Appendix B	Number of Children who were Eligible for Adoption on 7/1 who were Adopted by 6/30 and Percent of Children Adopted
Appendix C	Length of Stay from Last Removal to Termination of Parental Rights and Termination of Parental Rights to Adoption

#### Annual Adoption Survey

#### Post Communication Survey

## Executive Summary

Through the development of specific and measurable performance standards, the Adoption Incentive Program is intended to improve the achievement of permanency, stability, and well-being for children residing in foster care who cannot be reunited with their families. Section 409.1662(2)(a), Florida Statutes (F.S.), requires the Florida Department of Children and Families (Department) to conduct a baseline assessment of Community Based Care Lead Agencies' and sub-contracted providers' performance in eight areas related to adoption of children in foster care. This report includes the most recent five years of available data.

Additionally, s.409.1662(4), F.S. requires the Department to report to the Governor and Legislature on the negotiated targets set for number of adoptions finalized, outcomes achieved, and incentive payments made to each Community-Based Care Lead Agency (Lead Agency) during the previous Fiscal Year (FY). The implementation of the Community Based Care Adoption Incentive Program has historically assisted in increasing the rates of children adopted from care. However, it should be noted that no allocation of funding for the Adoption Incentive program, whereby a financial award is made to each Lead Agency, was made in FY 2022-2023. Should funding be allocated for FY 2024-2025, specified adoption performance measures will once again be identified and negotiated with each Lead Agency.

Key Findings in the FY 2022 -2023 report include:

- 16 of the 18 Lead Agencies had five or fewer preventable adoption disruptions for a total of 66 preventable disruptions.
- In FY 2021-2022, there was a decline in the number of dissolutions from 72 dissolutions to 58 dissolutions.
- A total of 799 responses were received from the Annual Adoption Survey. Overall, participants reported the timely completion of the adoption home study, responding timely to questions and offering transparency during the adoption process.
- A total of 33 responses were received from the Post Communication Survey. Most of the families indicated they requested assistance with adoption subsidies, mental health and behavioral health.

## Comprehensive Baseline Assessment

Pursuant to s.409.1662(2)(a), F.S., the Department conducted a comprehensive baseline assessment of the eight required adoption performance areas, with five years of available data analyzed for each. To compile this report, the available data was extracted from the Florida Safe Families Network (FSFN), Florida's child welfare system of record.

### 2023 Adoption Baseline Data

#### 1. The number of families attempting to adopt children from foster care and the number of families completing the adoption process.

The chart below depicts the total number of adoptions through the Department and the actual number of families who adopted at least one child each fiscal year during the five-year assessment period. Refer to Appendix A for CBC Lead Agency data.

## 2. The number of children eligible for adoption and the number of children whose adoptions were finalized.

The chart below illustrates the overall trend in the number of children eligible for adoption on July 1st of the fiscal year and the subset of those children who were subsequently adopted by June 30th of that fiscal year. Refer to Appendix B for Lead Agency data.

### 3. The length of time eligible children waited for adoption.

In Florida, children are not eligible for adoption until the parental rights of their legal and/or biological parents have been terminated. The chart below represents the average length of time from the termination of parental rights (TPR) to adoption for children who had a finalized adoption during the five-year baseline assessment period. Refer to Appendix C for Lead Agency data.

**4. The number of adoptions that resulted in disruption or dissolution and the subset of those disrupted adoptions that were preventable by the Lead Agency or the subcontracted provider.**

The following chart shows a listing of the total disruptions and those that were preventable by the Lead Agency or the subcontracted provider. An adoption disruption is defined as removing a child from a pre-adoptive placement prior to adoption finalization. A preventable disruption is when a family withdraws their expressed intent to adopt prior to the finalization of the adoption. The data indicates there were a total of 66 preventable disruptions statewide for FY 2022-2023.

