Objectives

When you complete this session, you will be able to:

- Explain the Guardianship Assistance Program (GAP), including eligibility and benefits.
- Describe Permanent Guardianship and apply FSFN process.
- Explain GAP and GAA Termination and how it is processed in FSFN

Guardianship Assistance Program

Guardianship Assistance Program (GAP) Overview:

- A Title IV-E benefits program that is available to relatives and fictive kin who commit to caring for a child long term
 - Offers financial assistance and other services, such as Medicaid, to the children and their relatives
 - Strengthens permanency for children discharged to permanent guardianship
-
-
-
-

Guardianship Assistance Program (GAP) Benefits

GAP benefits are:

- Monthly payments of \$333 for support of the child,
- Medicaid benefits until 18 years of age (or 21 if eligible for Extension of Guardianship Assistance Program),
- Tuition and fee exemptions,
- Available for children who are living out-of-state,
- One-time payment to assist with the costs of establishing permanent guardianship (\$2000 non-recurring).

The child and guardian may be eligible for these benefits even if they live out-of-state. This is different from the relative/nonrelative caregiver program which requires families to reside in the state of Florida to receive benefits.

Guardianship Assistance Program (GAP) Eligibility Overview

Child is placed with a relative or fictive kin.

Child is eligible for foster care board payments with relative/fictive kin for at least 6 consecutive months.

Case plan includes required language.

Guardian enters into a Guardianship Assistance Agreement for the child.

Court discharges the child with the guardian as a permanent guardianship.

To be eligible for GAP, a child must be placed with a relative or fictive kin, and the child must be eligible to receive foster care board payments for at least 6 consecutive months with the current caregiver.

Florida Statutes requires that Child Welfare Professionals must include the required language (Ch. 39.6225 – 10(a-g)) in the Permanent Guardianship Case Plan for a family to be eligible for GAP benefits.

The caregiver must also enter into a Guardianship Assistance Agreement for the child prior to the case closing and the court discharging the child to permanent guardianship.

Fictive Kin

Relatives

A person who is related by the whole or half-blood, by affinity, or by adoption.

- Grandparent
- Great-grandparent
- Sibling
- First cousin
- Aunt, uncle
- Great-aunt, great-uncle
- Niece or nephew

Fictive Kin

An individual who is unrelated to the child by either birth or marriage but has such a close emotional relationship with the child that he or she may be considered part of the family.

- Godparents
- Close family friends

Non-Relatives

An individual who is unrelated to the child either by birth or marriage but has an existing relationship with the child or the family. This may include;

- Teachers
- Neighbors
- Coaches
- People outside of 5 degree

One eligibility requirement for the GAP program is the placement of the child with a relative or fictive kin.

A **relative** is defined as a person who is related by whole or half-blood, by affinity, or by adoption. Examples include grandparents, great-grandparents, siblings, first cousins, aunts, uncles, great-aunts, great-uncles, nieces, or nephews.

