Introduction

- The Florida Department of Children and Families (FL DCF) is partnering with Public Consulting Group LLC (PCG) to begin the administration of the Random Moment Time Study (RMTS) in PCG's EasyRMTS™ system
- On April 1, 2023, all CPI staff members in the current RMTS will begin using the EasyRMTS™ system to support FL DCF's cost allocation plan (CAP) and program cost claiming

**The RMTS is part of a
larger cost allocation
process**

Why RMTS?

- Most efficient cost allocation methodology for a large sampling population and takes less than one minute to complete
- Required to provide “personnel activity reports or equivalent documentation” to allocate personnel costs to federal awards
- Considered a valid cost allocation methodology by federal partners and will allow the Department to continue utilizing federal dollars to support CPI costs
- RMTS is responsible for DCF receiving over \$7 million in funding

When Completing an RMTS

IMPORTANT: If you are performing any function of an investigation, you **MUST** include the intake number.

Functions of an investigation:

- Pre-commencement work
- Driving to a location to interview
- Driving to court to testify or witness what happens
- Calling a collateral contact
- Entering your notes
- Completing FSFN documentation

Not functions of an investigation:

- Flexing out time
- Attending a training
- All staff meetings
- Lunch
- Driving to work

What is a Random Moment Time Study?

- An RMTS is a process where participants are emailed short surveys and asked to indicate what they were doing at an assigned minute or “moment” through a series of questions
- The RMTS is continuous (all working days of the year going forward). Historical data cannot be used to claim current or future costs
- The survey is required to determine the collective amount of time (and cost) spent on various activities
- Based on these results FL DCF determines the amount that can be charged to various funding sources.

RMTS Myths

- An RMTS is not a “big brother” tool to monitor participants
- An RMTS is not a job performance evaluation tool
- An RMTS cannot be used to determine what a single participant is doing throughout the day
- No answer is better than another (the “right” answer is what you happened to be doing at the time of your survey)

Account Setup

1. You will receive an automatic email when you have been added to the EasyRMTS™ system.

Note: The subject of the email will read “You Have Been Added to the FL DCF – Child Protective Investigation Random Moment Time Study”

2. The email will contain a temporary password. The temporary password is valid for 48 hours.
3. Your username is your email address. Log in to the system using the temporary password provided.
4. Complete the security questions and set up an EasyRMTS™ password.

Your Password Must Contain:

1. At least 8 Characters
2. One Uppercase Character
3. One Lowercase Character
4. One Number
5. One Special Character (!@#?)

PCG's web-based random moment sampling software, EasyRMTS™, is a proprietary random moment sampling tool that is used to conduct statistically valid random moment time studies (RMTS) of a group of workers. EasyRMTS™ uses a decision-tree question design that allows each time study to be set up in a way that ensures participants select only valid combinations of programs and activities.

PCG's EasyRMTS™ system has many features, including but not limited to:

- Decision-tree response process.
- Flexible sample parameters (e.g., number of moments, sample response times, etc.).
- Ability to set multiple reminders and cc supervisors.
- User-friendly calendar functionality.
- Ability to set multiple work schedules and time zones.
- Configurable administrator dashboard.
- Approved random moment generation algorithm.
- Automated sub-sample process.
- Quality control checks when recording responses.
- Standard reports that meet result tabulation and monitoring needs.
- Customized reports.
- Customized, detailed user manual.
- Secure website and data transfer.
- Secure login credentials.
- Configurable roles and user access permissions.
- Extensive data back-up and disaster recovery plan.

Email Based System Overview

1. You will receive an email that contains information that you have been selected to complete an RMTS for FL DCF.

*** Note: The subject of the email will read: “URGENT! TIME SENSITIVE RMTS RESPONSE REQUIRED”**

2. You will log on to <https://www.easyrmtspcg.com/> using your username and password. This link is contained in the email.

***Note: The RMTS email participants receive comes from FLDCF_CPI@pcgus.com**

3. Once logged in, you will select the specific moment to respond to.

*** Note: If you have multiple outstanding moments, each moment will be listed.**

4. The first question will always be: “Were you working on a case at the assigned moment?”

Email Based System Overview (cont.)

5. Based on the response, you will be guided through a series of questions asking what the activity was that they were performing at the specific day and time of the moment.
6. If you selected “Yes” to the first question, you will be asked to provide an Intake Number, specify the program, and then select the activity you were working on.
7. If you selected “No” to the first question, you will be asked to select a Non-Case related activity.
8. You “submit” the response once the RMTS has been completed.

**You have 24 hours to respond to the assigned RMTS!
Please respond within 1 business day!**

**You will receive reminder emails at 4 and 6 hours after
the initial email if you have not yet responded.**

Subsample Process

- 10% of all surveys include a text box with a question asking for a description of the activity being performed at the time of the survey
- A subsample is required to ensure the proper activity codes are selected relative to the activity being performed
- Please answer as accurately and succinctly as possible to allow for a proper review of RMTS results
- Make sure that the response corresponds to your selected activity, or the survey may be invalidated
- RMTS administrators will review subsample responses and will notify participants of invalid selections or request additional info if needed.

Some Tips for Your Subsample Response:

- *Spell out any acronyms used in your response*
- *Don't just repeat the activity name—describe the activity you were performing in more detail, including what you were doing and why.*