<b>Number of Total and Preventable Disruptions July 1, 2022 through June 30, 2023</b>			
<b>Primary Agency</b>	<b>Number of Preventable Disruptions</b>	<b>Total Disruptions</b>	<b>Percent Preventable</b>

C 20 Children's Network of SW Fla	4	6	66.67%
<b>Statewide</b>	<b>66</b>	<b>110</b>	<b>60.00%</b>

An adoption dissolution occurs when an adoptive child returns to out-of-home care and the parental rights of the adoptive parents are terminated. Dissolutions are tracked manually by the Lead Agencies and reported to the Department.

Lead Agencies report that most dissolutions occurred due to behavioral challenges and mental health needs that some adoptive parents indicated they were unable to manage. Additional funding received through the 2023 legislative session is being provided to Lead Agencies to expand post adoption services to better support families to prevent dissolutions.

*Note: Dissolutions are tracked a year behind.*

## 5. The time taken to complete each phase of the adoption process.

There are two clear phases of the adoption process. The first is the time between the removal of the child from their biological and/or legal parents to the termination of paternal rights of both parents. The second phase begins with the termination of parental rights of both parents and ends with the finalized adoption of the child.

The chart on the next page displays the length of time to complete each phase of the adoption process during the last five state fiscal years, as well as the total length of time it took to reach adoption completion. Refer to Appendix C for Lead Agency data.

**6. The expenditures made to recruit adoptive homes and a description of any initiatives to improve adoption performance or streamline the adoption process.**

Lead Agencies and their subcontracted providers utilize several resources, such as foster and adoptive parent support groups, community fairs, churches, local media outlets, and social media to recruit adoptive homes for available children throughout the state. For FY 2022-2023, there were a total of 11 Lead Agencies who were able to provide data on completed recruitment activities. The total expenditures reported by Lead Agencies for adoption-related activities was \$28,005.

**7. The results of any specific effort to gather feedback from prospective adoptive parents, adoptive parents, children in the child welfare system, adoptees, and other stakeholders.**

Annual Adoption Survey

The Department, in conjunction with the Lead Agencies, conducted an Annual Adoption Survey to gather feedback from prospective and adoptive parents, children in the child welfare system, adoptees, and other stakeholders.

The survey inquired as to the participants' overall adoption experience, the quality and timeliness of services, and post-adoption services/supports in their area. A total of 799 responses were

received which is a 58 percent increase over last year's response rate. A copy of the survey instrument, along with the outcomes, is attached to this report.

Overall, participants reported their Lead Agencies excelled in three areas: the completion of the adoption home study, responding to questions timely, and offering transparency during the adoption process. Most participants expressed Lead Agencies could improve with post-adoption services/supports and assistance with accessing post-adoption services/supports. The Department utilizes these survey results to inform training topics for the adoption community and technical assistance provided to Lead Agencies.

#### Post Communication Survey

Per s.39.812(6), F.S., once a child's adoption is finalized, the Lead Agency must make a reasonable effort to contact the adoptive family by telephone one year after the date of finalization as a post-adoption service. The intent of this survey is to determine the types of services received by the family and the quality of those services. There was a total of 3,602 finalized adoptions this fiscal year and 277 families who requested and accepted post adoption services. Although the post adoption survey was provided to each family who requested and received services, there were only 33 responses. The Department will continue to work in conjunction with the Florida Adoption Information Center and Lead Agencies to increase the number of respondents to the Post Communication Survey in the future. The survey instrument and outcomes are included in this report.

Most families who responded to the survey indicated they requested assistance with adoption subsidies and accessing mental health services. The Department continues to provide statewide training opportunities to Lead Agencies, case management organizations, and adoptive parents on topics that include maintenance adoption subsidies, Medicaid, and post-adoption services and supports.

**8. The use of evidence-based, evidence-informed, promising, and innovative practices in recruitment, orientation, and preparation of appropriate adoptive families, matching children with families, supporting children during the adoption process, and providing post-adoptive support.**

Lead Agencies throughout the state reported the deployment of various tools and practices used in the preparation of appropriate adoptive families, such as orientation, matching children with families, supporting children through the adoption process, and providing post-adoption supports.

