1 Introduction

1.1 Purpose

The purpose of this document is to give a high level overview of the security server and how to access the FASAMS Web Services.

There are two major concepts discussed:

- FASAMS Security Server – Basic description and example of requesting an access token.
- Accessing FASAMS Web Services – How to include the access token as a header when making requests to the portal web services

1.2 Scope

This document is intended for software engineers with a basic background and understanding of the following concepts:

- RESTful Web Services
- JSON
- OAuth2/OpenID Connect

1.3 References
