				https://tableau.dcf.state.fl.us/ The OCW is currently facilitating a CBC workgroup to establish Critical Child Safety Practice Experts (CCSPE) who will serve as Safety Model mentors for case management staff at each CBC in the state. Workgroup meetings were held October 3 -4 and November 13 – 14, 2017. Workgroup goals: Develop master level Child Welfare Professionals; Develop Training and Assessment; and Determine training and other supports needed for Supervisors to develop their skills and abilities within the practice model. ACTION provided CCSPE training on May 8 th and 9 th , 2018 where 8 CBC agency staff/trainers participated in the training. An area of focus identified to assist with family engagement is enhanced training for all supervisors regarding Supervisory Reviews and how to determine if quality contacts are occurring that can be used to guide their staff. A QA manger's meeting was held September 20 -21, 2018. Performance		decision making and safety planning is available at https://tableau.dcf.state.fl.us/ A QA manger's meeting was held April 4 - 5, 2019 and June 20 – 21, 2019. Performance information for PIP monitored cases, FI CQI cases, Rapid Safety Feedback and Fidelity reviews was presented. A case management proficiency refresher training was held May 7 – 9, 2019. The practice model and sufficiency of information collection across the domains of the Family Functioning Assessment were reviewed. This training was to develop Child Welfare Professionals within the CBC's who have the skillsets and competencies to ensure proficiency and fidelity within the model. The training and expectations for these proficiency experts was designed to encourage consistency within the candidates and the proficiency process they complete while allowing flexibility

It has been determined that the CPIs prefer a consultation from a subject matter expert rather than a formal assessment. In some parts of the state, behavioral health consultants with high levels of behavioral health expertise are out posted with the CPIs. The Behavioral Health Consultants provide immediate suggestions to the CPI, may accompany them to meet the parents or meet with the parents independently to make recommendations. Therefore, in lieu of formal assessments during the investigation, the department is working to increase the number of behavioral health consultants out posted in the CPI units.
