

Commission on Mental Health and Substance Use Disorder
System of Care Subcommittee Workgroups
March 27, 2024

To Be Addressed	Champions*	Bulleter Recommendations	Partners to Mobilize Recommendations	Impact of Recommendations
Skills-based Training Evaluating and making recommendations regarding skills-based training that teaches participants about mental health and substance use issues, including, but not limited to, mental health first aid models.	Melanie Brown-Woofter			
Individuals with Unique Needs Evaluate the availability and accessibility of behavioral health services and make recommendations to address the needs of the elderly population and persons with disabilities.				
Deep-end services Analyze the utilization of deep-end services such as residential and state mental health treatment facilities. In terms of opportunities, examine the FACT model, is there enough capacity?	Roaya Tyson and Tracy Smith			

**The champions identified in the second column should be thought leaders in space and are not required to be members of the Commission or subcommittee.*
