

Public Encampment Financial Hardship Only Checklist

This checklist is meant to aid Florida counties in submitting a stand-alone finding of financial hardship exemption per section 125.0231(3)(e), Florida Statutes, for fiscally constrained counties.

This stand-alone submission might be required if a financial hardship finding was not included in the original public encampment certification request for property which a county has designated as a public camping or sleeping site, or if this finding occurred after the Department certified one or more county designated public camping or sleeping sites.