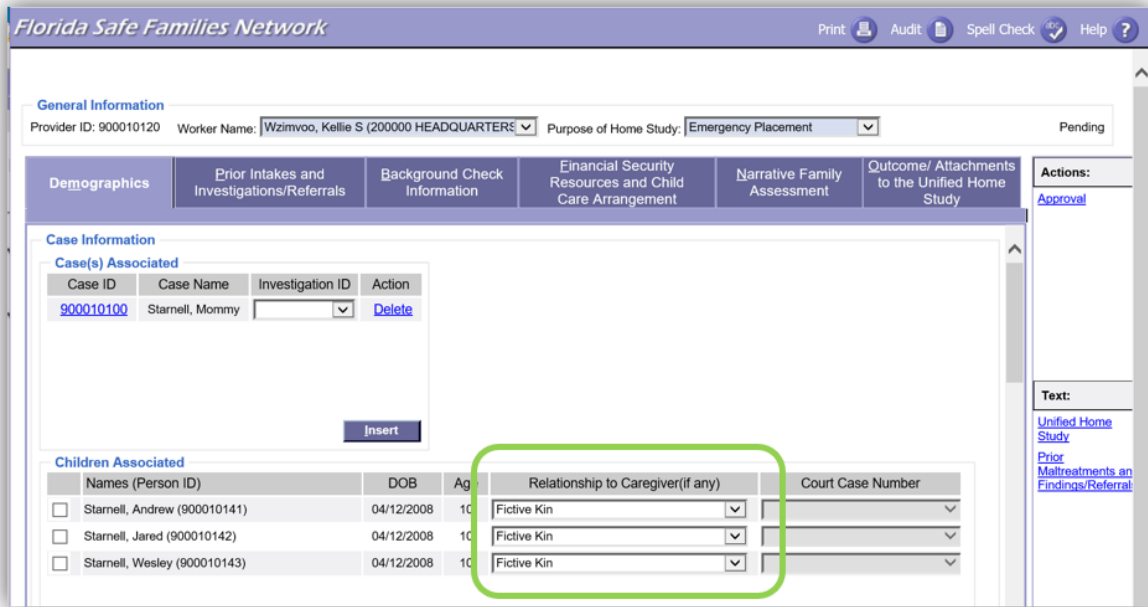

Fictive kin is a relatively new term. It is defined as an individual who is unrelated to the child by either birth or marriage but has such a close emotional relationship with the child that he or she may be considered part of the family. Fictive kin can be godparents or a close family friend.

A **non-relative** is defined as an individual who is unrelated to the child either by birth or marriage but has an existing relationship with the child or family. This could include: teachers, neighbors, coaches, and people outside of 5 degrees.

The difference between fictive kin and non-relative is the degree of relationship between the caregiver and the child. If the child has a close relationship, the caregiver is considered a fictive kin. If the relationship is not close, the caregiver is considered a non-relative. A caregiver can be initially considered a non-relative and changed to fictive kin if the child and caregiver build a close relationship over time.

Documenting Fictive Kin in FSFN

Unified Home Study-Relationship to Caregiver

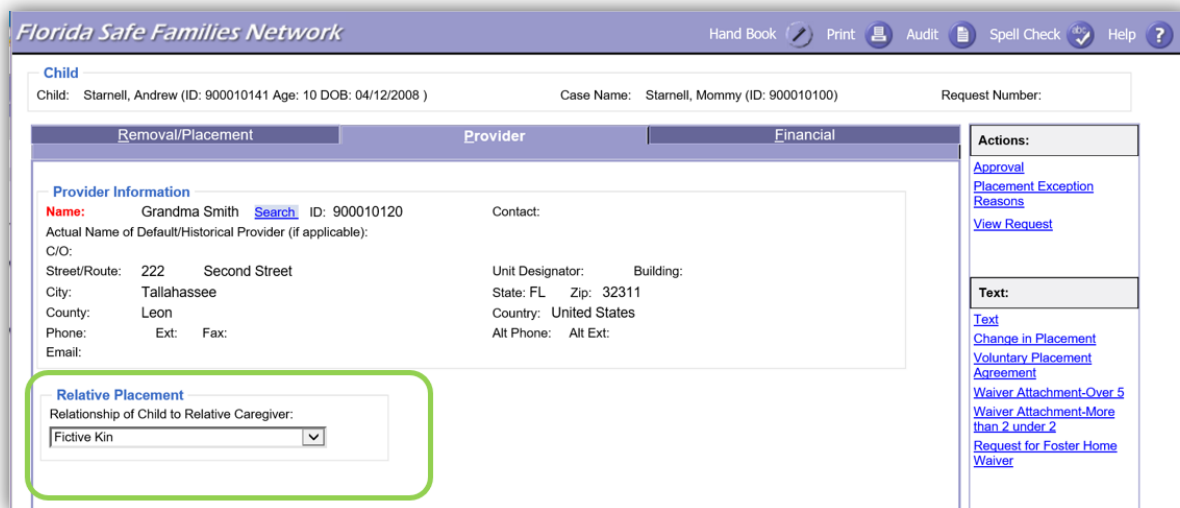

The Demographics tab of the Unified Home Study allows for Fictive Kin and Non-Relative in the “Relationship to Caregiver (if any)” drop down in the Children Associated group box.

You can use the Demographics tab from the Unified Home Study to assign caregivers to the child using the drop-down menu. This page also captures additional household members and non-household members older than 12 years old. In this page, you can also see the child’s current and previous caregivers (from the Initiated Date).

This box populates with all “active” Case Participants, who have a Service Role on Maintain Case of Child Receiving Services and are under the age of 18.

The values for “Relationship to Caregiver (if any)” field are consistent with those currently captured in the “Relationship to Caregiver” drop down on the Provider tab of the Out-of- Home Placement page. If the value is available, the field on the Out of Home Placement page pre-fills from the UHS when the child is placed with this specific caregiver.

Out of Home Placement-Relationship to Caregiver

The Provider Tab of the Out of Home Placement page allows for documentation of Fictive Kin in the Relative Placement group box.

