SUBJECT: 'GO' for FSFN Enhancements deploying on January 29, 2021

PURPOSE: The purpose of this memorandum is to inform child welfare stakeholders of the Florida Safe Families Network (FSFN) enhancements are approved for implementation on January 29, 2021. The FSFN system will be unavailable from 10:00 P.M. to 11:00 P.M. to deploy these enhancements.

BACKGROUND: On December 22, 2020, a 'Get Ready' memo provided an announcement of changes coming to FSFN in January. These changes enable the department to implement policy and practice changes to support the implementation of the Family First Prevention Services Act (FFPSA). These changes include:

- Expanded documentation of mental health evaluations, including evaluations for placement in a Qualified Residential Treatment Placement (QRTP) and Comprehensive Behavioral Health Assessments (CBHAs),
- Data collection of CBHAs,
- Documentation of 'Family Made Arrangements,'
- Streamlined documentation of Legal Case and Legal Custody status,
- Case plan templates that align Caregiver, Case Manager, and Parent responsibilities with those outlined in Chapter 2020-138, Laws of Florida (HB 1105),
- Real-time query of FSFN for Law Enforcement officers via FCIC (coming February 4, 2021),
- Notifications of calls to the Hotline that are screened out, and
- Notifications to Children's Legal Services workers to prompt court notification.

For a more detailed overview of all enhancements in January's release, please see the attached "FSFN Enhancements-January" document.

There is a continuous effort to assess and achieve people readiness, system readiness, and support plan readiness prior to providing approval for going live with system changes. Our current status is as follows:

1317 Winewood Boulevard, Tallahassee, Florida 32399-0700

PEOPLE READINESS: Ready! – The changes included within this release require training for the following stakeholder groups:

- Community-Based Care Lead Agencies (CBCs) and Case Management Agencies
- Child Protective Investigators and Sheriff Offices Conducting Child Protective Investigations
- Placement Specialists
- Quality Office Staff
- Guardian Ad Litem
- Single Point of Access (SPOA) serving as contacts for Qualified Evaluators

Training for Trainers will be conducted in three sets of 2-day sessions (half-day) with attendance from representatives within the identified regions on the following dates:

- February 22 & 23 – Northwest & Suncoast
- February 25 & 26 – Central & Northeast
- March 1 & 2 – Southeast & Southern

To ensure adequate training and support, each agency (i.e., DCF Region, CBC, and Sheriff Office Conducting Child Protective Investigations) must complete and submit a **Training Readiness Plan** to their Regional Champion. The goal of the training plan is to document how each agency will train impacted staff on the upcoming changes. If your agency needs support to complete the Training Readiness Plan or register for training, please contact your Regional Champion.

Prior to being trained, users should be aware of the following expectations regarding using or not using the new functionality:

- The new Comprehensive Placement Assessment page should not be created or utilized.
- The new method for documenting Mental Health evaluations should only be utilized for documenting CBHAs. This new section will replace the current field for documenting 'Last CBHA date'
 - Any date previously documented within this field will be inserted as a new row within the Evaluation Information group box.
 - Additional CBHA completions should be entered into the new 'Evaluation Information' group box by clicking the 'Insert' button and entering applicable fields. Users will scroll down on the page to locate this 'Insert' button.
- Case Managers will begin receiving automated messages after someone contacts the Hotline with concerns for someone on their caseload that is not accepted for investigation. This notification should prompt a review of the intake, including these reported concerns to determine follow-up actions needed.
- References to Rapid Safety Feedback will be changed to reflect Quality Review. This includes displays on FSFN screens and within automated messages.
- Utilizing the new label of 'Family Made Arrangements' on living arrangements should not be completed until after training.

SYSTEM READINESS: Ready! – User acceptance testing of the January 22 release was successfully completed on January 5. The recent production issue with Imaging and Audit files is resolved and the system is stable.

Testing continues on the new FCIC query scheduled for deployment in February. This new query will allow FCIC users to query FSFN to determine if someone is the subject of a child abuse investigation or a parent/caregiver of a child under in-home supervision.

SUPPORT PLAN READINESS: **Ready!** – Post-deployment support will include daily calls for the two weeks following deployment to evaluate and respond to any issues. The support team will include members from the Office of Child Welfare Policy and Practice, Office of Information Technology Services, and IBM teams.

ACTION REQUESTED: Notify the workforce that FSFN enhancements will be released on Friday, January 29, 2021, finalize your Training Readiness Plan, register for the upcoming training, and ensure awareness of the utilization expectations for new functionality prior to completing the training.
