Southern Region PIP Monitoring Documentation Spreadsheet: Updated 10/2018

2018-2019 Quarter 3 Implementation Log

Strategies

The strategy is the implementation of specific child welfare practices, programs or policies that will be used to make improvements. Please note whether the strategy is an evidence-based, promising research program and whether it is part of a title IV-E demonstration waiver project. Strategies may be directed at making improvements under more than one goal. In those circumstances, identify each of goals.

Key Activities

Succinctly name and describe the key activities associated with the strategy, including a description of the target population(s) and geographic scope. Include the key activities associated with the strategy. Also, identify where technical assistance from the National Capacity Building Center will be requested.

Key activities are metrics such as a process measure, implementation milestone or benchmark, or interim improvement in outcomes or systemic factors. For each key activity, include the projected completion date. Key activities help determine whether the state is on track to make the required changes for implementation of the improvement.

		<p>The logs are submitted every Monday, Wednesday &amp; Friday to the Operations Manager. Daily reports are no longer uploaded as information is provided in Victims/Children Seen Weekly Tracking Logs.</p> <p>The logs allow the Region to track concerted efforts and identify trends with certain CPI's and/or Units. It also allows the PA's to track and staff cases that have been identified as Unable to Locate and to decide if a Pick-Up Order is necessary and if the case needs to be transferred to the Regional Criminal Justice Coordinator.</p> <p>The region continues to meet 100% for timeliness of victims and children seen for all PIP cases, however, regional performance on all cases has not met the goal since quarter 1. Trends identified during Q4 include data entry issues and a lack of urgency surrounding diligent efforts (addressed in a new key activity 3).</p> <p>This item was met, no further documentation is needed</p>