The Provider tab consists of two group boxes:

- Provider Information
- Relative Placement information

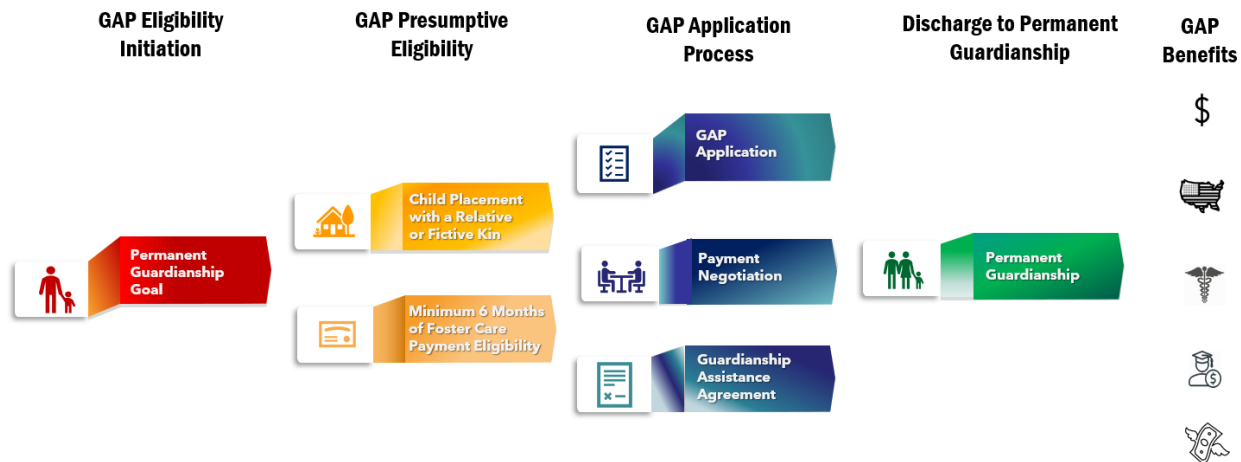

In the Relative Placement group box, the Relationship of Child to Relative Caregiver field provides additional functionality for users to document the child’s relationship to the relative provider. This field, which contains a drop-down list of relationship values for selection, is required for relative placements.

If the Placement Setting is Foster Family Home (Relative), the Relationship to Caregiver field drop down pre-fills from the UHS associated with the person provider with whom the child is being placed.

The pre-filling is system derived in the following manner:

- If the “Relationship to Caregiver” is documented on the Unified Home Study page, for the searched and selected Provider on the Out of Home Placement page, for the particular child who is being placed, the Relationship of Child to Relative Caregiver is pre-filled.
- Therefore, if the user selects a value from the Relationship of Child to Relative Caregiver drop down prior to searching and selecting the applicable Person Provider, but upon searching and selecting the applicable Person Provider there is a documented “Relationship to Caregiver” on an associated Unified Home Study, the value is pre-filled. The previously selected value is overridden but remains user modifiable.
- If there is more than one Unified Home Study documented for the same child to provider (e.g., for a relicensing home study), the system pre-fills the drop down using

GAP Eligibility

GAP Eligibility has four stages with different tasks associated to each stage. The first stage is GAP Eligibility Initiation. Here, either the primary goal has changed to permanent guardianship, or a concurrent goal of permanent guardianship has been added.

The second stage is GAP Presumptive Eligibility. In this stage, the child must be placed with a relative or fictive kin, and the caregiver is eligible for at least 6 months of foster care board payment. During the presumptive eligibility stage, no legal document is required.

Once stage 1 and 2 requirements are met, the relative or fictive kin completes the GAP Application. Then, the relative and the child welfare professional negotiate the payment. The child welfare professional then finalizes the Guardianship Assistance Agreement.

During the last stage, the court discharges the child to permanent guardianship and the relative or fictive kin will be eligible for GAP benefits on behalf of the child.

GAP Eligibility Initiation

- Court accepts the primary or concurrent goal of permanent guardianship.
- Within 30 days of a goal change to permanent guardianship or addition of a concurrent goal of permanent guardianship, presumptive eligibility must be completed on the child in licensed care with a relative or fictive kin.
- Child Welfare Professional initiates GAP eligibility process in FSFN.

GAP Presumptive Eligibility

Once permanent guardianship becomes the primary or concurrent goal, the Child Welfare Professional responsible for GAP will need to confirm and document in FSFN that:

- The child is placed with a relative or fictive kin.
- The relative or fictive kin is eligible for foster care board payments for the child for at least 6 consecutive months.

