 - WI 316497 - Remove dashes from SSN and PSSN prior to saving in Db
 - WI 436839 - Remove Undo delete function
- Unexpected Error

The FASAMS Unexpected Error issue has been identified as a problem with data throughput in the Amazon Web Services (AWS) product. FEI is actively working with AWS to replicate and resolve the issue. The current workaround for the unexpected error is to **resubmit the file again and it will process correctly**. FEI will continue to keep the community updated as more information is known and a solution is identified.

This issue is still being resolved and the action plan under development will be presented at the next DCF DAC JAD on 6/8/21.

If you are encountering this issue and require assistance – contact Greg Nix directly (gregory.nix@myflfamilies.com or 850-717-4138)

DO NOT SUBMIT A HELPDESK TICKET UNTIL YOU HAVE SPOKEN WITH GREG.

He will determine if a HD Ticket is necessary. We do not want anyone's work to be held up unnecessarily as a result of this unexpected error. As this issue is resolved we will communicate with the Managing Entities data personnel at our weekly DCF DAC JAD and in the Stakeholder Report until we have achieved problem resolution.
