 - Meeting held on: Meeting held 11/30/21. Meeting began with review of record results and submissions to date. Most of the meeting was focused on the PAC to POM solution which DCF is continuing further investigation but this appears to be the likely fix. Also identified is work currently underway regarding the Subcontract section, and specifically validation rules. DCF clarified that no changes have been made except for turning off some rules which should increase service event submission. Final conversation of meeting had to do with concerns over Chapter 5 and some issues identified. DCF acknowledged the rollout of Ch 5 was less than optimal and there are still some edits to be made. Meeting concluded.
