc.org/learn/topics/rosc/whatarerosc.asp>, site accessed July 31, 2015.).

The CAT and FIT models are examples of innovative and comprehensive service approaches that provide community-based, flexible services and supports to young people with mental illnesses who are at risk or out-of-home placements to assist them to remain successfully in the community with their family/caregivers and to parents who come into contact with child welfare as a result of substance misuse.

WHAT IMPLEMENTATION MECHANISMS WILL BE CHANGED AS A RESULT OF THIS ISSUE (IF ANY):

This action will add funding to the existing allocation for CAT and FIT to expand current program capacity by targeting communities that do not currently have them. The additional teams will serve the following communities/counties:

- CAT Team 1 Leon, Gadsden, Wakulla
- CAT Team 2 Columbia, Suwannee, Hamilton, Lafayette, Dixie
- CAT Team 3 Volusia
- CAT Team 4 Palm Beach
- CAT Team 5 Broward

FLORIDA STRATEGIC PLAN FOR ECONOMIC DEVELOPMENT:

24. Support and sustain statewide and regional partnerships to accomplish Florida's economic and quality of life goals.

RETURN ON INVESTMENT:

Serving youth in foster care, residential mental health treatment, and juvenile justice programs is typically more expensive than serving them in the community behavioral health system. For example, the daily rate for Medicaid funded Statewide Inpatient Psychiatric Program (SIPP) is \$408.00, with an average length of stay of six months, totaling to \$71,808 for a six-month treatment episode.

For CAT teams, the average cost per child and family served in Fiscal Year 2014-15 was \$778.00 per month and \$9,336.00 for the total cost of treatment. In addition to the financial return on investment, the CAT teams focus on keeping young people at home with their families and connected to their communities. This includes school attendance, successful transition to adulthood, and involvement in gainful activities that lead to career exploration and employment. Some of the communities identified to receive a new CAT team are rural, which historically have experienced increased difficulty accessing behavioral health services and supports.

The FIT team model of treatment answers the Governor and Legislature's call to provide data-driven, result focused treatment to families in an innovative and comprehensive manner. In order to determine return on investment, FIT teams are collecting data through an expanded data set, to accurately measure the effectiveness of treatment being provided. As the FIT team model of treatment continues to grow and more families are receiving services, more data will be collected to accurately determine the model's success.

COST CALCULATIONS:

The \$3,750,000 expansion request for CAT teams is based on the historical allocation of \$750,000 per CAT team, as prescribed in the Special Appropriation 377G of the Fiscal Year 2015-16 GAA. Based on the number of families served in Fiscal Year 2014-15 and the number of CAT teams, it is estimated that an additional 395 families will be served annually.

-The cost of each new team is \$750,000 X 5 new teams = \$3,750,000.

-1,263 families served 16 CAT teams = an average of 79 families served per team. Five (5) CAT teams x 79 families = 395

To identify need for additional FIT teams, the Department used Substance Misuse-Verified abuse report data to identify

Florida Department of Children and Families Behavioral Health Catalog of Care Process and Caveats October 2015 Update

The Florida Department of Children and Families' Behavioral Health Catalog of Care (Catalog) is a point-in-time listing of behavioral health services funded through the Office of Substance Abuse and Mental Health (SAMH) via Behavioral Health Managing Entities (MEs). The Catalog only captures covered services as provided in Chapter 65E-14.021, F.A.C. As such, the Catalog does not capture all programs funded through Legislative appropriations and discretionary grant programs.

To collect data populating the Catalog, templates were sent to each ME for completion. Once the templates were returned, SAMH headquarters staff reviewed and validated data in terms of compliance with the financial rule and data analysis purposes. Each ME Catalog was then returned to the ME for verification. Once the verified copy was returned to SAMH, they were combined to create the Statewide Catalog of Care. Efforts to increase reliability of the Catalog included conference and one-on-one calls with SAMH Regional Contract Managers and ME representatives, distribution of applicable administrative rules, and internal review of the format to assess usability. The caveats listed below should be considered when using the catalog.

Caveats

1. All information presented in the Catalog is reported by the MEs to the Department. Department edits were for consistency purposes only and based on the Community Substance Abuse and Mental Health Services Rules (ch. 65E-14.021, F.A.C. - Schedule of Covered Services).
2. The Catalog is a point-in-time reference tool, depicting the Department-funded behavioral health care services as of October 2015. MEs are provided flexibility in funding to ensure the availability of services depending on assessed need at any given time. As a result, the Program Contract amounts and SAMH Funded Capacity may change over time.
3. The total sum of all managing entity contract values may appear underreported. The Catalog reports a total statewide program contracted value of \$488,158,256. According to the September 17, 2015 Managing Entity Schedule of Funds, allocations to the MEs for behavioral health services total \$563,107,679. This may be attributed to grants and programs which are funded, but not reported in terms of contracted services (i.e., discretionary federal grants, residential treatment allocations for children, etc.).
4. The "Total Contracted Per Program" and the "Program Contracted Per Service" (columns E and F respectively) differ by \$7.2 million. Some provider contracted amounts may not be assigned to a particular service during the production of the October Catalog; as a result, column E would be higher than column F.
5. When examining service capacity, the user should be mindful of anomalies that may skew the results of a data query. Common anomalies are often the result of providers reporting of capacity in terms of beds versus bed days, staff versus staffing hours and provider variation in terms of methodology for calculating service units. The Department made every attempt to identify and eliminate such anomalies.
6. Some provider contracts are "zero dollar" contracts. This means contract funding is based upon actual service utilization and is not pre-determined. The cost associated with providing services is reimbursed subsequent to the actual delivery of services. This will have an impact on analysis of contracted service funding and capacity.

Appendix V

SAMH-FUNDED CONTRACT SUMMARY

Department of Children and Families Substance Abuse and Mental Health Contracts FY 2015-16					
Contract #	Management Region	Provider	Contract Lifetime Funding	Fiscal Year 2015-16 Funding	Service Type