Statewide Practices

Lead agencies have implemented various evidence-based, evidence-informed, promising and innovative practices in recruitment, orientation and preparation of appropriate adoptive families, supporting children during the adoption process and providing post-adoptive support.

Embrace Families

Embrace Families has established a specific Adoption team with members who will discuss children available for adoption with families who have completed the approved parent preparation training. The outcome has shown an increase in the number of interest/inquiries of the local foster/adoptive families on children that are immediately explored.

Northwest Florida Health (NWFL Health)

NWFL Health has implemented the requirement for Post Adoption Specialist to participate in match staffings to become familiar with children that have no identified homes in order to support matched families better after finalization. The Post Adoption Specialist is able to provide a post-finalization viewpoint on struggles families who they may have encountered during the matching process and become a familiar face to the matched families prior to finalization. This allows the matched families to become more familiar with post adoption support before finalization occurs and are more likely to reach out for supports and services prior to reaching a crisis point.

NWFL Health has expanded its in-person events where staff are present to raise awareness of the need for adoptive homes for waiting children. Some of the events include local Ice Flyers Hockey games, Blue Wahoos Baseball games, Bands on the Beach, Double Ridge Run, Gallery Nights, Poker Run, Pensacola Arts Festival, Juneteenth Community Festival and church presentations.

# **ANNUAL ADOPTION SURVEY**

**July 2022 – June 2023**

Department of Children and Families

Office of Child and Family Well-Being

November 15, 2023

Shevaun L. Harris

Secretary

Ron DeSantis

Governor

## **Introduction**

In an effort to improve adoption services, the Department of Children and Families (Department), in conjunction with Lead Community Based Care Lead Agencies, are conducting an Annual Adoption Survey to gather feedback from adoptive parents, adoptees and other stakeholders.

The Department is soliciting your feedback through this Annual Adoption Survey. Your perspectives, input and support are critical to the continued health of the child welfare system.

The Annual Adoption Survey should take approximately **7 minutes** to complete. Responses to this survey are anonymous.

Thank you in advance for your response.

Please select your primary involvement in the adoption process, if any:

What is the primary county you work in or worked with during your adoption process?

What area(s) does your lead Community Based Care Lead Agency and/or Case Management Organization Agency excel in? Please select all that apply.

What area(s) does your lead Community Based Care Lead Agency and/or Case Management Organization Agency need to improve in? Please select all that apply.

What do you believe is the number one challenge affecting the stability and well-being of Florida’s adoptive children?

Based on your experience during the last 12 months, please rate the quality and timeliness of the following:

In what way can the State of Florida improve their adoption service delivery? Please select all that apply.

Are you aware that the State of Florida has an Adoption Information Center?

Based on that knowledge, what services does Florida's Adoption Information Center offer?  
Please select all that apply.

## **POST COMMUNICATION SURVEY**

Department of Children and Families

Office of Child Welfare

November 15, 2023

Shevaun L. Harris

Secretary

Ron DeSantis

Governor

## **Introduction**

Each year the Department of Children and Families (Department), in conjunction with Community Based Care Lead Agencies, conducts a Post Communication Survey to gather feedback from families that requested and received post-adoption services. The intent of the survey is to determine the types of services received by the family and the quality of the services provided.

In order to assess the quality and quantity of our post-adoption programs, we need to hear from our adoptive parents who are the true customers of post-adoption services. Post-adoption services include all services and staff available to assist you as an adoptive parent and your adopted child, until the child turns age 18.

Please help us by taking a little time to answer the questions below. The Post-Adoption Communication Survey should take less than **15 minutes** to complete. Responses to this survey are anonymous.

We very much want to hear from you and appreciate your input. Please call 1-800-96- ADOPT if you have questions.

Thank you in advance for your response.

*Annual Post Adoption Services Communication Survey-2022-2023*

**Please select your primary involvement in the adoption process, if any...**

**Please indicate your current age range:**

Please indicate your gender:

### Are you currently ...
