**YOU MAY SUBSTITUTE A MEDICAL REPORT PREPARED BY YOUR OFFICE AS LONG AS THE MEDICAL REPORT SUBSTITUTED ADDRESSES ALL ELEMENTS IN THIS REPORT. PLEASE NOTE THAT IF A COURT ORDER IS NEEDED TO ADMINISTER THIS MEDICATION, SOME JUDGES MAY ASK FOR ADDITIONAL INFORMATION.**

Dear Physician:

The attached Medical Report has been developed to guide the treatment of children in the custody of the Florida Department of Children and Families who are prescribed a psychotropic medication. These children are not residing with their parent or legal guardian.

- Prior to prescribing a psychotropic medication, s. 39.407, F.S. requires the prescribing physician to attempt to obtain express and informed consent from the child's parent or legal guardian. This is required even when the medication is prescribed for medical reasons unrelated to behavioral healthcare.
- In the absence of the parent's express and informed consent or in emergency situations, the completed and signed Medical Report will be submitted to the court and admitted into evidence at a hearing. The information in the report will be used in lieu of a court appearance by the physician. Therefore, it is critical that all information contained in the report be complete and thorough.
- Express and informed consent may only be given by the child's parent or legal guardian. In no case may the dependency case manager, child protective investigator, or the child's foster parents provide express and informed consent for a child to be prescribed a psychotropic medication.

Florida Statute 39.407 requires physicians who prescribe psychotropic medications to children in foster care complete a medical report that includes the following information:

1. A statement indicating that the physician has reviewed all medical information which has been provided concerning the child.
2. A statement indicating that the psychotropic medication, at its prescribed dosage, is appropriate for treating the child's diagnosed medical condition, as well as the behaviors and symptoms the medication, at its prescribed dosage, is expected to address.
3. An explanation of the nature and purpose of the treatment; the recognized side effects, risks, and contraindications of the medication; drug-interaction precautions; the possible effects of stopping the medication; and how the treatment will be monitored, followed by a statement indicating that this explanation was provided to the child if age appropriate and to the child's caregiver.
4. Documentation addressing whether the psychotropic medication will replace or supplement any other currently prescribed medications or treatments; the length of time the child is expected to be taking the medication; and any additional medical, mental health, behavioral, counseling, or other services that the prescribing physician recommends.

Thank you for your work with children in the foster care system.

**SECTION 5: CERTIFICATION OF SIGNIFICANT HARM.** *This section must be completed when it is likely that any delay in taking the prescribed medication would cause significant harm to the child.*

I, the physician, have reviewed all medical information concerning this child provided to me by DCF/CBC and/or the child's caregivers, and certify that a delay in providing the prescribed psychotropic is likely to cause significant harm to the child as noted below:

- I find that it is likely that any delay in taking this medication would cause significant harm to this child.** I recognize that this finding statutorily *pre-authorizes* the Department to provide the proposed medication profile to the child immediately and prior to obtaining a court order. Delay in taking the psychotropic medication(s) will more likely than not harm the child.

Please provide detailed explanation of the nature and extent of harm the child will likely experience:  
ADHD

- This child is currently in a hospital, crisis stabilization unit, or psychiatric residential treatment center.** I recognize that this finding statutorily *pre-authorizes* the Department to provide the proposed medication profile to the child immediately and prior to obtaining a court order. A court order must then be sought within 3 business days.

---

**SECTION 6: MEDICATION INFORMATION.** *Section 39.407(3)(c)4., Florida Statutes (2009), requires that the Medical Report include information covering the recognized side effects, risks, contraindications, drug-interaction precautions, and possible effects of stopping medication for each medication. This information must be attached to this medical report. Medical reports without such information attached cannot be filed with the court.*

**Please attach the appropriate information for all psychotropic medications listed in section 3 of this report.**

- I have provided a copy of the attached medical information to the child and to the child's caregiver.
- I have also discussed this information with the child and with the child's caregiver.
