

PROJECT **S.A.F.E.**

Smoke Alarms
for Everyone

More than 3,000 people die in home fires every year. Many of these deaths occur in homes without working smoke alarms. If you live in unincorporated Hillsborough County, and do not currently have a working smoke alarm,

HCFR will install them for you at no cost.

The majority of fatal home fires happen at night, when people are asleep. Contrary to popular belief, the smell of smoke may not wake a sleeping person. The poisonous gases and smoke produced by a fire can numb the senses and put you into a deeper sleep. Smoke detectors sound an alarm, alerting you to a fire. By giving you time to escape, smoke detectors cut your families risk of dying in a home fire nearly in half. To keep your family safe, contact us to participate in Project S.A.F.E.
