

In-Home Safety Analysis

Determine feasibility of an in-home safety plan given household conditions and dynamics using the 5 criteria as conditions for an in-home safety plan.

Criteria #1

The parents/legal guardians are willing for an in-home safety plan to be developed and implemented and have demonstrated that they will cooperate with all identified safety service providers.

Criteria #2

The home environment is calm and consistent enough for an in-home safety plan to be implemented and for safety service providers to be in the home safely.

Criteria #3

Safety services are available at a sufficient level and to the degree necessary in order to manage the way in which impending danger is manifested in the home.

Criteria #4

An in-home safety plan and the use of in-home safety management services can sufficiently manage impending danger without the results of scheduled professional evaluations.

Criteria #5

The parents/legal guardians have a physical location in which to implement an in-home safety plan.