Once the Child Welfare Professional responsible for GAP confirms the permanent guardianship goal, placement with relative or fictive kin, and that they were eligible for a minimum of 6 months of foster care payments, they will need to create a Guardianship Assistance Agreement (GAA) page in FSFN.

The child welfare professional should then contact the revenue maximization staff at the CBC within 15 calendar days to review the Title IV-E eligibility status.

Required Case Plan Language

Case managers must document the following in the case plan (Ch. 39.6225 F.S.):

Ch. 39.6225 F.S., requires that a permanent guardianship case plan is completed with the required language.

Case managers were already including some of the required information in their permanent guardianship case plans:

- **Appropriate Permanency:** The manner in which the department determined that reunification or adoption is not appropriate.
- **Adoption Discussion with Guardian:** Efforts to discuss adoption with the child's permanent guardian.
- **Appropriate Placement:** The reasons why a permanent placement with the prospective relative is in the best interest of the child.
- **Siblings:** The reasons why the child is separated from his or her siblings during placement, if applicable.

These items are statutorily required per Ch. 39.6221 F.S. to achieve permanency with Permanent Guardianship. Three additional items are required for the child to qualify for GAP:

- **Program Eligibility:** The manner in which the child meets program eligibility requirements.
 - The child is placed with a relative or fictive kin.
 - The caregiver is a licensed foster home and is eligible for at least 6 consecutive months of foster board payment.
- **GAP Discussion with Parents:** The efforts to discuss guardianship assistance with the child's parent or the reasons why efforts were not made.
 - Describe permanent guardianship to the parents
 - Discuss GAP and the possibility of reopening the case
 - Explain the Guardianship Assistance Program benefits
- **The Effort to Consult the Child:** The efforts to consult the child, if the child is 14 years of age or older, regarding the permanent guardianship arrangement.
 - Describe permanent guardianship to the child
 - Explain the Guardianship Assistance Program benefits

Document the required language for GAP Eligibility in the Permanent Guardianship Case Plan

Siblings

When Siblings are Simultaneously Discharged to Permanent Guardianship

Child is placed with a relative or fictive kin.

Child is eligible for foster care board payments with relative/fictive kin for at least 6 consecutive months.

Case plan includes required language.

Guardian enters into a Guardianship Assistance Agreement for the child.

Court discharges the child with the guardian as a permanent guardianship.

When Second Sibling is Discharged to Permanent Guardianship after the child started receiving GAP benefits

Child is placed with a relative or fictive kin.

Child is eligible for foster care board payments with relative/fictive kin for at least 6 consecutive months.

Case plan includes required language.

Guardian enters into a Guardianship Assistance Agreement for the child.

Court discharges the child with the guardian as a permanent guardianship.

There are two possible scenarios to place siblings together based on the second sibling's placement timing.

If siblings are placed with a relative at the same time, they both go through the same GAP eligibility determination process, which includes: placing the child with a relative or fictive kin, being eligible for 6 months of foster care payment, including required language in case plan, signing guardianship assistance agreement, and discharging the child with the guardian as a permanent guardianship. Each requirement is evaluated for each sibling.

However, if a sibling is discharged to permanent guardianship after the guardian begins receiving GAP benefits for another sibling, the 6-months foster care payment eligibility requirement and the case plan items requirement are not required for GAP eligibility.

Documenting Siblings under the Guardianship Assistance Program Page

- Select the box indicating “Child has a sibling currently receiving a Guardianship Assistance payment with the same provider.”
- Indicate which sibling in the corresponding box.
- FSN will indicate Questions 2 and 3 are “N/A” as not needed for this eligibility determination.

Discharge to Permanent Guardianship

After discharge to Permanent Guardianship, the guardian should begin receiving GAP benefits. The following FSFN updates should be completed to initiate GAP benefits and finalize the program eligibility determination.

FSFN Updates

Initiating GAP Benefits

- Discharge the Out of Home Placement with the reason of Permanent Guardianship.
- Start a service for ALL children in GAP
- Even if a child will not receive a GAP payment because of SSI, the service will open as a \$0 service.
- Submit a Medicaid change row to update payee to Guardian.

Finalizing Program Eligibility

- Finalize the GAA by entering the effective date.
- Link court order for Program Eligibility Question 5.
- Update the Effective/Enrolled Date and Finalize Program Eligibility.
- End Case Management assignment and apply the local process for Primary assignment as the case remains open.

Finalize the GAA

- Finalize the GAA by entering the effective date. **Note:** this step occurs after Permanent Guardianship has been granted by the Court
