TERMS AND DEFINITIONS

Terms	Description

SCOPE

INITIAL REQUEST & ASSUMPTIONS

Business Statement

DCF and the submitting entities require the undo delete function be removed from FASAMS.

Scope Definition

FEI will remove the code that controls the undo delete function from FASAMS. FEI will create a new error message that will display when a user submits an undo delete XML file. Finally, FEI will update the FASAMS code to allow a user to submit a record with the same SRI as a record that has previously been deleted. FEI will update the Pamphlet 155-2 to remove all undo-delete verbiage throughout.

Assumptions, Constraints, Dependencies

-

EXISTING FUNCTIONALITY

FASAMS allows users to delete a record and then undo that deletion with an undo-delete action in XML. Users are not allowed to submit a record with an SRI that is the same as a previously deleted record or they will receive an error.

PROPOSED FUNCTIONALITY

FASAMS will not allow users to undo-delete a record that was previously deleted. Any deleted records will be marked as deleted in the system and it will not be possible to make them active again. FASAMS will allow users to submit a record with the same SRI as a previously deleted record without generating an error. FASAMS will show an error if a user submits an undo-delete XML file which will inform them that the undo-delete action is not accepted by FASAMS.

INITIAL ESTIMATE/ QUOTE HISTORY

Phase/ Quote Date	TFS Item #(s)	Description	Estimate/ Quote
4/28/2021	436839	Initial Estimate	91 - 180
4/28/2021	436839	Final Estimate	Final Estimate: Analysis - 15 Dev - 72 Test - 32 Acct / Project Management - 10 Total - 129

REQUIREMENTS

1. REMOVE UNDO-DELETE AS AN ALLOWABLE XML ACTION

Req. ID	Requirement	Ref. ID	Dev	QA
1.0	Remove undo-delete code from FASAMS		<input type="checkbox"/>	<input type="checkbox"/>
1.1	Update code to allow a user to submit a record with the same SRI as a record that was previously deleted <ul style="list-style-type: none"> No error should occur in this scenario Note: the system should not undo delete a previously deleted record in this scenario 		<input type="checkbox"/>	<input type="checkbox"/>
1.2	Create new error when Undo-delete is submitted <ul style="list-style-type: none"> Error is triggered when a user submits an XML with action="undo-delete"> Error Message: "FASAMS does not support Action = "undo-delete" in XML files. <p style="text-align: center;">Root Cause: The File submitted contains undo-delete action type"</p>		<input type="checkbox"/>	<input type="checkbox"/>
			<input type="checkbox"/>	<input type="checkbox"/>
			<input type="checkbox"/>	<input type="checkbox"/>
			<input type="checkbox"/>	<input type="checkbox"/>
